## A Policy Commission Report

## INTRODUCTION

Every year, the West Virginia Higher Education Policy Commission Office of Research and Technology compiles a listing of West Virginia's college going rates by county and high school. This report would not be possible without the gracious hard work and contributions from the colleges and universities, high schools, county superintendents, and the West Virginia Department of Education.

The improvement of literacy rates, educational levels, and college going rates are important goals for the betterment of the State and its economy. The college going rate echoes the successes of the Governor, legislators, government agencies, students, and parents in contributing to the State's education system as a whole. Success in this area is hard-won through diligence and constant attention. The attached report makes an effort to document progress to identify areas for continued efforts for improvement.

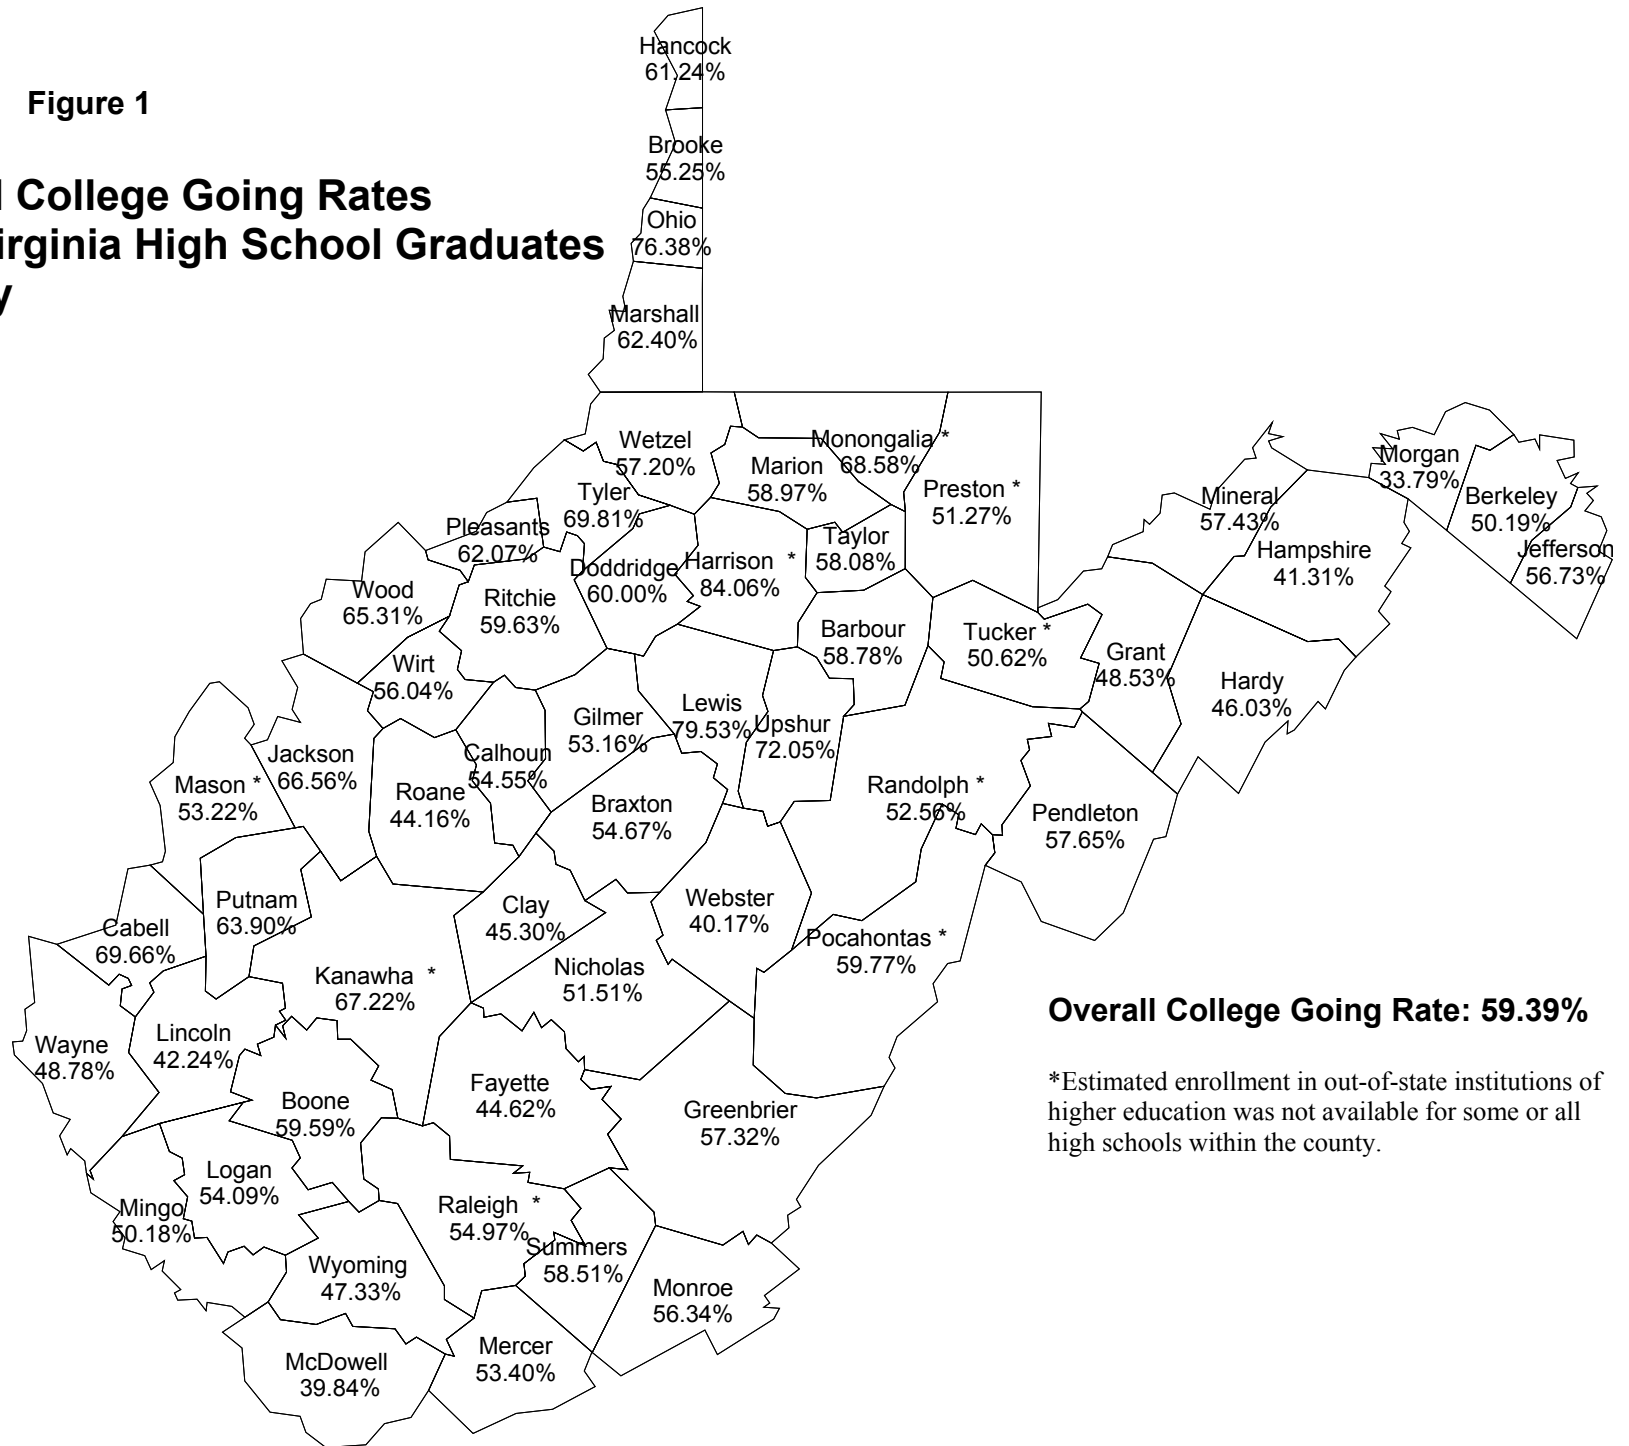

In order to make this information even more widely available, the report may also be found on the WVHEPC web site at <http://www.hepc.wvnet.edu/resources/reports.html>. Any questions or suggestions for improvement should be sent to Ms. Jeannie Reed at (304) 558-1112 or by e-mail at [reedjr@hepc.wvnet.edu](mailto:reedjr@hepc.wvnet.edu).

## **West Virginia College Going Rate Highlights Fall 2003**

- Of the 17,971 students who graduated from public or private high schools in West Virginia during 2002-03, an estimated 10,673 (59.39%) enrolled in higher education institutions in the Fall 2003 semester. **This reflects a 2.86% increase over 2002's rate of 56.53%.**
- 8,941 of these West Virginia high school graduates enrolled in one of the state's public (42.07%), independent (4.90%), or degree-granting proprietary (2.79%) colleges or universities. This generates an in-state college going rate of 49.75%. **This is a 3.24% increase over last year's figure of 46.51%.**
- In addition to the high school graduates enrolled in a West Virginia college or university in Fall 2003, it is estimated that another 1,732 (9.64%) were attending a college or university in another state. **This reflects a 0.38% decrease from 2002's figure of 10.02%.**
- The most current national data from 2000 showed a 52% enrollment rate for high school graduates, compared to the 57% national average.
- The 2000 national data also show that **West Virginia had a 74% high school graduation rate**, compared to the national average of 66%. This comparatively high graduation rate contributed to the **39% of West Virginia's 9th graders attending college within four years**, compared to the national average of 38%.

# Estimated College Going Rates of West Virginia High School Graduates By County Fall 2003

**Note:**

Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all out-of-state higher education enrollment can be tracked. Therefore, these figures will not exactly match nationally-published overall going rates for West Virginia.

Note: Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all of the out-of-state higher education enrollment can be tracked, therefore these figures will not exactly match nationally published overall going rates for West Virginia.

# Estimated enrollment in out-of-state institutions of higher education was not available for some or all high schools within the county in 2001.  
\* Estimated enrollment in out-of-state institutions of higher education was not available for some or all high schools within the county in 2002.  
@ Estimated enrollment in out-of-state institutions of higher education was not available for some or all high schools within the county in 2003.

Notes:

1) Data from the International Academy of Design & Technology was not available for 2001 and 2002.

2) Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all of the out-of-state higher education enrollment can be tracked. Therefore these figures will not exactly match nationally published overall going rates for West Virginia.

\* Estimated enrollment in out-of-state institutions of higher education was not available for some or all high schools within the county.

NAv=estimated enrollment in out-of-state institutions of higher education was not available.

Note: Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all of the out-of-state higher education enrollment can be tracked, therefore these figures will not exactly match nationally published overall going rates for West Virginia.

\* Decrease in Glenville's 2003 enrollment reflects discontinuance of its community and technical college, with transfer of programs to Fairmont State and Bluefield State College.

\*\* Students reported at Eastern WV Comm & Tech College were officially enrolled at Southern WV Comm & Tech College in courses provided at Eastern.

**WEST VIRGINIA ESTIMATED COLLEGE GOING RATE**  
**By Higher Education Component**  
**Fall 1999 to Fall 2003**

**Note:**

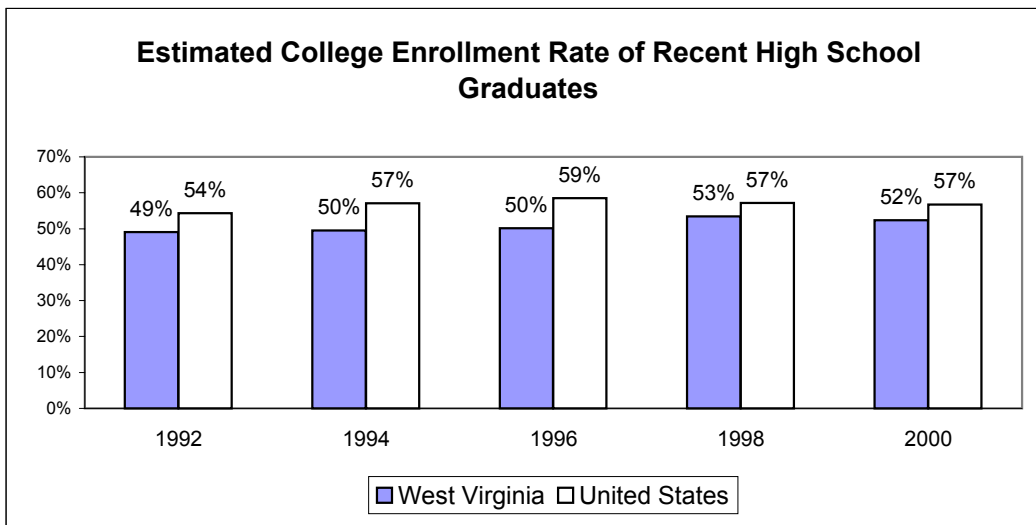

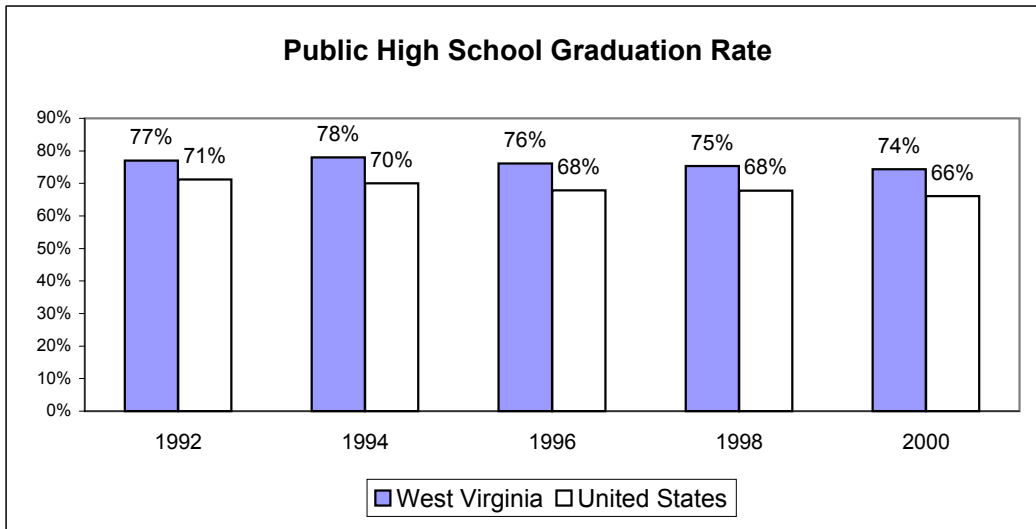

Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all out-of-state higher education enrollment can be tracked. Therefore, these figures will not exactly match nationally-published overall going rates for West Virginia.
