INDEPENDENT AUDITORS' REPORT

To the Governing Board
Shepherd University
Shepherdstown, West Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Shepherd University (the University), a component unit of the West Virginia Higher Education Fund, as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of the Shepherd University Foundation, Incorporated (the Foundation), a discretely presented component unit of the University, which represents 100% of the assets, revenues and net assets of the discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Foundation, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Governing Board
Shepherd University

Opinions

In our opinion, based on our report and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the University as of June 30, 2020 and 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 – 12, the Schedule of Proportionate Share of Net Pension Liability and Contributions on page 79, and the Schedule of Proportionate Share on Net OPEB Liability and Contributions on page 80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2020, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Shepherd University

Management Discussion and Analysis

Fiscal Years 2020 and 2019

About Shepherd University

Shepherd University (the “University”) is a state-supported institution within the West Virginia system of higher education. The University was founded in 1871. It offers Bachelor of Arts, Bachelor of Fine Arts, and Bachelor of Science degrees in a wide range of fields, encompassing the liberal arts, business administration, teacher education, the social and natural sciences, and other career oriented areas. Graduate programs include the Master of Arts in Teaching, Master of Arts in Curriculum and Instruction, Master of Business Administration, the Master of Arts in College Student Development and Administration, and the Master of Science in Data Analytics and Information Systems and the Doctoral program in Nursing Practice. Shepherd is in preparation to launch a completely online program, beginning with selected graduate degree programs. The University is accredited by The Higher Learning Commission of the North Central Association (HLC). The HLC has reviewed our proposal to initiate this program and has approved this method of delivery as early as spring, 2021.

Overview of the Financial Statements and Financial Analysis

This discussion will emphasize significant changes reflected in the FY20 data compared to the financial statements presented for FY19. There are three financial statements presented: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. This discussion and analysis of the University’s financial statements provides an overview of its financial activities for the year and its required supplemental information. Discussion is included throughout this report related to the COVID-19 pandemic and the changes both in course delivery and in the financial impact in Fiscal Year 2020 and ongoing into Fiscal Year 2021. Many challenges have been and will continue to be addressed as the University responds in the most responsible way to protect our students, staff and faculty, while providing the most reasonable and safe learning environment on and off of our campus. The initiation of the online learning degree program will assist those in the workforce who find it difficult to attend onsite classes. Further, this is an opportunity to offer degree programs to students located both near and far and will enhance our revenue for Fiscal Year 2021.

Statement of Net Position

The Statement of Net Position presents end-of-year data concerning assets (current and noncurrent), deferred outflow of resources, liabilities (current and noncurrent), deferred inflow of resources and net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) of the University as of June 30, 2020 and 2019. The difference between current and noncurrent assets and liabilities is discussed in the footnotes to the financial statements.

From the data presented, readers of the Statement of Net Position can determine the assets available to continue the operations of the institution. They may further determine how much the institution owes

vendors and lending institutions. Finally, the Statement of Net Position provides a picture of net position and the availability of carryover funds for use by the University in future years.

Components of net position are divided into three major categories. The first category, net investment in capital assets, provides the institution's equity in property, plant, and equipment owned by the institution, net of any accumulated depreciation and related debts. The second asset category is restricted, which is divided into two categories, nonexpendable and expendable. Shepherd University does not currently have nonexpendable restricted resources since all funds of this nature are directed to the Shepherd University Foundation. The corpus of nonexpendable restricted resources would be available only for investment purposes. Expendable restricted resources are available for expenditure by the institution but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The third category is unrestricted net position. Unrestricted net position is available for any lawful purpose of the institution.

Condensed Schedules of Net Position

(In thousands)

	June 30		
	2020	2019	2018
Assets:			
Cash	\$ 10,018	\$ 9,575	\$ 11,019
Other Current Assets	1,847	1,282	2,242
Noncurrent Assets	109,360	113,220	117,896
Total Assets	121,225	124,077	131,157

Restricted - Expendable	469	835	513
Unrestricted	(3,068)	(5,680)	(3,893)
Total Net Position	\$ 69,751	\$ 70,374	\$ 74,928

Assets

Total Assets for FY20 decreased approximately 2.3 percent to \$121 million compared to \$124 million for FY19 and compared to a decline of 5.4 percent, \$7.1 million from FY18 to FY19. However, within Current Assets, Cash increased by \$443,154 from the previous year. This reversed the trend from FY18 to FY19 with the decline in Cash of \$1.44 million. This is the first fiscal year since FY15 that there has been an increase in cash, when comparing year-over-year. The decline in student enrollments is being offset by a 3.1 percent Tuition & Fee increase for in-state tuition and fees and a 1 percent increase in out-of-state tuition and fees for the academic year beginning in FY19. Further, the increase in the State Appropriation of \$2.7 million provides an additional resource to stabilize Cash.

The majority of non-current assets are comprised of capital assets. These assets are reported net of accumulated depreciation. The University's annual investment in capital projects and equipment can significantly impact the value of non-current assets from year to year. The University again deferred many noncritical large capital projects in FY20 that would have offset accumulated depreciation. However, there were two projects, the Student Center and Knutti Hall roof replacements started in FY20 and completed in FY20 and FY21, respectively. Non-current assets decreased by \$3.9 million compared to FY19, continuing the trend from FY18 to FY19 which declined \$4.7 million.

The net result of FY20 activities resulted in a \$2.9 million decrease in total assets.

Deferred Outflows of Resources:

Deferred Outflows of Resources represent the consumption of Net Position by the University that is applicable to future years. There is a decrease in deferred outflows of \$157,056 from FY19 to FY20. In FY20, the University had combined deferred outflows of resources related to pensions and other postemployment benefits of \$1,023,020, as required by both GASB 68 and GASB 75. This deferred outflow of resources directly relates to the required contributions the University has made on behalf of employees enrolled in the defined benefit pension plan (GASB 68) and contributions the University has made on behalf of employees eligible to receive other postemployment benefits (GASB 75).

Liabilities:

Liabilities include but are not limited to Accounts Payable, Accrued Liabilities, Unearned Revenues, Bonds Payable and Other Post-Employment Benefits (OPEB) liability. Total Liabilities decreased 6.1 percent, \$3.2 million from FY19 to FY20. This is comparison to the 4.8 percent decrease, \$2.67 million from FY18 to FY19.

Significant changes include:

- An increase in Accounts Payable of \$226,169 from FY19 to FY20, reflecting the processing and payment delay caused by the COVID-19 pandemic, which required many employees across the State to adopt remote workplaces.

- A decrease in Accrued Liabilities of \$528,389 at fiscal year-end.
- A decrease in the OPEB liability of \$2,001,806 is due to GASB 75 actuarial calculations provided by the State. The State has established the West Virginia Retirees Health Benefit Trust Fund which will be used to eliminate the liability over time.

Deferred Inflows of Resources:

Deferred Inflows of Resources are the acquisition of net position by the University that are applicable to future years. In FY20, the University had deferred inflows of resources related to pensions and other postemployment benefits of \$3,088,070. This is a direct result of the ongoing actuarial calculations provided by the State as they pertain to GASB Statement No. 68 and to GASB Statement No. 75. The amount of increase in FY20 of \$811,469 represents a 35.6 percent increase, as compared to FY19.

Net Position

From FY19 to FY20 Total Net Position decreased by \$622,582. Unrestricted net position overall increased significantly by \$2.6 million as a continued result of GASB No. 68 and GASB No. 75 requirements to record the unfunded pension liabilities and the other post-employment benefit liabilities based on actuarial calculations provided by the State. In addition, the Total Net Position decrease resulted from the continued losses in operating results. However, in FY20, the loss is under \$1 million, which is a significant improvement over FY19. This is a result of the tuition and fees revenue exceeding the budgeted amount, the Board of Governors Task Force mandated reductions in all expenses, including personnel and operating, as well as the additional \$2.7 million funding from State appropriations. This reversed the trend from FY18 to FY19, which reported a decline in net position of \$4.55 million.

Statement of Revenues, Expenses, and Changes in Net Position

Changes in Total Net Position on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Position. The purpose of the statement is to present the revenues received and expenses paid by the institution, both operating and non-operating, and any other revenues, expenses, gains, and losses received or expended by the University.

Operating revenues are received to provide goods and services to the various customers and constituencies of the University. Operating Expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the institution. Revenues received for which goods and services are not provided are reported as non-operating revenues. For example, State appropriations are non-operating because they are provided by the State to the institution without the State directly receiving commensurate goods and services for those revenues.

Condensed Schedules of Revenues, Expenses, and Changes in Net Position

(In thousands)

	Years Ended June 30,		
	2020	2019	2018
Operating Revenues	\$ 32,310	\$ 34,784	\$ 37,297
Operating Expenses	54,033	56,089	58,393
Operating Loss	(21,723)	(21,305)	(21,096)
Nonoperating Revenues - Net	21,056	16,683	15,104
Capital Grants	44	68	-
Decrease in Net Position	(623)	(4,554)	(5,992)
Net Position - Beginning of Year	70,374	74,928	79,941
Cummulative effect of change in accounting principle	-	-	979
Net Position - Beginning of Year, restated	70,374	74,928	80,920
Net Position - End of Year	\$ 69,751	\$ 70,374	\$ 74,928

Operating Revenues:

Operating Revenues consist of student tuition and fees, contracts and grants, interest on student loans receivable, sales and services of educational activities, auxiliary enterprise revenue and other operating revenues. Total operating revenues for FY20 decreased by \$2.5 million or 7.1 percent compared to the 6.7 percent, \$2.5 million decline from FY18 to FY19.

Student tuition and fees revenue increased by \$504,932 in FY20. The rates remained the same as FY19, which included a combination of a 3.1 percent tuition increase for in-state students and the 1 percent tuition increase for out-of-state students. Overall, student tuition and fees as a percentage of total operating revenues increased from 49.9 percent to 44.9 percent.

Grants and contracts comprise approximately 17.4 percent of the operating revenues and total \$5.6 million in FY20. This is a \$15,166 decrease from FY19, which is a result of an increase in federal grants of \$95,367, a decrease in state grants of \$221,205 and an increase in private grants of \$110,672.

Auxiliary Enterprise Revenue, which includes resources generated by the operation of the bookstore, wellness center, dining services and residence halls, experienced a decrease of \$2,508,146 or 19.75 percent in FY20. The decrease is largely attributed to the impact of the COVID-19 pandemic, which resulted in the March, 2020 closure of the campus residence halls and dining services as students transitioned to a distance learning delivery for their spring semester courses. Refunds of 37.5% of total room and board charges were disbursed to students, which reduces the Auxiliary Revenue in excess of \$1 million. Wellness Center closures also impact this reduction in revenue, as well as events and revenue-

producing activities that would have occurred during the spring semester and carrying forward through the month of June. The CARES Act federal grants provided funding, which offset the lost revenue for room and board that was refunded to students. These grant funds are reported as Nonoperating Revenue.

The decline in Auxiliary Enterprise revenue is also partially offset by a comparative decrease in Auxiliary Enterprise expenses for FY20, as noted in that section of this analysis.

Operating Revenues – FY 2020-2018

(In millions)

Operating Expenses:

Overall, FY20 operating expenses decreased substantially, when compared to FY19, by \$2.06 million. This decline results primarily from the combination of a targeted approach to reducing all operating expenses, including payroll and other operating expenses, as directed by the Board of Governors Task Force. It is further attributed to savings in expenses such as travel, professional development and hospitality related to the COVID-19 pandemic impact.

Salaries and wages plus benefits represent 56.3 percent of the total FY20 operating expenses, a 5.8 percent decrease over FY19. Employee compensation, including benefits, decreased by \$1,874,839 compared to FY19. This was the result of termination of several full-time positions, vacancy salary savings, fewer salary equity adjustments, and partially offset by fewer faculty promotions and the continuation of compliance with GASB 75 related to Other Post-Employment Benefits (OPEB).

Additional Operating Expense reductions include decreases in Depreciation expense, (\$263,392), Supplies and other services, (\$782,691) and Utilities, \$531,412, year-over-year. Student Financial Aid increased \$1,396,774.

The University continues to implement University-wide cost containment strategies to offset cost increases for FY20. The continuation of the COVID-19 pandemic challenges require focus and constant alignment to adjust and balance the need for additional cleaning, sanitizing supplies and equipment, maintaining a healthy environment for our students and employees, while striving to achieve savings in all areas possible to offset these added expenses.

Operating Expenses – FY 2020-2018

(In millions)

Non-operating Revenues (Expenses)

Net Nonoperating Revenues significantly increased by \$4.374 million, 26.2 percent in FY20. This is significantly due to the increase of State Appropriations of \$2.512 million over FY19 and the CARES Emergency Relief Grant of \$2.294 million received in FY20.

Interest Expense decreased \$34,829 (2.5%) due to the principal reductions in bonds and leases. Gifts increased \$175,486 (8.8%) and PELL decreased \$630,470 (11.9%).

The net result of operating and non-operating revenues and expenses was a loss of \$622,582. This represents an improvement in year-end results of \$3.9 million (86.3%).

Statement of Cash Flows

The final statement presented by the University is the Statement of Cash Flows. The Statement of Cash Flows presents detailed information about the cash activity of the University during the year. The statement is divided into five parts. The first part deals with operating cash flows and shows the net cash used by the operating activities of the institution. The second section reflects cash flows from noncapital financing activities. This section reflects the cash received and spent for non-operating, non-investing, and non-capital financing purposes. The third section deals with cash flows from capital and related financing activities. The fourth section reflects the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fifth section reconciles the net cash used to the operating income or loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

Cash inflows from operating activities include tuition and fees, auxiliary enterprise charges, and contracts and grants. Major cash outlays in operating activities include payments to and on behalf of employees of \$31.5 million and payments to suppliers of \$10.9 million. Net cash used for operating activities increased by \$3,442,753 million from FY19 to FY20. The reduction of Auxiliary Enterprise charges of \$2.448 million is a significantly due to the University shutting down in spring 2020 due to COVID-19 and refunding a portion of the student's room and meal plans. These additional refunds also caused an increase in payments for scholarships and fellowships of \$1.397 million.

Capital financing activities represent funds that were used to purchase or add value to capital assets. Even though as in recent years, the University did not undertake any substantial capital projects for FY20, there were several projects for roof replacements for the Student Center and Knutti Hall. Both were started in FY20 and will be completed in either FY20 or FY21. During FY20, planning for the East Loop development project began. This property encompasses the site of Kenamond Hall, Turner Hall and the Dining Hall. Additionally, Gardiner Hall may become part of the project, if feasible. A Request for Information (RFI) and a Request for Proposal (RFP) were issued. The responses are currently being evaluated.

Overall cash and cash equivalents at FY20 year-end increased \$443,154 as compared to the FY19 decrease of \$1.44 million. This was the first fiscal year since FY15 that ending cash increased. COVID-19 will challenge the progress made in significant reduction of the deficit. However, leadership is closely monitoring all financial activity to act quickly and appropriately to minimize any negative impact from this pandemic or other unanticipated changes in the economic climate for FY21.

Condensed Schedules of Cash Flows

(In thousands)

	Years Ended June 30,		
	2020	2019	2018
Net cash (used in) provided by:

Cash and cash equivalents - end of year	\$ 10,017	\$ 9,575	\$ 11,019

Economic Outlook

Shepherd's financial strength and capabilities continue to be challenged by declining enrollment that is evidenced throughout the country. While the decline in enrollment continued in FY19, the rate of decline is less than the previous fiscal year. This positive sign resulted from focused and strategic collaborative efforts to enhance enrollment through recruitment of both in-state and out-of-state students and to retain current students. However, the Board of Governors deemed it advisable to form a Task Force to focus on new revenue streams and reducing operating expenses. During FY20, there were focused meetings, resulting in financial decisions in all areas to reduce excessive spending and eliminate cost in personnel and operational expenses. This positive result is evidenced in the year-end results reported herein.

Further, in FY20, preparations and approvals began to initiate a completely online degree program, beginning with selected graduate programs. Upon receiving approval from the Higher Learning Commission (HLC), a budget was established and plans for a Spring, 2021 launch are underway. This new revenue source will enhance our traditional tuition and fee revenues in addition to providing a course of study in demand primarily by adult learners seeking to advance their careers or turn to an entirely different career path with no requirement for onsite, customary class schedules.

Shepherd University's State appropriation increased in FY20 by \$2.7 million, which is intended to provide more equitable funding throughout the Higher Education Policy Commission (HEPC) colleges and universities. This substantial addition to Shepherd has facilitated a more positive outcome for the FY20 year, even with the onset of the pandemic in March, 2020. The partial funding (\$310,588) of the FY19 five percent pay raise that the Governor mandated for all full-time State employees also continued in FY20. However, the one-time funding from the appropriation of \$500,000 was not available in FY20. The additional \$2.7 million in the state appropriation begins to equalize the funding Shepherd receives as compared to all State higher education agencies.

The University Bookstore operated by Follett assumed ownership and operations of the bookstore in April, 2018 and continues to provide a broader scope of products for fulfillment of academic books and supplies with competitive pricing. Shepherd receives monthly rental payments from Follett for the space occupied. In addition, commissions paid to the University by Follett will be utilized to fund student scholarships.

Aramark will serve as the new dining option for the campus beginning in FY21. Dining options for students are available at various locations across campus. Students will not experience changes in the meal plans and rates for FY21. Billing students for their meal plan charges will continue to be included in the total charges billed each semester by the University. The University will remit these funds to Aramark throughout the fall and spring academic semesters. Shepherd also receives commission revenue for campus catering services from Aramark.

The Shepherd University Advancement Office in partnership with the Shepherd University Foundation continues to increase efforts to raise funds to provide sustaining support for academic, scholarship, cultural and athletic programs; faculty and staff development; campus renewal and beautification; and other department programs and initiatives. Outreach to alumni and regional business leaders continues, not only for financial assistance but for ongoing assessment of existing academic programs and development of new programmatic initiatives.

Management recommendations for setting tuition rates will continue to be focused and strategic to balance student affordability with the need for increased revenue. Marketing efforts continue to be expanded to focus on a specific population in the surrounding counties in Virginia, Maryland and Pennsylvania. In consideration of the continuing enrollment decline, the focus in the upcoming years will be to control costs to students, while attracting additional residential and out-of-state students, both undergraduate and graduate.

The University staff and Board of Governors continues these efforts and will implement new strategies and initiatives to sustain programs and activities, plan for future challenges and growth, and strengthen the institution's financial position.

Contacting The University's Financial Management

This financial report is designed to provide a general overview of the University's finances and to demonstrate the University's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the University's Vice President for Finance / Chief Financial Officer at (304) 876-5490, or by mail at:

SHEPHERD UNIVERSITY

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED JUNE 30, 2020 AND 2019

1. ORGANIZATION

Shepherd University (the “University”) is governed by the Shepherd University Board of Governors (the “Board”). The Board was established by Senate Bill 653 (S.B. 653).

Powers and duties of the Board include, but are not limited to, the power to determine, control, supervise, and manage the financial, business, and educational policies and affairs of the University under its jurisdiction; the duty to develop a master plan for the institution; the power to prescribe the specific functions and the University’s budget request; the duty to review at least every five years all academic programs offered at the University; and the power to fix tuition and other fees for the different classes or categories of students enrolled at its institution.

S.B. 653 also created the West Virginia Higher Education Policy Commission (the “Commission”), which is responsible for developing, gaining consensus around, and overseeing the implementation and development of a higher education public policy agenda.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the University have been prepared in accordance with generally accepted accounting principles as prescribed by Governmental Accounting Standards Board standards (GASB). The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the University’s assets, liabilities, deferred inflows and outflows of resources, net position, revenues, expenses, changes in net position, and cash flows.

Reporting Entity — The University is a component unit of the State of West Virginia (the “State”), and an operating unit of the West Virginia Higher Education Fund and represents separate funds of the State that are not included in the State’s general fund. The University is a separate entity which, along with all the State institutions of higher education, the Commission (which includes West Virginia Network for Educational Tele computing (WVNET)), and West Virginia Council for Community and Technical College Education, form the Higher Education Fund of the State. The Higher Education Fund is considered a component unit of the State, and its financial statements are discretely presented in the State’s comprehensive annual financial report.

The accompanying financial statements present all funds under the authority of the University, including its blended component unit, the Shepherd University Research Corporation (the “Research Corporation”), a nonprofit, nonstock corporation. The basic criterion for inclusion in the accompanying financial statements is the exercise of oversight responsibility derived from the University’s ability to significantly influence operations and accountability for fiscal matters of the Research Corporation.

The audited financial statements of Shepherd University Foundation, Incorporated (the Foundation) are discretely presented here with the University’s financial statements for the fiscal years ended June 30, 2020 and 2019, in accordance with GASB as a benefit/burden relationship exists between the University and the Foundation. The Foundation is a private nonprofit organization that reports under FASB standards. As such, certain revenue recognition criteria and presentation features are different from

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's audited financial information as it is presented herein (see also Notes 15 and 21).

Financial Statement Presentation — GASB establishes standards for external financial reporting for public colleges and universities and requires that financial statements be presented to focus on the University as a whole. The University's net position is classified into three categories according to external donor restrictions or availability of assets for satisfaction of the University's obligations. The University's components of net position are classified as follows:

Net Investment in Capital Assets — This represents the University's total investment in capital assets, net of depreciation and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included.

Restricted — Expendable — This includes resources in which the University is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

The West Virginia State Legislature (the "State Legislature"), as a regulatory body outside the reporting entity, has restricted the use of certain funds by Article 10, *Fees and Other Money Collected at State Institutions of Higher Education*, of the West Virginia State Code. House Bill 101 passed in March 2004 simplified the tuition and fee restrictions to auxiliaries and capital items. These activities are fundamental to the normal ongoing operations of the institution. These restrictions are subject to change by future actions of the State Legislature.

Restricted — Nonexpendable — This includes endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. The University does not have any restricted nonexpendable component of net position at June 30, 2020 or 2019.

Unrestricted — This represents resources derived from student tuition and fees, state appropriations, and sales and services of educational activities. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the Board to meet current expenses for any purpose.

Basis of Accounting — For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's basic financial statements have been prepared on the accrual basis of accounting with a flow of economic resources measurement focus. Revenues are reported when earned and expenses when materials or services are received. All intercompany accounts and transactions have been eliminated.

Cash and Cash Equivalents — For purposes of the statements of net position, the University considers all highly liquid investments with an original maturity of three months or less at acquisition to be cash and cash equivalents.

Cash and cash equivalents balances on deposit with the State of West Virginia Treasurer's Office (the "State Treasurer") are pooled by the State Treasurer with other available funds of the State for investment purposes by the West Virginia Board of Treasury Investments (BTI). These funds are transferred to the BTI and the BTI is directed by the State Treasurer to invest the funds in specific external investment pools in accordance with West Virginia Code, policies set by the BTI, and by

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

provisions of bond indentures and trust agreements, when applicable. Balances in the investment pools are recorded at fair value or amortized cost, which approximates fair value. Fair value is determined by a third-party pricing service based on asset portfolio pricing models and other sources in accordance with GASB. The BTI was established by the State Legislature and is subject to oversight by the State Legislature. Fair value and investment income are allocated to participants in the pools based upon the funds that have been invested. The amounts on deposit are available for immediate withdrawal and, accordingly, are presented as cash and cash equivalents in the accompanying financial statements.

The BTI maintains the Consolidated Fund investment fund, which consists of eight investment pools and participant-directed accounts, three of which the University may invest in. These pools have been structured as multi-participant variable net asset funds to reduce risk and offer investment liquidity diversification to the fund participants. Funds not required to meet immediate disbursement needs are invested for longer periods. A more detailed discussion of the BTI's investment operations pool can be found in its annual report. A copy of those annual reports can be obtained from the following address: 1900 Kanawha Blvd., E. Room E-122, Charleston, WV 25305 or <http://wvbt.com>.

Allowance for Doubtful Accounts — It is the University's policy to provide for future losses on uncollectible accounts, contracts, grants, and loans receivable based on an evaluation of the underlying account, contract, grant, and loan balances, the historical collectability experienced by the University on such balances, and such other factors which, in the University's judgment, require consideration in estimating doubtful accounts.

Inventories — Inventories are stated at the lower of cost or market, cost being determined on the first-in, first-out method.

Noncurrent Cash, Cash Equivalents, and Investments — Cash, cash equivalents, and investments that are (1) externally restricted to make debt service payments and long-term loans to students, or to maintain sinking or reserve funds, (2) to purchase capital or other noncurrent assets or settle long-term liabilities, and (3) permanently restricted components of net position, are classified as noncurrent assets in the accompanying statements of net position.

Capital Assets — Capital assets include property, plant, and equipment, books and materials that are part of a catalogued library, and infrastructure assets. Capital assets are stated at cost at the date of acquisition or construction, or acquisition value at the date of donation in the case of gifts. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 50 years for buildings and infrastructure, 20 years for land improvements and library books, and 3 to 10 years for furniture and equipment. The University capitalizes all purchases of library books using group depreciation and uses a capitalization threshold of \$1,000 for other capital assets.

Unearned Revenue — Revenues for programs or activities to be conducted primarily in the next fiscal year are classified as unearned revenue, including items such as tuition, football ticket sales, orientation fees, room, and board. Financial aid and other deposits are separately classified as deposits.

Net Pension Liability – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

the fiduciary net position of the West Virginia Teachers' Retirement System (TRS), administered by the West Virginia Consolidated Public Retirement Board (CPRB), and additions to/reductions from the TRS fiduciary net position have been determined on the same basis as they are reported in the TRS financial statements, which can be found at <https://www.wvretirement.com/Publications.html#CAFR>. The plan schedules of TRS are prepared using the accrual basis of accounting and economic resources measurement focus in accordance with U.S. GAAP as prescribed by GASB. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Investments are reported at fair value. Detailed information on investment valuation can be found in the TRS financial statements. Management of TRS has made certain estimates and assumptions relating to employer allocation schedules, and actual results could differ. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms (See Note 14).

Other Postemployment Benefits (OPEBs) — GASB provides standards for the measurement, recognition, and display of OPEB expenditures, assets, and liabilities, including applicable note disclosures and required supplementary information. During FY 2006, House Bill No. 4654 was established to create a trust fund for postemployment benefits for the State. Effective July 1, 2007, the University was required to participate in this multiple employer cost-sharing plan, the West Virginia Retiree Health Benefit Trust Fund (RHBT), sponsored by the State of West Virginia. Details regarding this plan and its stand-alone financial statements can be obtained by contacting the West Virginia Public Employees Insurance Agency (PEIA), State Capitol Complex, Building 5, Room 1001, 1900 Kanawha Boulevard, East, Charleston, WV 25305-0710 or <http://www.wvpeia.com>. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the RHBT and additions to/deductions from the RHBT's fiduciary net position have been determined on the same basis as they are reported by RHBT. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources – Consumption of net position by the University that is applicable to a future fiscal year is reported as a deferred outflow of resources on the statement of net position. As of June 30, 2020 and 2019, the University had deferred outflows of resources related to pensions and OPEB of \$1,023,020 and \$1,180,076, respectively (see Notes 10 and 14).

Deferred Inflows of Resources - Acquisition of net position by the University that is applicable to a future fiscal year is reported as a deferred inflow of resources on the statement of net position. As of June 30, 2020 and 2019, the University had deferred inflows of resources related to pensions and OPEB of \$3,088,070 and \$2,276,601, respectively (see Notes 10 and 14).

Compensated Absences — GASB requires entities to accrue for employees' rights to receive compensation for vacation leave or payments in lieu of accrued vacation or sick leave as such benefits are earned and payment becomes probable. The University's full-time employees earn up to two vacation leave days for each month of service and are entitled to compensation for accumulated, unpaid vacation leave upon termination. Full-time employees also earn 1 1/2 sick leave days for each month of service and are entitled to extend their health or life insurance coverage upon retirement in lieu of accumulated, unpaid sick leave. Generally, two days of accrued sick leave extend health insurance for one month of single coverage and three days extend health insurance for one month of family coverage.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

For employees hired after 1988 or who were hired before 1988 but did not choose such coverage until after 1988 but before July 1, 2001, the employee shares in the cost of the extended benefit coverage to the extent of 50% of the premium required for the extended coverage. Employees hired on July 1, 2001, or later will no longer receive sick leave credit toward insurance premiums when they retire. Additionally, all retirees have the option to purchase continued coverage regardless of their eligibility for premium credits. This liability is now provided for under the multiple employer cost-sharing plans approved by the State.

Certain faculty employees (generally those with less than a 12-month contract) earn a similar extended health or life insurance coverage retirement benefit based on years of service. Generally, 3 1/3 years of teaching service extend health insurance for one year of single coverage and five years extend health insurance for one year of family coverage. The same hire date mentioned above also applies to coverage for faculty employees. Faculty hired after July 1, 2009, will no longer receive years of service credit toward insurance premiums when they retire. Employees hired after July 1, 2010 receive no health insurance premium subsidy from the University. Two groups of employees hired after July 1, 2010 will not be required to pay the unsubsidized rate: 1) active employees who were originally hired before July 1, 2010, who have a break in service of fewer than two years after July 1, 2010; and 2) retired employees who retired before July 1, 2010, return to active service after July 1, 2010, and then go back into retirement. In those cases, the original hire date will apply.

The estimated expense incurred for the vacation leave or OPEB benefits are recorded as a component of benefits expense in the statements of revenues, expenses, and changes in net position.

Risk Management — The State's Board of Risk and Insurance Management (BRIM) provides general, property and casualty, and liability coverage to the University and its employees. Such coverage may be provided to the University by BRIM through self-insurance programs maintained by BRIM or policies underwritten by BRIM that may involve experience-related premiums or adjustments to BRIM.

BRIM engages an independent actuary to assist in the determination of its premiums so as to minimize the likelihood of premium adjustments to the University or other participants in BRIM's insurance programs. As a result, management does not expect significant differences between the premiums the University is currently charged by BRIM and the ultimate cost of that insurance based on the University's actual loss experience. In the event such differences arise between estimated premiums currently charged by BRIM to the University and the University's ultimate actual loss experience, the difference will be recorded as the change in estimate becomes known.

In addition, through its participation in the PEIA and third-party insurers, the University has obtained health, life, prescription drug coverage, and coverage for job-related injuries for its employees. In exchange for payment of premiums to PEIA and the third-party insurer, the University has transferred its risks related to health, life, prescription drug coverage, and job-related injuries.

Classification of Revenues — The University has classified its revenues according to the following criteria:

Operating Revenues — Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances; (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances; (3) most federal, state, local, and nongovernmental operating grants and contracts; and (4) sales and services of educational activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Nonoperating Revenues — Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenues that are defined as nonoperating revenues by GASB, such as state appropriations, federal Pell grants, CARES act emergency grants, and investment income, and sale of capital assets (including natural resources).

Other Revenues — Other revenues consist primarily of capital grants and gifts.

Use of Restricted Components of Net Position — The University has not adopted a formal policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available. Generally, the University attempts to utilize restricted resources first when practicable.

Federal Financial Assistance Programs — The University makes loans to students under the Federal Direct Student Loan Program. Under this program, the U.S. Department of Education makes interest subsidized and nonsubsidized loans directly to students, through entities like the University. Direct student loan receivables are not included in the University's statements of net position, as the loans are repayable directly to the U.S. Department of Education. The University received and disbursed approximately \$14 million in FY20 and \$16 million in FY19 under the Federal Direct Student Loan Program on behalf of the U.S. Department of Education, which is not included as revenue and expense in the statements of revenues, expenses, and changes in net position.

The University also distributes other student financial assistance funds on behalf of the federal government to students under the federal Pell Grant, CARES act emergency grants, Supplemental Educational Opportunity Grant, SMART Grant, College Work Study programs Grant, and Academic Competitiveness Grant. The activity of these programs is recorded in the accompanying financial statements. In FY20 and FY19, the University received and disbursed \$4,889,925 and \$5,526,300, respectively, under these federal student aid programs.

Scholarship Allowances — Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the statements of revenues, expenses, and changes in net position. Scholarship allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the student's behalf.

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers. Certain aid, such as loans, funds provided to students as awarded by third parties, and Federal Direct Lending, is accounted for as a third-party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a University basis by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third-party aid.

Government Grants and Contracts — Government grants and contracts normally provide for the recovery of direct and indirect costs, subject to audit. The University recognizes revenue associated with

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

direct costs as the related costs are incurred. Recovery of related indirect costs is generally recorded at fixed rates negotiated for a period of one to five years.

Income Taxes — The University is exempt from income taxes, except for unrelated business income, as a nonprofit organization under federal income tax laws and regulations of the Internal Revenue Service.

Cash Flows — Any cash and cash equivalents escrowed, restricted for noncurrent assets, or in funded reserves have not been included as cash and cash equivalents for the purpose of the statements of cash flows.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications — Certain reclassifications have been made to the prior year presentation to conform to the current year presentation. The reclassifications did not affect net position or changes thereon.

Recent Statements Issued by the Governmental Accounting Standards Board — The GASB has issued the following which will be effective in future years:

Statement No. 84, *Fiduciary Activities*, which is effective for fiscal years beginning after December 15, 2019. Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments to determine whether an activity should be reported in a fiduciary fund in the financial statements. The University has not yet determined the effect that the adoption of GASB Statement No. 84 may have on its financial statements.

Statement No. 87, *Leases*, which is effective for fiscal years beginning after June 15, 2021. Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. In other words, most leases currently classified as operating leases will be accounted for and reported in the same manner as capital leases. The University has not yet determined the effect that the adoption of GASB Statement No. 87 may have on its financial statements.

Statement No. 89, *Accounting for Interest Cost Incurred Before the End of Construction Period*, which is effective for fiscal years beginning after December 15, 2020. Statement No. 89 establishes accounting requirements where interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using economic resources measurement focus. As a result, interest cost incurred before the end of the construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The University has not yet determined the effect that the adoption of GASB Statement No. 89 may have on its financial statements.

Statement No. 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61*, which is effective for fiscal years beginning after December 15, 2019. Statement No. 90 establishes consistency and comparability of reporting a government's majority interest in a legally separate organization to improve the relevance of the financial statement information for certain

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

component units. The University has not yet determined the effect that the adoption of GASB Statement No. 90 may have on its financial statements.

Statement No. 91, *Conduit Debt Obligations*, which is effective for fiscal years beginning after December 15, 2021. Statement No. 91 requires issuers to disclose information about their conduit debt obligations, organized by type of commitment, including aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. The University has not yet determined the effect that the adoption of GASB No. 91 may have on its financial statements.

Statement No. 92, *Omnibus 2020*, which is effective for fiscal years beginning after June 15, 2021. Statement No. 92 enhances the comparability in accounting and financial reporting to improve the consistency of authoritative literature by addressing practice issues that have been identified in certain GASB Statements. The University has not yet determined the effect that the adoption of GASB No. 92 may have on its financial statements.

Statement No. 93, *Replacement of Interbank Offered Rates*, which is effective for fiscal years beginning June 15, 2020. Statement No. 93 prompts governments to amend or replace financial instruments which rely on reference rates that are expected to no longer exist after 2021, due the global reference rate reform. The University has not yet determined the effect that the adoption of GASB No. 93 may have on its financial statements.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, which is effective for fiscal years beginning after June 15, 2022. Statement No. 94 addresses issues associated with the financial reporting of public-private and public-public partnerships. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements. The University has not yet determined the effect that the adoption of GASB No. 94 may have on its financial statements.

Statement No. 96, *Subscription-Based Information Technology Arrangements*, which is effective for fiscal years beginning after June 15, 2022. Statement No. 96 provides guidance on the accounting and financial reporting for subscription-based information technology arrangements for governments. The University has not yet determined the effect that the adoption of GASB Np. 96 may have on its financial statements.

Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, which is effective for fiscal years beginning after December 15, 2019. Statement No. 97 establishes consistency and comparability related to the reporting of fiduciary component units with no governing board. The University has not yet determined the effect that the adoption of GASB No. 97 may have on its financial statements.

3. CASH AND CASH EQUIVALENTS

The composition of cash and cash equivalents as of June 30, 2020 and 2019 was as follows:

	<u>2020</u>	<u>2019</u>
State Treasurer	\$ 9,023,290	\$ 8,527,017
Bank	<u>994,641</u>	<u>1,047,760</u>
	<u>\$ 10,017,931</u>	<u>\$ 9,574,777</u>

Cash and cash equivalents with the State Treasurer included \$176,333 in FY20 and \$143,155 in FY19 of restricted cash for grants.

The combined carrying amount of cash in bank at June 30, 2020 and 2019 was \$994,641 and \$1,047,760 as compared with the combined bank balance of \$1,037,201 and \$1,083,253, respectively.

The difference is primarily caused by outstanding checks and items in transit. The bank balances are covered by federal depository insurance up to specified amounts. At June 30, 2020 and 2019, the University was exposed to custodial credit risk of \$388,622 and \$333,728, respectively for amounts that are uninsured and uncollateralized.

Amounts with the State Treasurer as of June 30, 2020 and 2019, are comprised of two investment pools, the WV Money Market Pool and the WV Short Term Bond Pool, both of which are carried at amortized cost. There was \$922,503 in FY20 and \$1,365,305 in FY19 of unrestricted cash held for investment.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The following table provides information on the Standard & Poor’s rating of the University’s portion of the investment pools as of June 30:

<u>External Pool</u>	<u>2020</u>		<u>2019</u>	
	<u>Carrying Value</u>	<u>S & P Rating</u>	<u>Carrying Value</u>	<u>S & P Rating</u>
WV Money Market	\$ 7,908,740	AAAm	\$ 6,996,124	AAAm
WV Short Term Bond	\$ 192,047	Not Rated	\$ 165,588	Not Rated

A fund rated “AAAm” has extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/ liquidity risks. “AAAm” is the highest principal stability fund rating assigned by Standard & Poor’s.

Interest Rate Risk — Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. All the amounts with the State Treasurer are subject to interest rate risk. The following table provides information on the weighted average maturities for the WV Money Market Pool and the WV Government Money Market Pool:

3. CASH AND CASH EQUIVALENTS (CONTINUED)

<u>External Pool</u>	<u>2020</u>		<u>2019</u>	
	<u>Carrying Amount</u>	<u>WAM (days)</u>	<u>Carrying Amount</u>	<u>WAM (days)</u>
WV Money Market	\$ 7,908,740	44	\$ 6,996,124	42

The following table provides information on the effective duration for the WV Short Term Bond Pool:

<u>External Pool</u>	<u>2020</u>		<u>2019</u>	
	<u>Carrying Value</u>	<u>Effective Duration (days)</u>	<u>Carrying Value</u>	<u>Effective Duration (days)</u>
WV Short Term Bond	\$ 192,047	620	\$ 165,588	723

Other Investment Risks — Other investment risks include concentration of credit risk, custodial credit risk, and foreign currency risk. None of the BTI's Consolidated Fund's investment pools or accounts is exposed to these risks as described below.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. Cash in bank with Trustee is governed by provisions of the bond agreement. The objective of the money market fund is to increase the current level of income while continuing to maintain liquidity and capital. Assets are invested in high-quality, short-term money market instruments.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the University will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University's investment policy limits investment maturities from potential fair value losses due to increasing interest rates. No more than 5% of the money market fund's total market value may be invested in the obligations of a single issuer, with the exception of the U.S. government and its agencies.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The University has no securities with foreign currency risk.

4. ACCOUNTS RECEIVABLE

Accounts receivable as of June 30, 2020 and 2019, are as follows:

	<u>2020</u>	<u>2019</u>
Student tuition and fees — net of allowance for doubtful accounts of \$694,874 and \$517,817 in 2020 and 2019, respectively	\$ 479,583	\$ 338,063
Grants and contracts receivable	436,017	361,527
Potomac Place Ground Rent and Management operations	294,016	463,600
Research Corporation - Due from Foundation	349,442	-
Other	<u>189,525</u>	<u>67,238</u>
	<u>\$ 1,748,583</u>	<u>\$ 1,230,428</u>

5. CAPITAL ASSETS

Summary of capital assets transactions for the University as of June 30, 2020 and 2019, are as follows:

	<u>2020</u>			
	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>
Capital assets not being depreciated:

Total Capital Assets	<u>\$ 117,361,847</u>	<u>\$ (3,694,954)</u>	<u>\$ 928,360</u>	<u>\$ 112,738,533</u>

The University maintains various collections of inexhaustible assets to which no value can be determined. Such collections include contributed works of art, historical treasures, and literature that are held for exhibition, education, research, and public service. These collections are neither disposed of for financial gain nor encumbered in any means. Accordingly, such collections are not capitalized or recognized for financial statement purposes.

At June 30, 2020, the University had no significant outstanding contractual commitments for property, plant, and equipment.

6. LONG-TERM LIABILITIES

Summary of long-term obligation transactions for the University for the years ended June 30, 2020 and 2019 are as follows:

	2020				
	Beginning Balance	Additions	Reductions	Ending Balance	Current Portion
Bonds, note and capital leases:					
Bonds payable	\$ 36,492,237	\$ -	\$ 1,734,732	\$ 34,757,505	\$ 1,796,643
Bond premium/discount	31,774	-	2,204	29,570	-

Total long-term liabilities	<u>\$ 49,883,660</u>	<u>\$ 685,325</u>	<u>\$ 3,161,050</u>	<u>\$ 47,407,935</u>	<u>\$ 2,852,255</u>

7. CAPITAL LEASES

The University has a capital lease for one of its athletic fields that holds an interest rate of 1.67% and will mature in August 2020. In June 2019, the University entered into a capital lease obligation for the renovation of the stadium turf. The lease holds an interest of 4.89% and will mature in June 2026.

Future annual payments on these capital leases for years subsequent to June 30, 2020, are as follows:

Years Ending June 30,	Principal	Interest	Total
2021	\$ 82,605	\$ 17,871	\$ 100,476
2022	60,276	14,948	75,224
2023	63,290	11,934	75,224
2024	66,455	8,768	75,223
2025	69,779	5,445	75,224
2026	<u>73,268</u>	<u>1,955</u>	<u>75,223</u>
Total	<u>\$ 415,673</u>	<u>\$ 60,921</u>	<u>\$ 476,594</u>

The net book value of capital assets held under the capital lease as of June 30, 2020 and 2019, was \$932,390 and \$1,028,733, net of accumulated depreciation of \$512,753 and \$416,410, respectively.

8. NOTE PAYABLE

In September 2016, the University received an interest free loan from the West Virginia Higher Education Policy Commission (HEPC) in the amount of \$750,000 for the demolition of the Sara Cree building. This loan is to be paid back in semi-annual payments of \$75,000 for the next 5 years. In July 2019, the University received an interest free capital loan from HEPC in the amount of \$1,200,000 for energy efficient capital improvements. This loan is to be paid back in annual payments of \$175,000 for the next 7 years.

Future annual payments on the notes payable for years subsequent to June 30, 2020, are as follows:

Years Ending June 30,	Principal	Interest	Total
2021	\$ 325,000	\$ -	\$ 325,000
2022	250,000	-	250,000
2023	175,000	-	175,000
2024	175,000	-	175,000
2025	175,000	-	175,000
2026-2027	<u>325,000</u>	<u>-</u>	<u>325,000</u>
Total	<u>\$ 1,425,000</u>	<u>\$ -</u>	<u>\$ 1,425,000</u>

9. BONDS PAYABLE

Bonds payable as of June 30, 2020 and 2019, consisted of the following:

	<u>Interest Rate</u>	<u>Principal Amount Outstanding</u>	
		<u>2020</u>	<u>2019</u>
Refunding Revenue Bonds, due through 2033	3.00% - 4.375%	\$ 4,255,000	\$ 4,665,000
Refunding Revenue Bonds, due through 2037	3.65%	<u>30,502,505</u>	<u>31,827,237</u>
		34,757,505	36,492,237
Bond Premium		<u>29,570</u>	<u>31,774</u>
		<u>\$ 34,787,075</u>	<u>\$ 36,524,011</u>

The Bonds are special obligations of the Board and are secured and payable from fees assessed to students of the University held under the Indenture. The Bonds shall not be deemed to be general obligations or a debt of the State within the meaning of the Constitution of the State and the credit or taxing power of the State or the University shall not be pledged therefore. The University maintains and collects fees from all students enrolled in the University to pay debt service.

Refunding Revenue Bonds – On December 2, 2013, the University issued \$6.7 million in General Obligation Bonds with an average interest rate of 3.69% to advance refund \$7.1 million of outstanding 2003 and 2004 series bonds with an average interest rate of 4.27%.

On March 8, 2017, the University issued \$35.3 million in General Obligation Bonds with a fixed interest rate of 3.65% to advance refund \$35.3 million of the remaining outstanding 2005 and 2007 revenue bonds with an average interest rate of 4.5% and to pay the cost of issuance.

Summary of the annual aggregate principal and interest payments for years subsequent to June 30, 2020, are as follows:

<u>Years Ending</u> <u>June 30</u>	<u>2013</u>		<u>2017</u>		<u>Total</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2021	\$ 420,000	\$ 153,563	\$ 1,376,643	\$ 1,096,756	\$ 1,796,643	\$ 1,250,319
2022	435,000	140,962	1,427,349	1,045,895	1,862,349	1,186,857
2023	445,000	127,913	1,479,923	993,161	1,924,923	1,121,074
2024	460,000	114,562	1,531,887	941,038	1,991,887	1,055,600
2025	240,000	99,613	1,590,857	881,889	1,830,857	981,502
2026-2030	1,325,000	363,606	8,875,576	3,485,342	10,200,576	3,848,948
2031-2035	930,000	82,687	10,635,855	1,719,695	11,565,855	1,802,382
2036-2037	-	-	<u>3,584,415</u>	<u>161,531</u>	<u>3,584,415</u>	<u>161,531</u>
Total	<u>\$ 4,255,000</u>	<u>\$ 1,082,906</u>	<u>\$ 30,502,505</u>	<u>\$ 10,325,307</u>	<u>\$ 34,757,505</u>	<u>\$ 11,408,213</u>

10. OTHER POSTEMPLOYMENT BENEFITS

Employees of the University are enrolled in the West Virginia Other Postemployment Benefit Plan (the “OPEB plan”) which is administered by the West Virginia Public Employees Insurance Agency (“PEIA”) and the West Virginia Retiree Health Benefit Trust Fund (the “RHBT”).

Following is the University’s other postemployment benefits liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits, revenues, and other postemployment benefits expense and expenditures for the fiscal year ended June 30, 2019:

	2020	2019
Net OPEB Liability	\$ 6,253,984	\$ 8,255,790
Deferred Outflows of Resources	\$ 962,503	\$ 1,133,084
Deferred Inflows of Resources	\$ 3,020,213	\$ 2,139,968
Revenues	\$ 379,155	\$ 521,542
Expenses	\$ 130,076	\$ 211,067
Contributions Made by University	\$ 701,898	\$ 775,781

Plan Description

The OPEB plan is a cost-sharing, multiple employer, defined benefit other post-employment benefit plan that covers the retirees of State agencies, colleges and universities, county boards of education, and other government entities as set forth in West Virginia Code Section 5-16D-2 (the “Code”). Plan benefits are established and revised by PEIA and the RHBT with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration secretary serves as Chairman of the Board. Four members represent labor, education, public employees and public retirees. Four remaining members represent the public-at-large.

Active employees who retire are eligible for PEIA health and life benefits, provided they meet the minimum eligibility requirements of the applicable State retirement system and if their last employer immediately prior to retirement: is a participating employer under the Consolidated Public Retirement Board (“CPRB”) and, as of July 1, 2008 forward, is a participating employer with PEIA. Active employees who, as of July 1, 2008, have ten years or more of credited service in the CPRB and whose employer at the time of their retirement does participate with CPRB, but does not participate with PEIA will be eligible for PEIA retiree coverage provided: they otherwise meet all criteria under this heading and their employer agrees, in writing, upon a form prescribed by PEIA, that the employer will pay to PEIA the non-participating retiree premium on behalf of the retiree or retirees, or that the retiree agrees to pay the entire unsubsidized premium themselves. Employees who participate in non-State retirement systems but that are CPRB system affiliated, contracted, or approved (such as TIAA-CREF and Empower Retirement), or are approved, in writing, by the PEIA Director must, in the case of education employees, meet the minimum eligibility requirements of the State Teachers Retirement System (“STRS”), and in all other cases meet the minimum eligibility requirements of the Public Employees Retirement System to be eligible for PEIA benefits as a retiree.

The financial activities of the OPEB plan are accounted for in the RHBT, a fiduciary fund of the State of West Virginia. The RHBT audited financial statements and actuarial reports can be found on the PEIA website at www.peia.wv.gov.

10. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Benefits Provided

The OPEB plan provides the following benefits: medical and prescription drug insurance and life insurance. The medical and prescription drug insurance is provided through two options: the self-insured preferred provider benefit plan option, which is primarily for non-Medicare-eligible retirees and spouses; and the external managed care organization option, which is primarily for Medicare-eligible retirees and spouses.

Contributions

Pay as you go premiums (“paygo”) are established by the Finance Board annually. All participating employers are required by statute to contribute this premium to the RHBT at the established rate for every active policyholder per month. The active premiums subsidize the retirees’ health care.

Members retired before July 1, 1997 pay retiree healthcare contributions at the highest sponsor subsidized rate, regardless of their actual years of service. Members retired between July 1, 1997 and June 30, 2010; pay a subsidized rate depending on the member’s years of service. Members hired on or after July 1, 2010, pay retiree healthcare contributions with no sponsor provided implicit or explicit subsidy.

Retiree leave conversion contributions from the employer depend on the retiree’s date of hire and years of service at retirement as described below:

- Members hired before July 1, 1988 may convert accrued sick or vacation leave days into 100% of the required retiree healthcare contribution.
- Members hired from July 1, 1988 to June 30, 2001 may convert sick or vacation leave days into 50% of the required retiree healthcare contribution.

The conversion rate is two days of unused sick and vacation leave days for one month of single healthcare coverage and three days of unused sick and vacation leave days for one month of family healthcare coverage.

Employees hired on or after July 1, 2001 no longer receive sick and/or vacation leave credit toward the required retiree healthcare contribution when they retire. All retirees have the option to purchase continued coverage regardless of their eligibility for premium credits.

Certain faculty employees (generally those with less than a 12-month contract) earn a similar extended health or life insurance coverage retirement benefit based on years of service. Generally, 3-1/3 years of teaching service extend health insurance coverage for one year of family coverage. Faculty hired after July 1, 2009 no longer receives years of service credit toward insurance premiums when they retire. Faculty hired on or after July 1, 2010 receives no health insurance premium subsidy when they retire. Two groups of employees hired after July 1, 2010 will not be required to pay the unsubsidized rate: 1) active employees who were originally hired before July 1, 2010 who have a break in service of fewer than two years after July 1, 2010; and 2) retired employees who had an original hire date prior to July 1, 2010 may return to active employment. In those cases, the original hire date may apply.

10. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Assumptions

The net OPEB liability for financial reporting purposes was measured as of June 30, 2019 and 2018. The liabilities were determined by actuarial valuations as of June 30, 2018 and 2017, rolled forward to June 30, 2019 and 2018. The following actuarial assumptions were used and applied to all periods included in the measurement:

- Actuarial cost method: Entry age normal cost method.
- Amortization method and period: Level percentage of payroll over 20 years; closed as of June 30, 2018.
- Investment rate of return: 7.15%, net of OPEB plan investment expense, including inflation.
- Projected salary increases: dependent on pension system ranging from 3.0% to 6.5%, including inflation.
- Healthcare cost trend rates: trend rate for pre-Medicare per capita cost of 8.5% for plan year end 2020, decreasing by 0.5% each year thereafter, until ultimate trend rate of 4.5% is reached in plan year 2028. Trend rate for Medicare per capita costs of 3.1% for plan year end 2020. 9.5% for plan year end 2021, decreasing by 0.5% each year thereafter, until ultimate trend rate of 4.5% is reached by plan year 2031.
- Inflation rate: 2.75%
- Wage inflation: 4.00%
- Discount rate: 7.15%
- Mortality rates: Post-Retirement based on RP-2000 Healthy Annuitant Mortality Table projected with Scale AA on a fully generational basis for PERS and TRS. Pre-Retirement based on RP-2000 Non-Annuitant Mortality Table projected with Scale AA on a fully generational basis for PERS and TRS.
- Asset valuation method: Market value
- Aging factors: 2013 SOA Study “Health Care Costs – From Birth to Death”
- Expenses: Health administrative expenses are included in the development of the per capita claims cost. Operating expenses are included as a component of the annual expense.

The long-term investment rate of return of 7.15% on OPEB plan investments was determined by a combination of an expected long-term rate of return of 7.50% for long-term assets invested with the West Virginia Investment Management Board (“IMB”) and an expected short-term rate of return of 3.0% for assets invested with the WV Board of Treasury Investments (“BTI”).

Long-term pre-funding assets are invested with the IMB. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the BTI.

10. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which estimates of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation. Best estimates of the long-term geometric rates for each major asset class are summarized below.

Asset Class	2019		2018	
	Target Allocation	Long-term Expected Real Return	Target Allocation	Long-term Expected Real Return
Global equity	49.5%	4.8%	55.0%	22.8%
Core plus fixed income	13.5%	2.1%	15.0%	3.0%
Core real estate	9.0%	4.1%	10.0%	8.3%
Hedge fund	9.0%	2.4%	10.0%	5.7%
Private equity	9.0%	6.8%	10.0%	19.6%
Cash and cash equivalents	10.0%	0.3%	0.0%	0.0%
Target allocation	100.0%		100.0%	

The actuarial assumptions used in the June 30, 2018 and 2017 valuations were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015.

Discount rate. The discount rate used to measure the OPEB liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that RHBT contributions will be made at rates equal to the actuarially determined contribution rates, in accordance with prefunding and investment policies. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Discount rates are subject to change between measurement dates. There were no changes from 2017 to 2018 valuations.

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the University's proportionate share of the net OPEB liability as of June 30, 2020 and 2019 calculated using the discount rate of 7.15%, as well as what the University's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.15%) or one percentage point higher (8.15%) than the current rate (dollars in thousands):

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% increase (8.15%)
Net OPEB Liability as of June 30, 2020	\$ 7,463,945	\$ 6,253,984	\$ 5,241,451
Net OPEB Liability as of June 30, 2019	\$ 9,703,038	\$ 8,255,790	\$ 7,049,354

10. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Sensitivity of the net OPEB liability to changes in healthcare cost trend rates. The following presents the University's proportionate share of the net OPEB liability as of June 30, 2020 and 2019 calculated using the current healthcare cost trend rates, as well as what the University's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current rates (dollars in thousands):

	<u>1% Decrease</u>	<u>Current Healthcare Cost Trend Rates</u>	<u>1% Increase</u>
Net OPEB Liability as of June 30, 2020	\$ 5,042,934	\$ 6,253,984	\$ 7,723,592
Net OPEB Liability as of June 30, 2019	\$ 6,831,222	\$ 8,255,790	\$ 9,991,578

OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. The net OPEB liability was measured as of June 30, 2019 and 2018. The total OPEB liability was determined by actuarial valuations as of June 30, 2018 and 2017 and rolled forward to the respective dates.

The University's proportionate share of the net OPEB liability as of June 30, 2020 and 2019 are as follows:

	<u>2020</u>	<u>2019</u>
Recognized University Net OPEB Liability	\$ 6,253,984	\$ 8,255,790
Nonemployer contributing entity's (State of West Virginia) portion of the collective net OPEB liability	<u>1,279,844</u>	<u>1,706,251</u>
Total net OPEB Liability	<u>\$ 7,533,828</u>	<u>\$ 9,962,041</u>

The allocation percentage assigned to each contributing employer is based on the employer's proportionate share of employer contributions to the RHBT for the fiscal years ended June 30, 2019 and June 30, 2018. Employer contributions are recognized when due. At June 30, 2019 and 2018, the University's proportion was .376943054% and .384807100%, respectively.

The University recognized OPEB expense for the years ended June 30, 2020 and 2019 as follows:

	<u>2020</u>	<u>2019</u>
University's proportionate share of OPEB expense	\$ (249,079)	\$ 209,334
OPEB expense attributable to special funding from a nonemployer contributing entity	<u>379,155</u>	<u>521,542</u>
Total OPEB expense	<u>\$ 130,076</u>	<u>\$ 730,876</u>

The University also recognized revenue of \$379,155 and \$521,542 for support provided by the State for years ended June 30, 2020 and 2019, respectively.

10. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

At June 30, 2020 and 2019, deferred outflows of resources and deferred inflows of resources related to OPEB are as follows:

	<u>2020</u>	<u>2019</u>
Deferred Outflows of Resources		
Changes in proportion and difference between employer contributions and proportionate share of contributions	\$ 259,062	\$ 357,303
Reallocation of Opt-out employer change in proportionate share	1,543	-
Contributions after the measurement date	701,898	775,781
Total Deferred Outflows of Resources	<u>\$ 962,503</u>	<u>\$ 1,133,084</u>
Deferred Inflows of Resources		
Changes in proportion and difference between employer contributions and proportionate share of contributions	\$ 786,742	\$ 1,040,708
Net difference between projected and actual investment earnings	67,467	152,813
Changes in assumptions	1,268,357	824,328
Reallocation of Opt-out employer change in proportionate share	168,258	-
Differences between expected and actual experience	729,392	122,119
Total Deferred Inflows of Resources	<u>\$ 3,020,216</u>	<u>\$ 2,139,968</u>

The University will recognize the \$701,898 reported as deferred outflows of resources resulting from OPEB contributions after the measurement date as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ended	Amortization
June 30, 2021	\$ 1,073,004
June 30, 2022	959,350
June 30, 2023	589,372
June 30, 2024	137,883
	<u>\$ 2,759,609</u>

11. STATE SYSTEM OF HIGHER EDUCATION INDEBTEDNESS

The University is a State institution of higher education, and the University receives a State appropriation to finance its operations. In addition, it is subject to the legislative and administrative mandates of the State government. Those mandates affect all aspects of the University's operations, its tuition and fee structure, its personnel policies, and its administrative practices.

The State has chartered the Commission with the responsibility to construct or renovate, finance, and maintain various academic and other facilities of the State's universities and colleges, including certain facilities of the University. Financing for these facilities was provided through revenue bonds issued by the former Board of Regents or the former Boards of the University and College Systems (the

11. STATE SYSTEM OF HIGHER EDUCATION INDEBTEDNESS (CONTINUED)

“Boards”). These obligations administered by the Commission are the direct and total responsibility of the Commission, as successor to the former Boards.

The Commission has the authority to assess each public institution of higher education for payment of debt service on these system bonds. The tuition and registration fees of the members of the former State University System are generally pledged as collateral for the Commission’s bond indebtedness. Student fees collected by the institution in excess of the debt service allocation are retained by the institution for internal funding of capital projects and maintenance. Although the bonds remain as capital obligations of the Commission, an estimate of the obligation of each institution is reported as a long-term payable by each institution and as a receivable by the Commission, effective as of June 30, 2002.

Debt service assessed for the years ending June 30, 2020 and 2019 are as follows:

	<u>2020</u>	<u>2019</u>
Fees assessed by the Commission for debt service	<u>\$ 16,939</u>	<u>\$ 18,574</u>

12. UNRESTRICTED COMPONENTS OF NET POSITION

The University did not have any board designated unrestricted components of net position as of June 30, 2020 or 2019.

	<u>2020</u>	<u>2019</u>
Total unrestricted net position before OPEB and net pension liability	\$ 3,437,441	\$ 2,814,172
Less Net pension liability	(251,342)	(238,603)
Less OPEB liability	<u>(6,253,984)</u>	<u>(8,255,790)</u>
Total unrestricted component of net position	<u>\$ (3,067,885)</u>	<u>\$ (5,680,221)</u>

13. DEFINED CONTRIBUTION PLANS

Substantially, all full-time employees of the University participate in either the West Virginia Teachers’ retirement System (TRS), the Teachers’ Insurance and Annuities Association — College Retirement Equities Fund (TIAA-CREF), or Great West Retirement Services (the “Great West”). Previously, upon full-time employment, all employees were required to make an irrevocable selection between the TRS and TIAA-CREF. Effective July 1, 1991, the TRS was closed to new participants. Current participants in the TRS are permitted to make a one-time election to cease their participation in that plan and commence contributions to the West Virginia Teachers’ Defined Contribution Plan. Contributions to and participation in the West Virginia Teachers’ Defined Contribution Plan by University employees have not been significant to date.

13. DEFINED CONTRIBUTION PLANS (CONTINUED)

Effective January 1, 2003, higher education employees enrolled in the basic 401(a) retirement plan with TIAA-CREF have an option to switch to the Great West basic retirement plan. New hires have the choice of either plan.

The TIAA-CREF and Great West are defined contribution benefit plans in which benefits are based solely upon amounts contributed, plus investment earnings. Employees who elect to participate in these plans are required to make a contribution equal to 6% of total annual compensation. The University matches the employees' 6% contribution. Contributions are immediately and fully vested. In addition, employees may elect to make additional contributions to TIAA-CREF which are not matched by the University.

The total contributions that the University was required to contribute to the TIAA-CREF for the years ended June 30, 2020, 2019, and 2018, were \$2,612,850, \$2,609,001, and \$2,120,386, respectively, and covered employees in 2020, 2019, and 2018 of \$1,306,425, \$1,306,297, and \$1,063,404, respectively.

The total contributions that the University was required to contribute to the Great West for the years ended June 30, 2020, 2019, and 2018, were \$120,230, \$148,394, and \$81,847, respectively, and the covered employee in 2020, 2019, and 2018 of \$60,115, \$75,117, and \$41,241, respectively.

The University's total payroll for the years ended June 30, 2020 and 2019 was \$25,304,290 and \$26,256,095, respectively, and total covered employees' salaries in TIAA-CREF and Great West were, \$21,781,480 and \$1,001,918 in 2020, and \$21,729,861 and \$1,221,422 in 2019, respectively.

14. DEFINED BENEFIT PENSION PLAN

Some employees of the University are enrolled in a defined benefit pension plan, the West Virginia Teachers' Retirement System (TRS), which is administered by the West Virginia Consolidated Public Retirement Board (CPRB).

Following is the University's pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, revenues, and the pension expense and expenditures for the fiscal years ended June 30, 2020 and 2019:

	<u>2020</u>	<u>2019</u>
Net Pension Liability	\$ 251,342	\$ 238,603
Deferred Outflows of Resources	\$ 60,517	\$ 46,992
Deferred Inflows of Resources	\$ 67,857	\$ 136,634
Revenues	\$ 73,182	\$ 56,708
Pension Expense	\$ 3,617	\$ (51,746)
Contributions Made by Shepherd	\$ 31,751	\$ 36,597

14. DEFINED BENEFIT PENSION PLAN (CONTINUED)

TRS

Plan Description

TRS is a multiple employer defined benefit cost sharing public employee retirement system providing retirement benefits as well as death and disability benefits. It covers all full-time employees of the 55 county public school systems in the State of West Virginia (the State) and certain personnel of the 13 State-supported institutions of higher education, State Department of Education and the Higher Education Policy Commission hired prior to July 1, 1991. Employees of the State-supported institutions of higher education and the Higher Education Policy Commission hired after June 30, 1991, are required to participate in the Higher Education Retirement System. TRS closed membership to new hires effective July 1, 1991.

TRS is considered a component unit of the State of West Virginia for financial reporting purposes, and, as such, its financial report is also included in the State of West Virginia's Comprehensive Annual Financial Report. TRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained from the TRS website at <https://www.wvretirement.com/Publications.html#CAFR>

Benefits Provided

TRS provides retirement, death, and disability benefits. A member is eligible for normal retirement at age 60 with five years of service, age 55 with 30 years of service or any age with 35 years of service. A member may retire with 30 years of credited service at any age with the pension reduced actuarially if the member retires before age 55. Terminated members with at least five, but less than 20, years of credited service who do not withdraw their accumulated contributions are entitled to a deferred retirement commencing at age 62. Retirement benefits are equivalent to 2% of average annual salary multiplied by years of service. Average salary is the average of the 5 highest fiscal years of earnings during the last 15 fiscal years of earnings. Chapter 18, Article 7A of the West Virginia State Code assigns the authority to establish and amend the provisions of the plan, including contribution rates, to the State Legislature.

Contributions

The funding objective of the CPRB pension trust funds is to meet long-term benefit requirements through contributions, which remain relatively level as a percent of member payroll over time, and through investment earnings. Contribution requirements are set by CPRB. A member who withdraws from service for any cause other than death or retirement may request that the accumulated employee contributions plus interest be refunded.

Member Contributions: TRS funding policy provides for member contributions based on 6% of members' gross salary. Contributions as a percentage of payrolls for members and employers are established by State law and are not actuarially determined.

14. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Employer Contributions: Employers make the following contributions:

The State (including institutions of higher education) contributes:

1. 15% of gross salary of their State-employed members hired prior to July 1, 1991;
2. 15% of School Aid Formula (SAF) covered payroll of county-employed members;
3. 7.5% of SAF-covered payroll of members of the TDCRS;
4. a certain percentage of fire insurance premiums paid by State residents; and
5. under WV State code section 18-9-A-6a, beginning in fiscal year 1996, an amount determined by the State Actuary as being needed to eliminate the TRS unfunded liability within 40 years of June 30, 1994. The University's proportionate share attributable to this special funding subsidy was \$73,182 and \$54,565 as of June 30, 2020 and 2019, respectively.

The University's contributions to TRS for the years ended June 30, 2020, 2019, and 2018, were approximately \$31,751, \$36,597, and \$35,214, respectively.

Assumptions

The total pension liabilities for financial reporting purposes was measured as of June 30, 2019 and 2018. The liabilities were determined by actuarial valuations as of June 30, 2018 and 2017 and rolled forward to June 30, 2019 and 2018. The following actuarial assumptions were used and applied to all periods included in the measurement:

- Actuarial cost method: Entry age normal cost with level percentage of payroll.
- Asset valuation method: Fair value
- Amortization method and period: Level dollar, fixed period through fiscal year 2034.
- Investment rate of return of 7.50%, net of pension plan administrative and investment expenses.
- Projected salary increases: state 3.00–6.00% and non-state 3.00–6.50%,
- Inflation rate of 3.0%.
- Discount rate of 7.50%
- Mortality rates based on RP-2000 Non-Annuitant Tables.
- Withdrawal rates: state 0.8-35.0% and non-state 1.316-24.75%.
- Disability rates: 0.008-0.704%
- Retirement age: An age-related assumption is used for participants not yet receiving payments.
- Retirement rates: 15-100%
- *Ad hoc* cost-of-living increases in pensions are periodically granted by the State Legislature. However, the retirement system makes no automatic provision for such increases.

Experience studies are performed at least once in every five-year period. The most recent experience study covered the period from July 1, 2005 to June 30, 2010. These assumptions will remain in effect for valuation purposes until such time as the CPRB adopts revised assumptions.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

14. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Best estimates of the long-term arithmetic real rates of return for each major asset class included in TRS target asset allocation are summarized below.

<u>Asset Class</u>	2019		2018	
	Long-term Expected Real Return	Target Allocation	Long-term Expected Real Return	Target Allocation
Domestic Equity	5.8%	27.5%	4.5%	27.5%
International Equity	7.7%	27.5%	8.6%	27.5%
Fixed Income	3.3%	15.0%	3.3%	15.0%
Real Estate	6.1%	10.0%	6.0%	10.0%
Private Equity	8.8%	10.0%	6.4%	10.0%
Hedge Funds	4.4%	10.0%	4.0%	10.0%
Target Allocation		100.0%		100.0%

Discount rate. The discount rate used to measure the total TRS pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that State contributions will continue to follow the current funding policy. Based on those assumptions, TRS fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on TRS' investments was applied to all periods of projected benefit payments to determine the total pension liability. In the event of benefit payments that are not covered by the pension plan's fiduciary net position, a municipal bond rate of 2.71% is to be used to discount the benefit payments not covered by the plan's fiduciary net position. The rate equals the S&P Municipal Bond 20 Year High Grade Rate Index at June 30, 2018.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the University's proportionate share of the TRS net pension liability as of June 30, 2020 and 2019 calculated using the discount rate of 7.50%, as well as what the University's TRS net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%) or one percentage point higher (8.50%) than the current rate (dollars in thousands).

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Net Pension Liability as of June 30, 2020	\$ 343,059	\$ 251,342	\$ 172,888
Net Pension Liability as of June 30, 2019	\$ 322,070	\$ 238,603	\$ 167,244

14. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. The TRS net pension liability was measured as of June 30, 2019 and 2018. The total pension liability was determined by actuarial valuations as of June 30, 2018 and 2017 rolled forward to the respective dates.

The University's proportionate share of the TRS net pension liability as of June 30, 2020 and 2019 are as follows:

	<u>2020</u>	<u>2019</u>
Recognized University Net Pension Liability	\$ 251,342	\$ 238,603
University's proportionate share of net pension liability due to special funding situation	<u>606,786</u>	<u>618,206</u>
Total University Proportionate Share of TRS Net Pension Liability	<u>\$ 858,128</u>	<u>\$ 856,809</u>

The allocation percentage assigned to each participating employer and non-employer contributing entity is based on their proportionate share of employer and non-employer contributions to TRS for each of the fiscal years ended June 30, 2019 and 2018. Employer contributions are recognized when due. At June 30, 2019 and 2018, the University's proportion was 0.008448% and 0.007642%, respectively.

The University recognized TRS pension expense for the years ended June 30, 2020 and 2019 as follows:

	<u>2020</u>	<u>2019</u>
University's proportionate share of TRS expense	\$ (69,565)	\$ (106,311)
Pension expense attributable to special funding from a non-employer contributing entity	<u>73,182</u>	<u>54,565</u>
Total TRS pension expense	<u>\$ 3,617</u>	<u>\$ (51,746)</u>

The University also recognized revenue of \$73,182 and \$56,708 for support provided by the State for years ended June 30, 2020 and 2019, respectively.

14. DEFINED BENEFIT PENSION PLAN (CONTINUED)

At June 30, 2020 and 2019, deferred outflows of resources and deferred inflows of resources related to the TRS pension are as follows:

	<u>2020</u>	<u>2019</u>
Deferred Outflows of Resources		
Differences between expected and Actual Experience	\$ 1,256	\$ 1,716
Changes in Proportion and difference between employer contributions and proportionate share of contributions	22,083	1,265
Changes in assumptions	5,427	7,414
Contributions after the measurement date	<u>31,751</u>	<u>36,597</u>
Total Deferred Outflows of Resources	<u>\$ 60,517</u>	<u>\$ 46,992</u>
Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 8,591	\$ 4,810
Changes in Proportion and difference between employer contributions and proportionate share of contributions	52,430	119,402
Net difference between projected and actual investment earnings	<u>6,836</u>	<u>12,422</u>
Total Deferred Inflows of Resources	<u>\$ 67,857</u>	<u>\$ 136,634</u>

The University will recognize the 2020 pension contributions of \$31,751 as a reduction of the TRS net pension liability in the year ended June 30, 2021. Other 2020 amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in TRS pension expense as follows:

<u>Fiscal Year Ended</u>	<u>Amortization</u>
June 30, 2021	\$ (23,108)
June 30, 2022	(14,212)
June 30, 2023	(8,878)
June 30, 2024	5,400
June 30, 2025	<u>1,707</u>
	<u>\$ (39,091)</u>

Payables to the pension plan

The University did not report any amounts payable for normal contributions to the TRS as of June 30, 2020 and 2019.

15. FOUNDATION

The Foundation is a separate nonprofit organization incorporated in the State and has as its purpose “... to aid, strengthen, and further in every proper and useful way, the work and services of the University and its affiliated nonprofit organizations...” Oversight of the Foundation is the responsibility of its separate and independently elected Board of Directors, not otherwise affiliated with the University. In carrying out its responsibilities, the Board of Directors of the Foundation employs management, forms policy, and maintains fiscal accountability over funds administered by the Foundation. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, which the Foundation holds and invests, are restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the University, the Foundation is considered a component unit of the University and is therefore discretely presented with the University’s financial statements in accordance with GASB.

Based on the Foundation’s audited financial statements as of June 30, 2020 and 2019, the Foundation’s net assets (including unrealized gains) totaled \$29,782,370 and \$29,173,707, respectively. Complete financial statements of the Foundation can be obtained from The Shepherd University Foundation, Incorporated, P.O. Box 3210, Shepherdstown, West Virginia 25443-3210.

During the years ended June 30, 2020 and 2019, the Foundation contributed \$2,170,010 and \$1,989,546, respectively, to the University for scholarships and awards.

16. AFFILIATED ORGANIZATION

The University has a separately incorporated an affiliated organization, the Alumni Association and Friends of Shepherd University. Oversight responsibility for this entity rests with an independent board and management not otherwise affiliated with the University, and a benefit/burden relationship does not exist between them and the University. Therefore, their operations are not listed as a component unit of the University.

17. COMMITMENTS AND CONTINGENCIES

Leases

The University executed an operating lease agreement for the Martinsburg Center campus at 261 Aikens Center, Martinsburg, West Virginia in 2014. The lease agreement includes scheduled rent increases over the term of the lease, which will be recognized on a straight-line basis over the term of the lease. The lease expires June 2023. Rental expense under the operating lease was \$113,004 and \$113,004 for the years ended June 30, 2020 and 2019, respectively. The rent expense is included in supplies and other services (Instruction) in the accompanying statements of revenues, expenses, and changes in net position.

17. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Future minimum payments under noncancellable operating leases are as follows at June 30:

	Leases
2021	\$ 114,699
2022	118,140
2023	<u>121,684</u>
Total minimum lease payments	<u>\$ 354,523</u>

Claims

The nature of the educational industry is such that, from time to time, claims will be presented against the University on account of alleged negligence, acts of discrimination, breach of contract, or disagreements arising from the interpretation of laws or regulations. While some of these claims may be for substantial amounts, they are not unusual in the ordinary course of providing educational services in a higher education system. In the opinion of management, all known claims are covered by insurance or are such that an award against the University would not have a significant financial impact on the financial position of the University.

Federal Contracts

Under the terms of federal grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. The University's management believes disallowances, if any, will not have a significant financial impact on the University's financial position.

Arbitrage

The Internal Revenue Code of 1986 establishes rules and regulations for arbitrage rebates. There are no arbitrage rebate liabilities as of June 30, 2020 or 2019.

Building Codes

The University owns various buildings that are known to contain asbestos. The University is not required by federal, state, or local law to remove the asbestos from its buildings. The University is required under federal environmental, health, and safety regulations to manage the presence of asbestos in its buildings in a safe condition. The University addresses its responsibility to manage the presence of asbestos in its buildings on a case-by-case basis. Significant problems of dangerous asbestos conditions are abated as the condition becomes known. The University also addresses the presence of asbestos as building renovation or demolition projects are undertaken and through asbestos operation and maintenance programs directed at containing, managing, or operating with the asbestos in a safe condition.

17. COMMITMENTS AND CONTINGENCIES (CONTINUED)

Risk Management

The University is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The University carries commercial insurance to insure against major loss related to these risks. The University also carries commercial insurance for employee health, long-term disability, life, and workers' compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage. There have been no significant reductions in insurance coverage or any settled claims that have exceeded the amount of the coverage in any of the past three years.

18. POTOMAC PLACE

Completion of the Potomac Place residence hall occurred in July, 2017 and became available for student housing in the Fall Semester of 2017. This 300-bed student housing facility, including the buildings, furniture, fixtures, machinery and equipment and related facilities is subject to a Ground Lease Agreement between the University and the Shepherd University Foundation Supporting Organization (SUFSO), where the University is the "Lessor" and the SUFSO is the "Lessee" and a Management Agreement exists between the two entities with the University fulfilling the duties of the "Manager" and the SUFSO.

The Ground Lease Agreement will expire upon the repayment of all associated outstanding debt borrowed by the Supporting Organization, scheduled for full repayment in approximately forty (40) years. Upon the expiration of the lease, the building and associated equipment and furnishings will be transferred to Shepherd University. The ground lease agreement requires annual rental payments due 30 days after the receipt of the audited financial statements of the SUFSO, beginning in June, 2018. For the years ending June 30, 2020 and 2019, total ground rent due from SUFSO was \$0 and \$417,192, respectively.

In the Management Agreement, the SUFSO appoints the University as its exclusive agent for the construction, operation, management and maintenance of the Project and the University accepts the appointment, subject to the terms and conditions set forth in this Agreement. The University agrees to comply with the terms and conditions of the Ground Lease; and the University agrees to use its commercially reasonable efforts to manage the Project in accordance with the provisions of the Ground Lease applicable to the operation, use, management, repair, and modification of the Project.

19. SUBSEQUENT EVENTS

Subsequent to year end June 30, 2020, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses and communities. COVID-19 may impact various parts of the University's operations and financial results in fiscal year 2021, including but not limited to, decline in enrollment, loss of auxiliary revenues, additional bad debts and increased costs for technology. The University is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events occurred subsequent to year end and are still developing.

20. SEGMENT INFORMATION

Condensed statements of net position as of June 30, 2020 and 2019:

22. COMPONENT UNIT'S DISCLOSURES

The consolidated notes, taken directly from the audited financial statements of the Shepherd University Foundation, Inc. and Supporting Organization, are as follows:

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Principles

The consolidated financial statements include Shepherd University Foundation, Inc. and Shepherd University Foundation Supporting Organization (collectively referred to as the Foundation). Shepherd University Foundation, Inc. shares a common governing board with and has an ongoing economic interest in the Shepherd University Foundation Supporting Organization (Supporting Organization). As a result, these entities are financially interrelated and consolidation is required under accounting principles generally accepted in the United States. All significant intercompany balances and transactions have been eliminated.

Nature of Operations and Program Activities

The Shepherd University Foundation, Inc., and the Shepherd University Foundation Supporting Organization are nonprofit organizations incorporated in the state of West Virginia and headquartered in Shepherdstown, West Virginia. The primary purpose of the Shepherd University Foundation, Inc. is to provide assistance and support for the students, facilities and programs of Shepherd University. The primary purpose of the Shepherd University Foundation Supporting Organization is to provide financial support and other supporting services to the Shepherd University Foundation, Inc. The major program of the Shepherd University Foundation Supporting Organization is the construction and operation of a dormitory for students attending Shepherd University.

Basis of Accounting

The consolidated financial statements of the Shepherd University Foundation, Inc. and Supporting Organization are presented on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America. Net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions.

Revenues are reported as increases in net assets without donor restriction unless use of the related assets are limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on assets or liabilities are reported as increases or decreases in net assets without donor restriction unless their use is restricted by explicit donor stipulation or by law. Expirations of net assets with donor restriction (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

Custodial accounts representing funds held by the Foundation on behalf of Shepherd University and/or departments of the University or related parties to the University are reported as custodial liabilities. The Foundation is responsible for the management and administration of these funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Assets

The Foundation is required to report information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions. A description of the two net asset categories follows:

Net Assets Without Donor Restriction

Net assets that are not subject to donor-imposed stipulations. Net assets without donor imposed restrictions include net assets designated by the board for a specific purpose, namely to provide college support to Shepherd University. Board-designated net assets amounted to \$83,923 and \$79,454 at June 30, 2020 and 2019, respectively, which were made up of cash and cash equivalents.

Nets Assets With Donor Restriction

Net assets whose use by the Foundation is subject to donor-imposed restrictions that can be fulfilled by actions of the Foundation pursuant to those restrictions or that expire by the passage of time, and net assets subject to donor-imposed restrictions that are to be maintained in perpetuity by the Foundation. Generally, restrictions are to provide assistance and support for the students, facilities and programs of Shepherd University.

Investments

The Foundation accounts for its investments in accordance with generally accepted accounting principles (GAAP). Under GAAP, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the consolidated statements of financial position. Unrealized gains and losses are included in the changes in net assets.

Contributions

Unconditional contributions, including unconditional promises to give, are recognized as revenue in the period received. All contributions are available for unrestricted use unless specifically restricted by the donor. Bequests are recorded as revenue at the time an unassailable right to the gift has been established and the proceeds are measurable. Non-cash contributions received that are retained or passed through to Shepherd University are recorded at their current or appraised value at the date they are contributed. Donated stock is recorded at its fair market value on the date of receipt.

The Foundation does not recognize contributions that are conditional; that is, contributions are recognized at the point in time that any barriers to overcome have been met and when no right of return exists. Conditional contributions not included in the Foundation's financial statements include testamentary gifts and any other contributions contingent on the occurrence of an event that has not yet happened.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pledges Receivable

Pledges are recorded as revenue when received. It is the Foundation's policy to evaluate individual pledges annually to determine collectability. Pledges deemed uncollectable are written off as part of the change in net assets in the year such determination is made. The present value adjustment for pledges receivable is calculated by determining the present value of the future contributions expected to be received, using a discount rate of 6%.

Property and Equipment

Purchased assets are recorded at cost. Donated assets retained by the Foundation are recorded at their current or appraised value at the date they are donated. Expenditures of \$5,000 or more and having a useful life greater than one year are capitalized. Assets no longer in use are retired. Maintenance and repairs are expensed as incurred. Depreciation is calculated by the straight-line method over the estimated useful lives of the assets as follows:

	<u>Years</u>
Office equipment	3-7
Dormitory building and improvement:	40
Dormitory furniture and fixtures	5

Loan Origination Costs

The Foundation has presented all loan origination costs as a direct deduction from loans payable. Amortization of the loan costs is included as a component of interest expense.

In February 2018, the Shepherd University Supporting Organization incurred loan origination costs of \$26,890 associated with the permanent refinancing of the WV Economic Development Authority bond anticipation notes with a USDA loan. In April 2019, an additional \$23,000 loan costs associated with this permanent financing was incurred. These costs are being amortized using the straight-line method over the life of the related debt, which is 40 years.

Advertising

Advertising costs are expensed as incurred and amounted to \$1,165 and \$3,205 for the years ended June 30, 2020 and 2019, respectively.

Functional Expenses

Certain costs have been allocated among the programs and supporting services. Allocation of costs by function is based principally on specific identification of costs to either program or general and administrative expenses. Non-specifically identified costs are based on square footage allocations and on management's allocation of time requirements incurred for the various functions based on their analysis of historical activities. The Foundation did not engage in any material fundraising activities during the years ended 2020 and 2019, respectively.

Dormitory Revenue, Accounts Receivable and Deferred Revenues

Revenues related to the operation of the Potomac Place residence hall are recognized in the period the related housing and services are provided. To the extent applicable, deferred revenue is recognized for any advanced payments received from students and others prior to the period of the rental. Accounts receivable primarily represents amounts due for residence hall rentals that occurred prior to the financial statement date. Management determines an allowance for doubtful accounts by regularly evaluating the individual receivables and considering the student's financial condition and payment history. Receivables are written off when deemed uncollectible. As of June 30, 2020 and 2019, management feels all receivables will be collected and therefore, has not established an allowance for doubtful accounts.

Transfers

Transfers reported on the consolidated statement of activities generally represent the movement of a fund's existing net assets to the net assets of another fund with a different level of restriction. Transfers can occur when the donor of a fund changes the associated restriction of an established fund to another purpose, if the donor wishes to distribute available earnings on an existing fund to another fund within the Foundation or when a fund pays their share of management fees due to the Foundation.

Tax Exempt Status

The Internal Revenue Service has determined that the Shepherd University Foundation, Inc. and Shepherd University Foundation Supporting Organization are organizations described in Section 501(c)(3) of the Internal Revenue Code and are therefore exempt from federal income tax. Shepherd University Foundation, Inc. has also been classified as a public charity under Section 509(a)(1) of the Internal Revenue Code and Shepherd University Foundation Supporting Organization has been classified as a public charity under Section 509(a)(3) of the Internal Revenue Code.

The Foundation follows generally accepted accounting principles, which provides guidance on accounting for uncertainty in income taxes recognized in an organization's financial statements. The Foundation's policy is to charge penalties and interest to income tax expense as incurred. The Foundation's federal and state income tax returns are subject to examination by the Internal Revenue Service and state tax authorities, generally for a period of three years after the returns are filed.

Use of Estimates in the Preparation of Consolidated Financial Statements

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Concentrations of Credit Risk

In the course of conducting its activities the Foundation encourages alumni, local businesses and the general public to support its purposes by regularly soliciting contributions. Many of the contributors pledge their support over several years in the form of pledges. Pledges that are legally enforceable represent extensions of credit by the Foundation to its donors.

Statement of Cash Flows

For purposes of presenting cash flow information, the Foundation has defined cash equivalents as highly liquid debt instruments with original maturities of three months or less.

Risks and Uncertainties

The Foundation's investment portfolio contains government obligations, fixed income bonds, mutual funds, hedge funds and equity securities. Such investments are exposed to various risks, such as market and credit risk. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in risk in the near term would materially affect investment balances and the amounts reported in the consolidated financial statements.

Recent economic and government reactions to the COVID-19 pandemic have resulted in temporary reductions or ceasing of operations for some businesses and created economic uncertainties. These events could impact the ability of the Foundation to maintain its operating results at the same level. However, the financial impact and duration cannot be reasonably estimated at this time.

The Foundation places its demand deposits with local banks. At times such balances may be in excess of the Federal Deposit Insurance Corporation insurance limit. Management considers this to be a normal business risk.

Reclassifications

Certain reclassifications of amounts previously reported have been made in the accompanying financial statements in order to make them conform to the classifications used for the year ended June 30, 2020.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in accounting principles generally accepted in the United States of America when it becomes effective on July 1, 2020 and permits the use of either a full retrospective or retrospective with cumulative effect transition method. The Foundation is currently evaluating the effect that the updated standard will have on the financial statements.

In February 2016, FASB issues ASU 2016-02, Leases (Topic 842). The guidance in this ASU supersedes the leasing guidance in Topic 840, Leases. Under the new guidance, lessees are required to recognize lease assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. The new standard is effective for the Foundation starting July 1, 2022. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Foundation will be evaluating the effect the standard will have on the financial statements.

NOTE 2 CASH AND CASH EQUIVALENTS

Restricted cash includes cash and cash equivalents held in demand accounts at financial institutions or brokerage firms that are associated with custodial liabilities or restricted funds held within the organization. Also, in connection with the USDA loan discussed in Note 9, commencing in February 2018, the Foundation is required maintain a debt service reserve account and property replacement reserve account. The Foundation is required to make monthly deposits of at least \$7,685 to the debt service reserve account until the account balance reaches \$922,092. The Foundation also must make monthly deposits into a property replacement reserve account. The amount of required monthly deposit was \$5,092 at June 30, 2020 and increases by 3% each February until the USDA loan is paid off.

Cash and cash equivalents consisted of the following at June 30, 2020 and 2019:

	2020	2019
Restricted cash:		
Cash associated with custodial liabilities	\$ 952,962	\$ 788,749
Cash associated with restricted funds	2,305,476	1,855,913
Debt service reserve account	223,902	131,344
Property replacement reserve account	142,752	82,469
Total restricted cash	3,625,092	2,858,475
Unrestricted cash	-	26,259
Total cash and cash equivalents	<u>\$ 3,625,092</u>	<u>\$ 2,884,734</u>

NOTE 3 PLEDGES RECEIVABLE

Pledges receivable represent amounts due to the Foundation for legally enforceable pledges. These pledges are payable in full or in part through June 30, 2024.

Pledges receivable as of June 30, 2020 and 2019 consist of temporarily and permanently restricted net assets. These unconditional promises to give are scheduled to be received by the Foundation over the next several years and are considered to be fully collectible.

	2020	2019
Receivable in less than one year	\$ 1,069,771	\$ 771,840
Receivable in one to five years	<u>1,194,566</u>	<u>2,248,768</u>
Total pledges receivable	2,264,337	3,020,608
Less discount to net present value	<u>(89,418)</u>	<u>(213,163)</u>
Net Pledges Receivable	<u>\$ 2,174,919</u>	<u>\$ 2,807,445</u>

NOTE 4 INVESTMENTS

The Foundation maintains investment securities with various brokerage companies. The Foundation also holds investments in real estate, certificates of deposit, and some common stock that are not invested with brokerage companies.

Investment securities at June 30, 2020 and 2019 are composed of the following:

Description	Cost	Market
2020		
Certificates of deposit	\$ 695,007	\$ 695,007
Government securities	2,300,818	2,408,683
Corporate bonds and notes	1,978,447	2,046,112
Mutual funds	15,751,968	17,804,357
Hedge funds	1,464,699	1,490,056
Stocks	<u>1,790,949</u>	<u>2,420,817</u>
Investment Securities	<u>\$ 23,981,888</u>	<u>\$ 26,865,032</u>
2019		
Certificates of deposit	\$ 689,764	\$ 689,764
Government securities	2,086,391	2,125,225
Corporate bonds and notes	1,696,413	1,727,566
Mutual funds	14,914,842	18,009,653
Hedge funds	986,092	1,007,441
Stocks	<u>1,724,990</u>	<u>2,297,894</u>
Investment Securities	<u>\$ 22,098,492</u>	<u>\$ 25,857,543</u>

NOTE 4 INVESTMENTS (CONTINUED)

At June 30, 2020 and 2019, there was \$1,451,656 and \$929,458, respectively, of cash and cash equivalents held in the brokerage accounts available to be invested by the Foundation.

The investment in real estate is included in investments at net book value on the consolidated statement of financial position due to not having a readily available market value. Investment in real estate is comprised of the following:

Description	Cost	Accumulated Depreciation	Net Book Value
2020			
Land	\$ 40,000	\$ -	\$ 40,000
Building	160,202	99,458	60,744
	<u>\$ 200,202</u>	<u>\$ 99,458</u>	<u>\$ 100,744</u>
2019			
Land	\$ 40,000	\$ -	\$ 40,000
Building	160,202	95,453	64,749
	<u>\$ 200,202</u>	<u>\$ 95,453</u>	<u>\$ 104,749</u>

Depreciation expense related to investment in real estate amounted to \$4,005 for each year ended June 30, 2020 and 2019, respectively.

The following is a summary of the Foundation's investments at June 30, 2020 and 2019:

Description	2020	2019
Investment Securities	\$ 26,865,032	\$ 25,857,543
Real estate	100,744	104,749
	<u>\$ 26,965,776</u>	<u>\$ 25,962,292</u>

The risks of economic uncertainty and market volatility underscore the level of investment risk associated with the Foundation's investments.

NOTE 5 INTEREST IN LIFE ESTATE

During the year ended June 30, 2013, a donor established a life estate giving a remainder interest in a residential property to the Foundation, while retaining a life interest in the property. A life estate agreement is an arrangement whereby the donor transfers property to a charity while retaining the right to occupy and otherwise enjoy the full use of the property for the donor's choice of a term of years or the lifetime of the donor. The present commitment value of the property is based on the individual's life expectancy, which provides for a contribution value based upon the fact the donor is

NOTE 5 INTEREST LIFE ESTATE (CONTINUED)

making a present commitment to a future charitable gift. The value of the property is based upon a third-party appraisal value at the date of transfer of \$447,500, discounted by the present value of the fair market rental value of the property at the time of the transfer of \$1,700 per month. The present value was calculated based upon the life expectancy of the donor as determined by the Social Security Life Expectancy tables and a 3.25% rate of return per the American Council on Gift Annuities. Assets held in life estates at June 30, 2020 and 2019 were \$406,461 and \$387,726, respectively, and are reported at the calculated present value on the Foundation's consolidated statement of financial position. Changes in the present value of the life estate will be reflected as changes in permanently restricted net assets in the Foundation's consolidated statement of activities.

NOTE 6 PROPERTY AND EQUIPMENT

Equipment consists of the following:

	2020	2019
Office equipment	\$ 22,299	\$ 22,299
Dormitory building and improvements	20,082,300	20,082,300
Dormitory furniture and fixtures	<u>1,012,802</u>	<u>1,012,802</u>
	21,117,401	21,117,401
Less: accumulated depreciation	<u>(2,073,290)</u>	<u>(1,364,347)</u>
Net Book Value	<u>\$ 19,044,111</u>	<u>\$ 19,753,054</u>

Depreciation expense related to property and equipment was \$708,943 and \$708,944 for the years ended June 30, 2020 and 2019, respectively.

The cost, accumulated depreciation and depreciation expense related to investments in real estate, as disclosed in Note 4, are excluded from the above property and equipment disclosure.

NOTE 7 CUSTODIAL LIABILITIES

Generally accepted accounting principles establish standards for transactions in which a foundation accepts a contribution from a donor and agrees to transfer those assets, the return on investment of those assets, or both, to another entity that is specified by the donor. Specifically, if a not-for-profit organization establishes a fund at a foundation with its own funds and specifies itself or its affiliate as the beneficiary of that fund, the foundation must account for the transfer of such assets as a liability. The liability has been established at the fair market value of the funds, which is generally equivalent to the present value of future payments expected to be made to the not-for-profit organizations.

NOTE 7 CUSTODIAL LIABILITIES (CONTINUED)

The gross receipts and disbursements for the custodial accounts, and the interest and gains on investments for the custodial accounts for the years ended June 30, 2019 and 2018 are as follows:

	2020	2019
Custodial receipts	\$ 666,011	\$ 340,800
Custodial payments	(505,080)	(406,650)
Net investment	<u>3,282</u>	<u>7,758</u>
Net Increase (Decrease) in Custodial Liabilities	<u>\$ 164,213</u>	<u>\$ (58,092)</u>

NOTE 8 GIFT ANNUITIES

The Foundation has entered into several charitable gift annuity agreements with donors. Charitable gift annuities represent a gift of cash, investments or other assets from a donor. In return, the donor receives a fixed stream of income from the Foundation for the rest of their life. Upon the end of the donor's life, the Foundation takes ownership of the remainder of the gift. Gift annuities are recognized at fair value when received, and the corresponding liabilities are recorded using the present value of future cash flows expected to be paid to the donors and are being amortized over the expected lives of the donors.

The liability associated with gift annuities payable amounted to \$81,646 and \$93,441 for the years ended June 30, 2020 and 2019, respectively.

NOTE 9 LOANS PAYABLE

As disclosed in Note 16, in June 2016 the Shepherd University Foundation Supporting Organization obtained interim financing for their student housing facility project through bond anticipation notes issued by the West Virginia Economic Development Authority. The Shepherd University Foundation Supporting Organization borrowed \$22,035,000 under Series 2016A bond anticipation notes with an interest rate of 1.20% and \$350,000 of Series 2016B taxable bond anticipation notes with an interest rate of 2.45%. The loans matured on February 1, 2018 and required semi-annual interest only payments on August 1 and February 1 of each loan year. On February 1, 2018, all outstanding interest and principal was repaid using the financing provided by the USDA rural development loan noted below. The bond anticipation bonds were secured by a leasehold deed of trust on the student housing facility project, which was released upon repayment of the notes.

NOTE 9 LOANS PAYABLE (CONTINUED)

On January 19, 2018, the Shepherd University Supporting Organization borrowed \$21,892,000 under a 40-year USDA rural development loan to finance the Potomac Place student housing facility project. The USDA loan requires monthly principal and interest payments of \$76,841, including interest fixed at 2.875%. The loan is scheduled to mature on January 19, 2058. The USDA loan is secured by a leasehold deed of trust on the Potomac Place student housing facility, including all real property and any furniture, fixtures and equipment related to the housing facility. In addition, all revenues, accounts receivable and intangibles associated with the Potomac Place student housing facility have been assigned and pledged to the USDA.

As disclosed in Note 2, under the USDA loan agreement, the Shepherd University Supporting Organization is required to maintain and make monthly deposits into a debt service reserve bank account and property replacement reserve bank account.

The carrying value of the collateral securing the above loans was \$19,039,967 and \$19,744,584 at June 30, 2020 and 2019, respectively. Total interest capitalized during the construction period of the student housing facility project amounted to \$311,669.

The balance of loans payable, net of loan costs, at June 30, 2020 and 2019 is as follows:

	2020	2019
USDA Rural Development Loan	\$ 21,158,449	\$ 21,467,383
Less: loan costs, net of accumulated amortization of \$2,390 and \$1,128, respectively	<u>(47,500)</u>	<u>(48,762)</u>
	<u>\$ 21,110,949</u>	<u>\$ 21,418,621</u>

The future required principal payments as of June 30, 2020 are as follows:

Year Ending June 30,	
2021	\$ 317,885
2022	327,145
2023	336,675
2024	344,900
2025	356,531
Thereafter	<u>19,475,313</u>
	<u>\$ 21,158,449</u>

Amortization of loan costs charged to interest expense for the years ended June 30, 2020 and 2019 was \$1,262 and \$820, respectively

NOTE 10 NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions consist of the following at June 30, 2020 and 2019:

	2020	2019
Restricted for a Specific Purpose		
Scholarships, awards and college support	\$ 9,192,791	\$ 9,555,753
Restricted in Perpetuity		
Endowment Funds	<u>23,340,453</u>	<u>21,383,830</u>
	<u>\$ 32,533,244</u>	<u>\$ 30,939,583</u>
Assets (Liabilities)		
Cash and equivalents	\$ 2,305,476	\$ 1,855,913
Pledges receivable, net of present value adjustment	2,174,919	2,807,445
Accounts receivable	250	-
Accrued interest receivable	32,152	30,956
Investments	26,865,032	25,857,543
Interest in life estate	406,461	387,726
Accounts payable	<u>(12,000)</u>	<u>-</u>
	<u>\$ 31,772,290</u>	<u>\$ 30,939,583</u>

At June 30, 2020 there was a deficit in the amount of \$760,955 of assets, net of liabilities, available to cover the balance of non-endowed net assets restricted for a specific purpose. As further disclosed in Note 19, this deficit was a result of expenditures exceeding revenues of the undesignated operating fund, which is reported as net assets without donor restriction.

NOTE 11 ENDOWMENTS

The Foundation's endowments consist of individual funds established to provide investment income for the Foundation's operations. The endowments include donor-restricted endowment funds. Net assets associated with endowment funds, including funds designated by the Foundation to function as endowments, are classified and reported as permanently restricted net assets based on the donor-imposed restrictions. The classification is based on the board's interpretation of West Virginia's statutes that govern such endowments and its interpretations of donor intent and the related endowment bylaws.

The Foundation considers several factors when making a determination to appropriate or accumulate donor-restricted endowment funds. These factors include the duration and preservation of the fund, the mission of the Foundation, the purpose of any donor-restrictions, general economic conditions, the possible effect of inflation and deflation, the expected total return from income and the appreciation of investments, and other resources.

The Board of Trustees of the Foundation has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as

NOTE 11 ENDOWMENTS (CONTINUED)

of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, The Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by SPMIFA.

The Shepherd University Foundation's Directors make an annual determination of the level of funding that will be provided by the Foundation's investments. The policy of the Foundation's Directors is to determine the amount of the annual income distribution based on the investment portfolio's total return for the previous fiscal year. Any undistributed investment income is added to net assets with donor restrictions – restricted for a specific purpose.

The endowments are invested consistent with an investment policy statement that is monitored by the Foundation's Directors. To satisfy the long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Funds in the endowment are primarily invested in U.S. Government Securities and managed equity funds with several investment managers using an investment philosophy that maintains equities in the range of 25% to 75% of the total fund, alternatives in the range of 5% to 45%, fixed income securities in the range of 0% to 40%, and cash in the range of 0% to 20%.

All endowment funds held at the Foundation are donor restricted endowment funds. Donor restricted endowment funds amounted to \$24,124,439 and \$22,985,970 as of June 30, 2020 and 2019, respectively.

The changes in endowment net assets for the years ended June 30, 2020 and 2019 were as follows:

Endowment Net Assets at July 1, 2018	\$	22,219,574
Net investment return		999,493
Contributions		865,984
Transfers of funding with the Foundation		(516,901)
Appropriations of endowment assets for expenditure		<u>(582,180)</u>
Endowment Net Assets at June 30, 2019	\$	22,985,970
Net investment return		80,139
Contributions		2,024,853
Transfers of funding with the Foundation		(339,689)
Appropriations of endowment assets for expenditure		<u>(626,834)</u>
Endowment Net Assets at June 30, 2020	\$	<u>24,124,439</u>

NOTE 11 ENDOWMENTS (CONTINUED)

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or SPMIFA requires the Foundation to retain as a fund of perpetual duration (underwater endowments). At June 30, 2020, seventeen endowment funds with original gift values of \$2,118,347, fair values of \$2,100,375 and deficiencies of \$17,972 were reported in net assets with donor restrictions. At June 30, 2019, three endowment funds with original gift values of \$33,103, fair values of \$30,273 and deficiencies of \$2,830 were reported in net assets with donor restrictions. These deficiencies resulted from unfavorable market fluctuations.

NOTE 12 FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value, establishes a three-level valuation hierarchy for disclosure of fair value measurement and enhances disclosure requirements for fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- **Level 1** – Represented by quoted prices that are available in an active market. Level 1 securities include highly liquid government bonds, treasury securities, mortgage products and exchange traded equities.
- **Level 2** – Represented by assets and liabilities similar to Level 1 where quoted prices are not available, but are observable, either directly or indirectly through corroboration with observable market data, such as quoted prices for similar securities and quoted prices in inactive markets and estimated using pricing models or discounted cash flows. Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states and political subdivisions and certain corporate, asset backed securities and swap agreements.
- **Level 3** – Represented by financial instruments where there is limited activity or unobservable market prices and pricing models significant to determining the fair value measurement include the reporting entity's own assumptions about the market risk. Level 3 securities would include hedge funds, private equity securities, and private investments in public entities.

NOTE 12 FAIR VALUE MEASUREMENTS (CONTINUED)

Fair value of assets measured on a recurring basis at June 30, 2020 and 2019 are as follows:

	Total	Level 1	Level 2	Level 3
2020

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statements of financial position.

The fair values of Shepherd University Foundation's assets are measured using different techniques. The fair value for pledges receivable is determined by calculating the present value of the pledges expected to be received, using a discount rate of 6%. The fair value measurement for investments is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data (Level 2). In certain cases, where there is limited activity or less transparency around inputs to the valuation, securities are classified within Level 3 of the hierarchy.

NOTE 12 FAIR VALUE MEASUREMENTS (CONTINUED)

Assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3 inputs) consist of pledges receivable. The changes in Level 3 assets are as follows for the years ended June 30, 2020 and 2019:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
	Pledges Receivable	
June 30, 2020		
Fair Value as of July 1, 2019	\$	2,807,445
New pledges		30,000
Payments received		(786,271)
Change in valuation		123,745
Fair Value as of June 30, 2020	\$	<u>2,174,919</u>
June 30, 2019		
Fair Value as of July 1, 2018	\$	3,112,047
New pledges		305,600
Payments received		(734,243)
Change in valuation		124,041
Fair Value as of June 30, 2019	\$	<u>2,807,445</u>

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of June 30, 2020 and 2019.

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
June 30, 2020				
Ironwood Fund (a)	\$ 1,040,056	N/A	Semi-Annually	95 days
Golub Fund (b)	<u>450,000</u>	N/A	Not Eligible	N/A
	<u>\$ 1,490,056</u>			
June 30, 2019				
Ironwood Fund (a)	<u>\$ 1,007,441</u>	N/A	Semi-Annually	95 days

NOTE 12 FAIR VALUE MEASUREMENTS (CONTINUED)

- (a) The Ironwood Institutional Multi-Strategy Fund, LLC (Ironwood Fund) is a speculative fund of funds. The Ironwood Fund's investment objective is capital appreciation with limited variability of returns. The Ironwood Fund attempts to achieve this objective by allocating capital among a number of pooled investment vehicles that are generally organized in non-U.S. jurisdictions and classified as corporations for U.S. federal income tax purposes. Each investment vehicle is managed by an independent investment manager pursuant to various alternative investment strategies, including relative value; market neutral and low net equity; event-driven; and distressed and credit securities.
- (b) The investment in Golub Capital Partners International 12, L.P. (Golub Fund) represents a limited partnership interest in a privately held speculative hedge fund. The Golub Fund's investment objective is to achieve attractive risk-adjusted returns relative to more liquid fixed income alternatives, with emphasis on current income and preservation of capital. The Golub Fund attempts to achieve this objective primarily by investing in senior secured, floating rate middle market loans, through wholly and partially owned holding companies and other investment vehicles. Most investment assets will be leveraged in the form of collateralized loan obligations and credit facilities. The Golub Fund plans to continue until July 1, 2028 and return all capital prior to that date at the general partner's discretion. Withdrawals of partnership interests generally are not permitted except in limited circumstances.

The Foundation has committed to a total maximum investment in the Golub Fund of \$1,000,000 of which \$450,000 has been invested as of June 30, 2020. The remaining commitment is due to Golub Fund on demand, and earnings of the fund may be applied as a reduction of the commitment.

NOTE 13 EMPLOYEE RETIREMENT PLAN

The Foundation participates in the TIAA - CREF retirement plan. The Foundation contributes to the plan based on a dollar for dollar match of the contributions of full time employees up to 6%. The cost recognized during the years ended June 30, 2020 and 2019 was \$12,987 and \$13,375, respectively.

NOTE 14 CONDITIONAL PROMISES TO GIVE

In the normal course of operations, the Foundation has been notified as being designated to receive various deferred gifts from alumni and friends in support of Shepherd University that are not recorded in the consolidated financial statements because of their contingent nature. However, the Foundation facilitates and monitors deferred gifts through the use of Memorandums of Understanding detailing the donor's intent and stipulations for administration of the gift for such items as bequests, charitable remainder trusts and insurance policies.

NOTE 15 RELATED PARTY TRANSACTIONS – SHEPHERD UNIVERSITY

The Foundation is a component unit of Shepherd University (University). The Shepherd University Foundation, Inc. provides scholarships and support for the students, facilities and programs of the University. Total scholarships, awards and college support provided to the University and students attending the University amounted to \$2,737,950 and \$2,451,292 for the years ended June 30, 2020 and 2019, respectively.

The Foundation utilizes space owned by the University but does not pay rent. In-kind revenue and expense of \$12,600 has been recorded for the use of this space for the years ended June 30, 2020 and 2019, respectively.

In August 2017, the Shepherd University Foundation Supporting Organization entered into an agreement to lease 1,490 square feet on the ground floor of the Potomac Place student housing facility to the University for the purpose of operating a food service market to serve the students of the facility. The lease agreement which expired on June 30, 2020 is continuing on a month to month basis until a new agreement is executed. The lease requires monthly payments of \$2,700 Total rental revenue from this lease agreement amounted to \$32,400 and \$32,400 for the years ended June 30, 2020 and 2019, respectively.

As disclosed in Note 16, the Shepherd University Foundation Supporting Organization has entered into a ground lease agreement and management agreement with the University as part of the student housing facilities project. Total expense incurred under these agreements amounted to \$0 and \$382,050 for the years ended June 30, 2020 and 2019, respectively. As part of the management agreement, the University acts as the Supporting Organization's exclusive agent for the operation, management and maintenance of the student housing facility project. As a result, the University collects payments from students and pays operating expenses associated with the student housing facility project on behalf of the Supporting Organization. Amounts due from the University related to the collection of student receivables and rental payments associated with the food market lease noted above amounted to \$881 and \$35,028, respectively. Amounts due to the University for reimbursement of operating expenses and payment of the ground lease fee noted above amounted to \$338,391 and \$417,332 respectively. The amount due to the University for the year ended June 30, 2020 included a reimbursement of \$294,016 for student housing refund credits issued as a result of Potomac Place closures caused by the COVID-19 pandemic.

NOTE 16 POTOMAC PLACE STUDENT HOUSING FACILITY PROJECT

Shepherd University Foundation Supporting Organization designed and constructed Potomac Place, a 298 bed student housing facility on the Shepherd University campus. As disclosed in Note 9, the Supporting Organization permanently financed the construction costs of Potomac Place with a 40-year permanent rural development loan from the United States Department of Agriculture. The Supporting Organization owns the building and associated equipment and furnishings and has entered into a ground lease with Shepherd University. The ground lease will expire upon the repayment of all associated outstanding debt borrowed by the Supporting Organization. Upon the expiration of the lease, the building and associated equipment and furnishings will be transferred to Shepherd University. The ground lease agreement requires annual rental payments due 30 days after the receipt of the Supporting Organization's audited financial statements.

NOTE 16 POTOMAC PLACE STUDENT HOUSING FACILITY PROJECT (CONTINUED)

Rental payments will equal the net available cash flow generated from the student housing facility project. Rent expense due to Shepherd University for the ground lease amounted to \$0 and \$382,050 for the years ended June 30, 2020 and 2019, respectively. Cumulative cash payments made to Shepherd University for ground lease rental payments since the residence hall became operational amounted to \$1,347,832 as of June 30, 2020.

The Supporting Organization has entered into a management agreement with Shepherd University. The management agreement appointed Shepherd University as the Supporting Organization's exclusive agent for the construction, operation, management and maintenance of the student housing facility project. No additional fees, outside of the ground lease payments, are payable to Shepherd University for these services.

The dorm room rental fee rates, number of students served per semester and total fees collected on student dorm room rentals are noted below for the years ending June 30, 2020 and 2019.

	2020	2019
Single Bed Rate - Term	\$ 4,479.00	\$ 4,361.00
Double Bed Rate - Term	\$ 3,317.00	\$ 3,252.00
Single Bed Rate - Daily	\$ 39.29	\$ 38.25

NOTE 18 LIQUIDITY AND AVAILABILITY OF RESOURCES

Financial assets available for general expenditure, that is, without donor or other restrictions limited their use, within one year of the consolidated statement of financial position date, are as follows:

	2020	2019
Cash and cash equivalents (undesignated)	\$ -	\$ 26,259
Accounts receivable	27,894	31,422
Due from Shepherd University	881	35,028
	<u>\$ 28,775</u>	<u>\$ 92,709</u>

NOTE 18 LIQUIDITY AND AVAILABILITY OF RESOURCES (CONTINUED)

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. The Foundation has various sources of liquidity at its disposal, including cash and cash equivalents, accounts receivable and amounts due from Shepherd University. Total cash of \$366,654 and \$213,813 at June 30, 2020 and 2019, respectively, is excluded due to the fact that it represents debt service and property replacement reserves requires to be maintained under the Foundation's USDA loan agreement. Also cash in the amounts of \$3,258,438 and \$2,644,662 at June 30, 2020 and 2019, respectively, is excluded due to it being restricted for custodial liabilities and donor-restricted funds held at the Foundation. Accounts receivable in the amounts of \$250 and \$0 at June 30, 2020 and 2019, respectively, are excluded due to it being restricted related to donor-restricted funds held at the Foundation. Accrued interest receivable in the amounts of \$32,152 and \$30,956 at June 30, 2020 and 2019, respectively and investments in the amounts of \$26,865,032 and \$25,857,543 at June 30, 2020 and 2019, respectively, are excluded due to the fact that these funds are the restricted portion of the donor-restricted funds held at the Foundation. The remaining \$100,744 and \$104,749 at June 30, 2020 and 2019, respectively, of investments excluded represents an investment in real estate that is not readily marketable.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Foundation considered all expenditures related to its ongoing activity of providing assistance and support to the students, facilities and programs of Shepherd University, and the Supporting Organization considered all expenditures related to its ongoing activity of operating the Potomac Place dormitory, as well as the types of services undertaken to support these activities, to be general expenditures.

In addition to the financial assets available to meet general expenditures over the next 12 months, the Foundation operated with a Board approved budget and anticipates collection sufficient revenue to cover general expenditures.

NOTE 19 DEFICIT OF UNDESIGNATED NET ASSETS WITHOUT DONOR RESTRICTION

The deficit in undesignated net assets without donor restrictions of the Foundation is primarily the result of cumulative unrealized and realized losses not being allocated as a reduction to net assets with donor restriction in fiscal years prior to 2018 as well as scholarship disbursements from funds in excess of the actual unrealized and realized investment earnings and operating expenses exceeding support and revenue without donor restriction. In addition, excess of expenses over revenues generated from the Potomac Place student facility project has contributed to the net assets without donor restriction deficit. In order to reduce the deficit and generate positive net assets without donor restriction, the Foundation will need to generate gains on their investments for consecutive years, reduce the level of annual fund disbursements, reduce operating expenses or generate revenues from another outside source. The balance of net assets without donor restriction deficit was \$(2,834,798) and \$(1,845,330) for the years ended June 30, 2020 and 2019, respectively. Of this deficit \$(1,110,725) and \$(423,205) related to Shepherd University Foundation Inc. for the years ended June 30, 2020 and 2019 respectively and \$(1,724,073) and \$(1,422,125) related to the Shepherd University Supporting Organization for the years ended June 30, 2020 and 2019, respectively.

NOTE 20 PAYCHECK PROTECTION PROGRAM LOAN

In April 2020, the Foundation received a Paycheck Protection Program loan in the amount of \$70,138 through the Small Business Administration. Under the terms of the agreement, if the Foundation meets certain requirements of the loan program during the 24-week period following the receipt of the funds, all or a portion of the loan amount will be forgiven. Any unforgiven balance will accrue interest at a rate of 1%, payments of principal and interest will be required beginning in November 2020 and all outstanding balances are to be repaid in full by April 2022. As of June 30, 2020, the Foundation had expended the full amount of funding on allowable expenses and had met other program requirements, resulting in the full amount of the loan being eligible to be forgiven upon the filing of the required application. As a result, the proceeds from the loan program have been recorded as a conditional contribution, of which the Foundation met the underlying conditions, for the year ended June 30, 2020. The contribution has been reported as part of other revenue without donor restrictions on the statement of activities.

NOTE 21 SUBSEQUENT EVENTS

The Foundation has evaluated events and transactions subsequent to June 30, 2020 through September 21, 2020, the date these financial statements were available to be issued. Based on the definitions and requirements of generally accepted accounting principles, management has not identified any events that require recognition or disclosure in the financial statements.

Notes to Required Supplementary Information

For the Years Ended June 30, 2020 and 2019

There are no factors that affect trends in the amounts reported, such as change of benefits terms or assumptions. Information, if necessary, can be obtained from the CPRB Comprehensive Annual Financial Report and the West Virginia Retiree Health Benefit Trust Fund Annual Financial Report.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Governors
Shepherd University
Shepherdstown, West Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Shepherd University (the University), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated October 15, 2020. Our report includes a reference to other auditors who audited the financial statements of Shepherd University Foundation, Inc., as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
