## West Virginia College Going Rate Highlights Fall 2014

Every year, the West Virginia Higher Education Policy Commission's Division of Policy and Planning compiles a listing of West Virginia's college going rates by county and high school. This report would not be possible without the gracious hard work and contributions from the colleges and universities, high schools, county superintendents, and the West Virginia Department of Education. Below are selected highlights from the report:

- Of the 18,414 students who graduated from public or private high schools in West Virginia during 2013-14, an estimated 10,059 **(54.6%) enrolled in higher education institutions** in the fall 2014 semester. This represents **a decrease of 1.3 percentage points in the overall rate** since last year and the lowest overall rate since 1999. Out-of-state colleges and universities as well as West Virginia independent and degree-granting proprietary institutions experienced increases, while the West Virginia public institution sector experienced a decrease.
- 8,519 of these West Virginia high school graduates enrolled in one of the state's public (40.8%), independent (4.3%), or degree-granting proprietary (1.1%) colleges or universities. This generated an **in-state college going rate of 46.3%**, which represents **a decrease of 1.9 percentage points over last year's figure**.
- In addition to the high school graduates who enrolled in a West Virginia college or university in fall 2014, it is estimated that another 1,540 **(8.4%) were attending a college or university in another state**. This reflects an increase of 0.7 of a percentage point over last year's figure.

\* Estimated enrollment in out-of-state institutions of higher education was not available for some or all high schools within the county.

NA=Not Available

*Private high schools are italicized.*

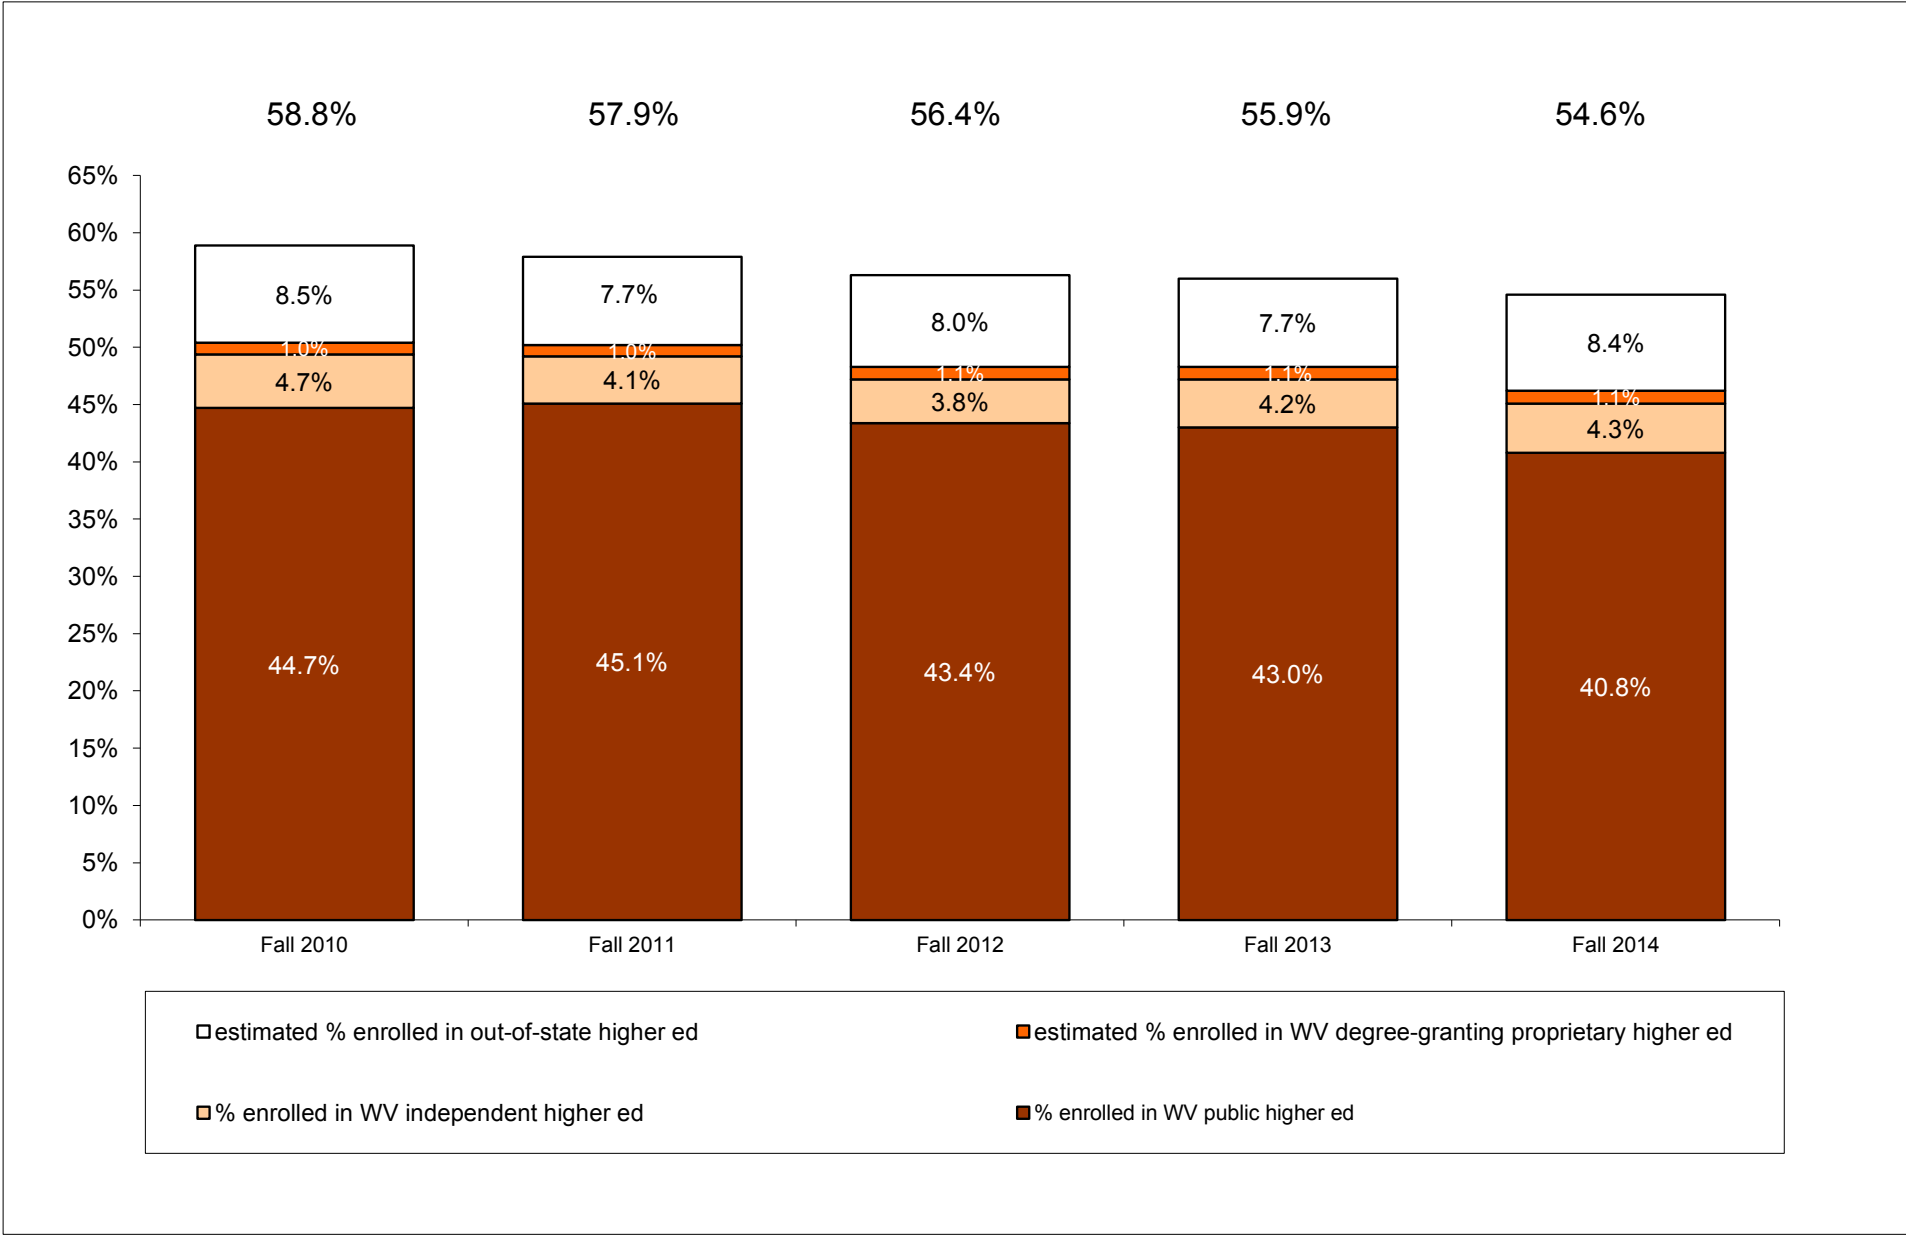

Note: Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all of the out-of-state higher education enrollment can be tracked; therefore, these figures will not exactly match nationally-published overall going rates for West Virginia.

Note: The 2009-10 WV public high school graduation rate per the WV Department of Education is 84%.

\*Rate equals the number of first-time freshmen who graduated from high school in the past year from "state X" enrolled anywhere in the U.S. divided by the number of public and private high school graduates.

Note: Rates for WV do not match rates elsewhere in this publication due to differences in collection criteria and sources of data used.
