## West Virginia College Going Rate Highlights Fall 2016

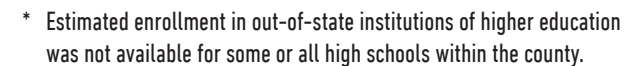

Every year, the West Virginia Higher Education Policy Commission's Division of Policy and Planning compiles a listing of West Virginia's college going rates by county and high school. This report would not be possible without the gracious hard work and contributions from the colleges and universities, high schools, county superintendents, and the West Virginia Department of Education. Below are selected highlights from the report:

- Of the 18,790 students who graduated from public or private high schools in West Virginia during 2015-16, an estimated 10,341 **(55.0%) enrolled in higher education institutions** in the fall 2016 semester. This represents **a slight increase of 0.3 percentage points in the overall rate** since last year and the second consecutive year the rate has risen since a downward slope started in 2010. West Virginia public four-year institutions as well as out-of-state institutions experienced an increase, while West Virginia public two-year, independent, and degree-granting proprietary institutions' rates saw slight decreases.
- 8,876 of these West Virginia high school graduates enrolled in one of the state's public (42.7%), independent (3.5%), or degree-granting proprietary (1.1%) colleges or universities. This generated an **in-state college going rate of 47.2%**, which represents **an increase of 0.2 percentage points** over last year's figure.
- In addition to the high school graduates who enrolled in a West Virginia college or university in fall 2016, it is estimated that another 1,465 **(7.8%) were attending a college or university in another state**. This reflects **an increase of 0.1 percentage points** over last year's figure.

## Estimated College-Going Rates of West Virginia High School Graduates by County

Note: Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all out-of-state higher education enrollment can be tracked, therefore, these figures will not exactly match nationally published overall college-going rates for West Virginia.

\* Estimated enrollment in out-of-state institutions of higher education was not available for some or all high schools within the county.

NA=Not Available

*Private high schools are italicized.*

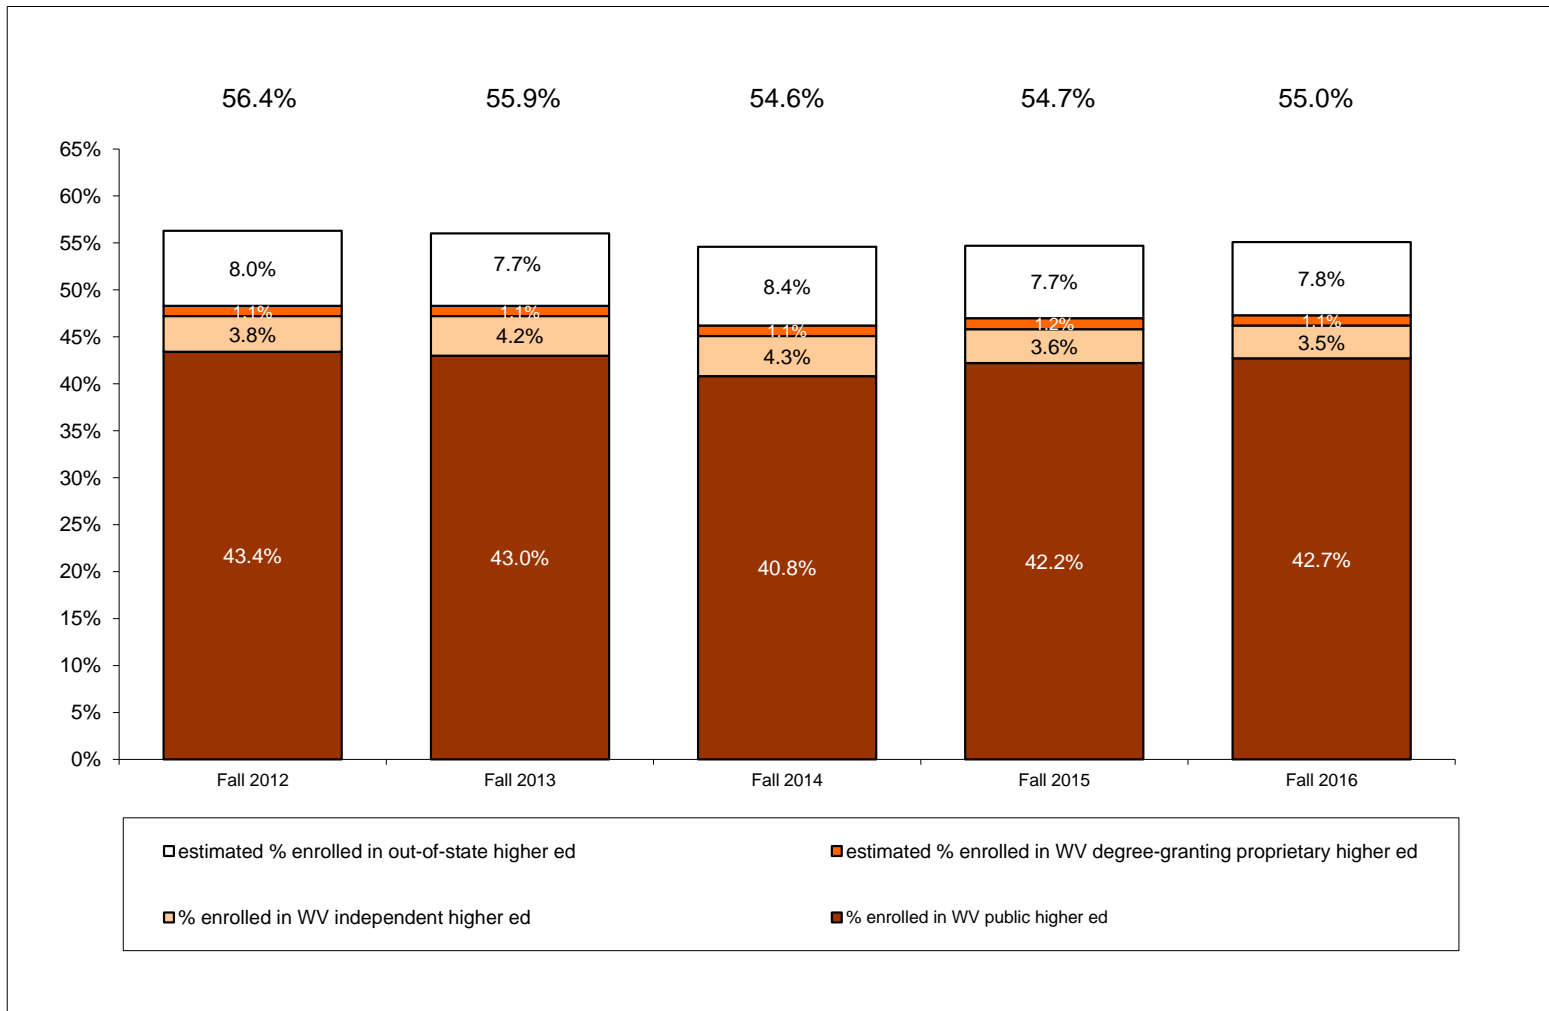

Note: Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all of the out-of-state higher education enrollment can be tracked; therefore, these figures will not exactly match nationally-published overall going rates for West Virginia.

Note: The WV public high school graduation rate per the WV Department of Education is 79% for 2011-12 and 90% for 2015-16.

\*Rate equals the number of first-time freshmen who graduated from high school in the past year from "state X" enrolled anywhere in the U.S. divided by the number of public and private high school graduates.

Note: Rates for WV do not match rates elsewhere in this publication due to differences in collection criteria and sources of data used.
