INDEPENDENT AUDITORS' REPORT

Board of Governors
Blue Ridge Community and Technical College
Martinsburg, West Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Blue Ridge Community and Technical College (the College) (a component unit of the State of West Virginia) , as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Blue Ridge Community and Technical College Foundation, Inc. (Foundation) as of and for the year ended June 30, 2019 which represents 100% of the assets, net assets and revenue of the component unit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Blue Ridge Community and Technical College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States for either of the years presented.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and discretely presented component unit of the College as of June 30, 2019 and 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the financial statements, Blue Ridge Community and Technical College implemented the provisions of Governmental Accounting Standards Board (GASB) Statements No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* for the year ended June 30, 2018, which represents a change in accounting principle. As of July 1, 2017, the College's net position was restated to reflect the impact of adoption. A summary of the restatement is presented in Note 18. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4-14, the Schedule of Proportionate Share of Net OPEB liability and Contributions on page 57, and the Schedule of Proportionate Share of Net Pension Liability and Contributions on page 58 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Governors
Blue Ridge Community and Technical College

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 1, 2019, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

The Blue Ridge Community and Technical College
Management Discussion and Analysis
Fiscal Year 2019

About Blue Ridge Community and Technical College

Blue Ridge Community and Technical College (the “College”) is a State-supported institution within the West Virginia System of Higher Education Policy. The College is under the authority of the West Virginia Council for Community and Technical College Education (the “Council”).

The College offers associate degrees, workforce development programs, and collaborative programs in the government, business and industry sectors. The College achieved separate accreditation during fiscal year 2005, and became a completely separate entity for financial reporting purposes on July 1, 2006.

Overview of the Financial Statements and Financial Analysis

The discussion and analysis of the College’s financial statements provides an overview of its financial activities for the three years ended June 30, 2019, with a focus on 2019, and is required supplemental information.

The College’s annual report consists of three financial statements presented: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. These statements provide insight on the financial condition of the College, including operations and cash flow.

Statement of Net Position

The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of the College as of the end of the fiscal year. The Statement of Net Position is a point-of-time financial statement. The Statement of Net Position presents end-of-year data concerning assets (current and noncurrent), liabilities (current and noncurrent), deferred inflows and outflows of resources, and net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources). From the data presented, readers of the Statement of Net Position are able to determine the assets available to continue the operations of the College. They are also able to determine how much the College owes vendors, employees, lenders and others. Finally, the Statement of Net Position provides a snapshot of the net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) and their availability for expenditure by the College.

Net position is divided into three major categories. The first category, net investment in capital assets, provides equity in property, plant, and equipment owned by the College, net of any debt related to the acquisition of the capital assets. The second category is restricted net position, which is divided into two categories, nonexpendable and expendable. The College does not currently have nonexpendable restricted assets. Expendable restricted net position resources are available for expenditure by the College but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The third category is unrestricted net position. Unrestricted net position is available to the College for any lawful purpose of the College.

Condensed Schedules of Net Position
As of June 30, 2019, 2018 and 2017
(In thousands of dollars)

	2019	2018	2017 *
Assets			
Cash	\$ 13,156	\$ 13,512	\$ 12,181
Other Current Assets	1,515	1,031	763
Other Noncurrent Assets	27	27	27
Capital Assets	18,111	17,900	17,737

Total Net Position	\$ 24,055	\$ 23,341	\$ 23,409

* The 2017 column does not include the effects of GASB 75.

Total assets of the College increased by \$339,000, 1.04%, to a total of approximately \$32.8 million as of June 30 2019. While cash decreased by \$356,000, or 2.64%, the increase in total assets was largely due to increases in capital assets and other current assets. The liquidity position of the College remains strong as cash exceeds total current and noncurrent liabilities. The College's quick ratio (cash to current liabilities) is 2.14, 2.11 and 2.22 as of June 30, 2019, 2018 and 2017, respectively. The working capital (current assets to current liabilities) is 2.39, 2.27 and 2.36 as of June 30, 2019, 2018 and 2017, respectively.

Other items of interest related to assets are as follows:

- Approximately 40% of the assets as of June 30, 2019 were held in cash and cash equivalents, compared to 42% and 40% in cash and cash equivalents as of June 30, 2018 and 2017, respectively. The stable trend in cash and cash equivalents is primarily attributable to continued state and local grant award receipts with emphasis on workforce development training and accumulation of capital fees to optimize facilities.
- Other current assets include due from the Primary Government and Council/Commission; net accounts receivable, which is a combination of student accounts receivable, grants receivable, unbilled charges and other receivable; and prepaid expenses.

- Appropriations due from the Primary Government include a one-time unexpended balance reappropriated to the College for expenditure during fiscal year 2020 in the amount of \$500,000.
- The amount in Due from the Council/Commission as of June 30, 2019 represents \$158,407 related to grants and \$25,140 in interest receivable from interagency funds.
- The net student accounts receivable is \$69,902, \$65,050 and \$67,419 at June 30, 2019, 2018 and 2017, respectively. The bad debt reserve is \$647,366, \$983,521 and \$1,137,982 as of June 30, 2019, 2018 and 2017, respectively. In 2017, the College assessed the collectability trend of accounts that remained outstanding from a third party agency to determine the need to write off accounts deemed uncollectable in prior years, totaling \$638,225. In 2018 and 2019, the College assessed old accounts deemed uncollectible and wrote off \$304,172 and \$518,952, respectively. The decrease in the allowance over the past three years is a combination of the bad debt write off and the continued efforts made to collect outstanding balances.
- Grants and contracts receivable consists of \$111,926, \$127,494 and \$214,377 at June 30, 2019, 2018 and 2017, respectively. The current year balance primarily represents various amounts due to the College from third party agencies for financial aid disbursed to students for tuition, fees, and textbooks.
- Unbilled charges were \$52,431, \$42,716 and \$7,326 at June 30, 2019, 2018 and 2017, respectively. These balances represent amounts due to the College as a result of federal grant activities which have not been billed. It also includes amounts not drawn for the federal direct loan program.
- Other receivables were \$477,537, \$609,822 and \$186,804 at June 30, 2019, 2018 and 2017, respectively. These balances represent amounts due to the College as a result of private grant matches, catering contracts, and workforce development contracted training. The decrease for 2019 is due to a project ending with workforce development training, specifically with one vendor.
- Prepaid expenses of \$116,635, \$53,376 and \$186,870 at June 30, 2019, 2018 and 2017, respectively, include expenditures that span a minimum period of six months. The current balance mostly represents expenditures for software licensing and membership fees.
- Noncurrent assets are other receivable and capital assets.
 - Other receivable in the amount of \$27,083 is due from employees that were converted from a non-arrears pay cycle to an arrears pay cycle. Nine employees received a “no hardship payment” on 9/30/14 equal to their then-current gross wages, which will be collected from the employee when he or she separates from the College.
 - Construction in Process (CIP) balances at June 30, 2019, 2018 and 2017 were \$459,733, \$4,537 and \$50,000, respectively. The current CIP balance of \$459,733 is largely related to costs for expansion of the Tech Center. Other fiscal 2019 CIP additions include classroom construction at the Morgan County facility and emergency generator addition at the headquarters building. The CIP Balance during 2018 of \$4,537 was for costs accrued for the expansion of the Pines Opportunity Center in Morgan County, WV. The CIP balance during 2017 of \$50,000 was for costs accrued for the expansion of the Pines Opportunity Center in Morgan County, WV.
 - Fixed asset additions, inclusive of CIP transfers, total \$680,387 for fiscal year 2019. The majority of the additions, or 80%, were grant funded. Student fees provided for 7% of the additions, mainly in information technology. Capital fees provided for the remaining additions of 13%.

Items of interest related to liabilities are as follows:

- Current liabilities of \$6,142,454, \$6,411,526 and \$5,484,890 at June 30, 2019, 2018 and 2017, respectively, decreased by \$269,072 in fiscal year 2019, and increased \$926,636 in fiscal year 2018 and \$756,773 in fiscal year 2017.
 - Non-capital asset accounts payable of \$379,487, \$312,202 and \$261,912 at June 30, 2019, 2018 and 2017, respectively, represent typical operating expenses such as bookstore, contractual charges, supplies and utilities.
 - Accrued payroll of \$674,908, \$642,975 and \$543,486 at June 30, 2019, 2018 and 2017, respectively, increased each year. Annual years of service increase of \$60 for each year served is provided by the State. This, combined with an across the board cost of living increase, faculty promotions, and additional staffing, can be attributed to the slight payroll increase for 2019.
 - Due to Council/Commission and State agencies amounts reported of \$20,673, \$21,903 and \$32,723 at June 30, 2019, 2018 and 2017, respectively, represent a combination of amounts due for services the state provides the College and for West Virginia financial aid grants. The 2019 balance includes unused grant funds of \$16,552 from HEAPS and \$1,360 from WVDHHR that are returned to the state. The 2018 balance includes unused grant funds of \$16,081 from HEAPS and \$2,678 from WVDHHR that are returned to the state. The 2017 balance included unused grant funds of \$22,716 from HEAPS and \$7,897 from WVDHHR that are returned to the state.
 - Accrued annual leave, or compensated absences, total \$696,965, \$604,343 and \$542,356 at June 30, 2019, 2018 and 2017, respectively.
 - Unearned revenues were \$4,336,452, \$4,686,260 and \$4,036,575 at June 30, 2019, 2018 and 2017, respectively. The balance is largely driven by grants awarded to the College by the Council. The College applies for these grants on behalf of local businesses for workforce training and for creating and sustaining technical programs. Grant awards vary from year to year depending on market demand and the college's desire to create new programs. During FY19, the college received new state grants totaling \$3,024,785 and expended \$3,204,784 in total state grants. This resulted in a net decrease in unearned state grant revenue of \$179,999. The summer school component of unearned revenue for FY19 is \$229,757, which is approximately 45% of the total summer term revenue. The deferral calculation is driven by the dates of the three parts of the summer term.
- Noncurrent Liabilities include:
 - Other post-employment benefits (OPEB) accrued at June 30, 2019, 2018 and 2017 total \$2,365,887, \$2,487,633 and \$1,723,457, respectively. The liability is a product of the number of employees enrolled in the health insurance program and the PEIA actuarially determined amount per person. The College implemented GASB Statement 75 during fiscal 2018.
 - The net pension liability at June 30, 2019 totaled \$69,158 and has decreased from the 2018 balance by \$13,796. The net pension liability at June 30, 2018 totaled \$82,954 and has decreased from the 2017 balance by \$24,741. The net pension liability at June 30, 2017 totaled \$107,695. The liability is reliant on the number of employees continuing on the West Virginia Teachers' Retirement System (TRS) which was closed to new participants effective July 1, 1991. TRS is a cost-sharing, defined benefit, public employee retirement system with contribution rates established annually by the West Virginia State Legislature.

Statement of Revenues, Expenses, and Changes in Net Position

Changes in total net position as presented on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Position. The purpose of this statement is to present the revenues received by the College, both operating and non-operating, and the expenses paid by the College, operating and non-operating, and any other revenues, expenses, gains, and losses received or expended by the College.

In general, operating revenues are received for goods and services rendered to customers and constituencies of the College. Operating expenses are those expenses paid to acquire or produce the goods and services provided resulting in operating revenues, and to accomplish the mission of the College. Revenues received for which goods and services are not provided are reported as non-operating revenues. For example, state appropriations are provided by the legislature to the College without the legislature directly receiving commensurate goods and services for those revenues and are, therefore reported as non-operating revenues.

Condensed Schedules of
Revenues, Expenses, and Changes in Net Position
For the Years Ended June 30, 2019, 2018 and 2017
(In thousands of dollars)

	2019	2018	2017 *
Operating Revenues	\$ 10,994	\$ 11,852	\$ 9,976
Operating Expenses	19,539	19,637	18,630
Operating Loss	(8,545)	(7,785)	(8,654)
Nonoperating Revenues - Net	9,242	8,725	9,036
Increase in Net Position	697	940	382
Capital Payments Made/ Expenses			
Incurred on Behalf of College	17	-	48
Increase in Net Position	714	940	430
Net Position - Beginning of Year	23,341	23,409	22,979

Net Position - Beginning of Year restated	23,341	22,401	22,979
Net Position - End of Year	\$ 24,055	\$ 23,341	\$ 23,409

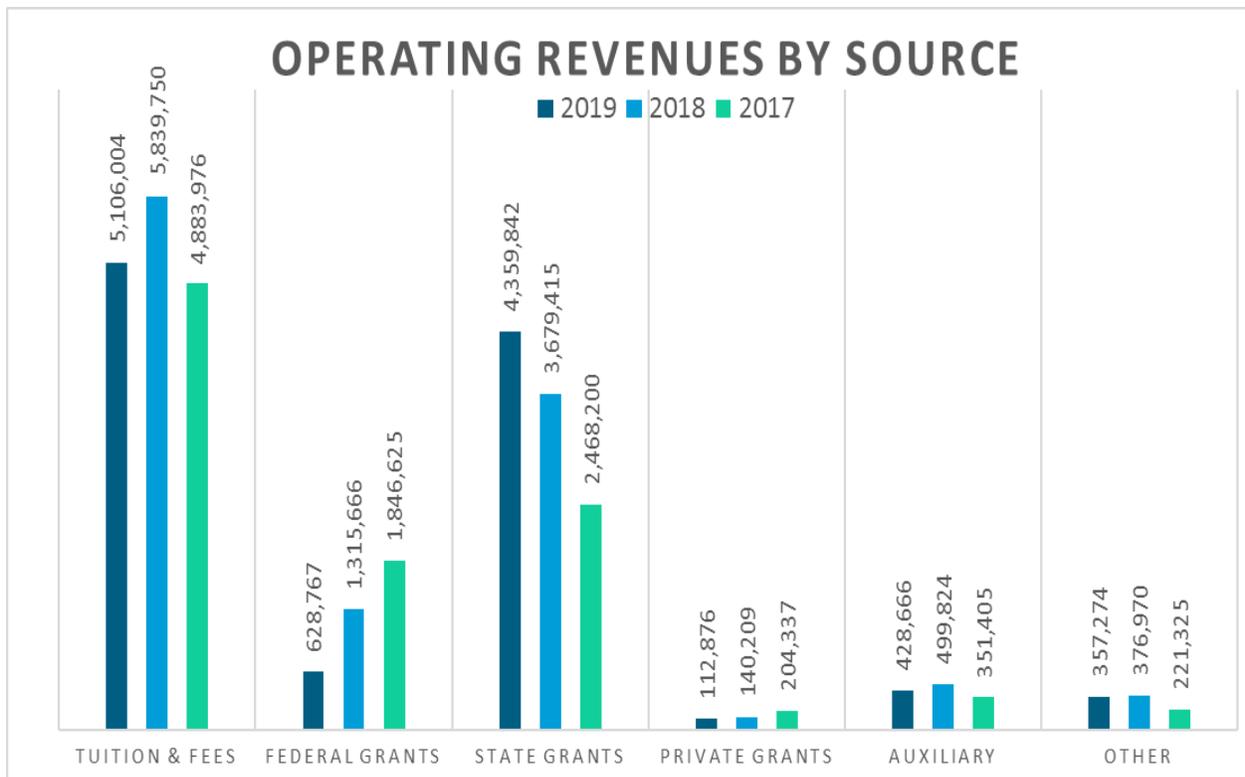

* The 2017 column does not include the effects of GASB 75.

Operating Revenues

Nearly half, 46.5%, of the operating revenue for the College is derived from tuition and fee assessments. Federal grants provide funding for varying degrees of technical education support as well as grant funds for students. State grants provide funding for new technical program activities, workforce development, and sustainability funds for high-cost programs. The following is an overview of revenues and their sources:

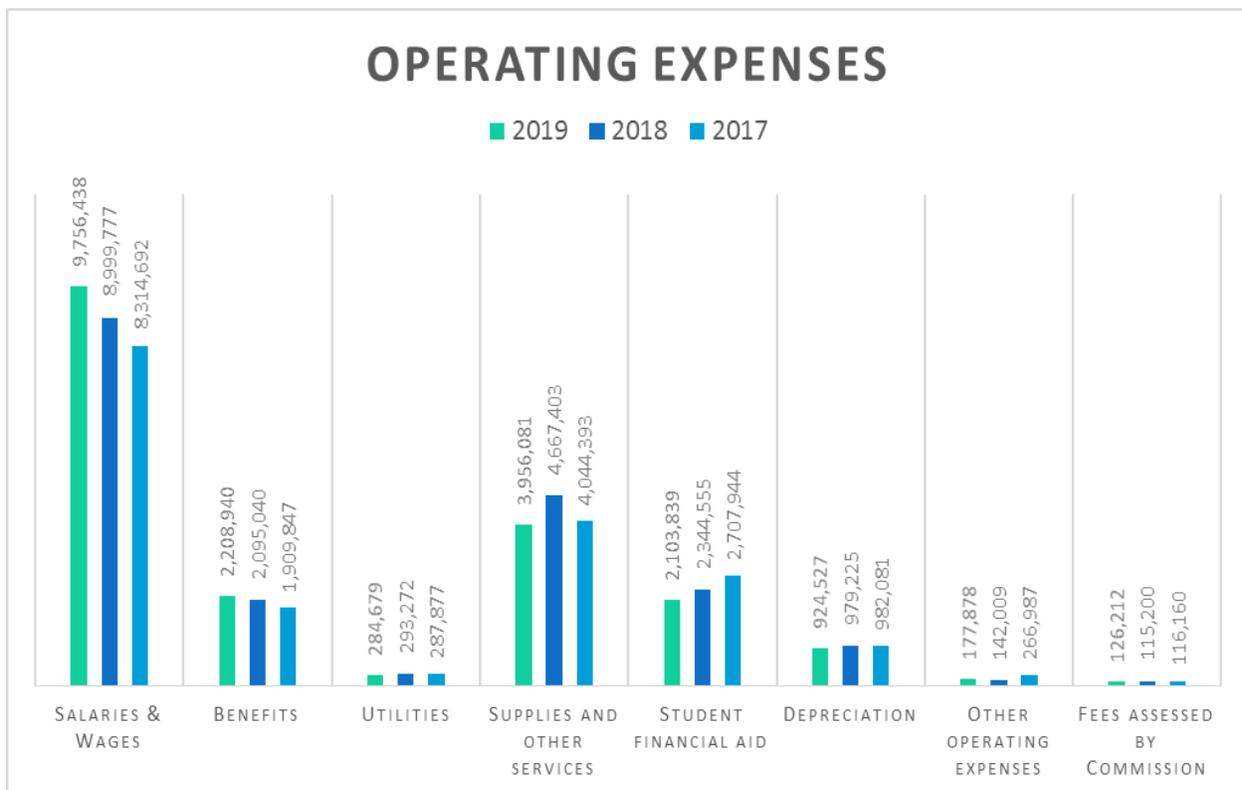

- Student tuition and fees – net of scholarship allowance decreased 12.6% from 2018 and increased 4.6% from 2017. This revenue category can be segregated by two types of tuition and fee revenues – academic and workforce development. The academic revenues decreased by \$25,384 or .68%, from 2018. The academic revenues decreased by \$109,814, or 2.9%, from 2017. The fiscal year 2019 tuition rate increased by 2.38%. The fiscal year 2018 tuition rate increased by 4.35%. Workforce development revenue, which is generated by Career Advancement courses and contracted training with local employers, decreased by \$708,362 from 2018 and increased by \$331,843 from 2017. Fiscal 2018 marked elevated contracted training, specific to a new employer in the Eastern Panhandle, but ended toward the end of the fiscal year. As such, the decrease in FY19 is attributed to the conclusion of this relationship.
- Revenues from federal sources – totaling \$628,767 consists of 20% Department of Labor project, *Heroes for Hire* funds, 46% Carl D. Perkins Act funds, 22% student financial aid grants, 10% Department of Health and Human Resources, and 2% Department of Agriculture.
- State grants – WV student financial aid grants make up approximately 26%, or \$1,155,058 of total revenues reported as State Contracts and Grants. WV Advance, Technical Program, and HB3009 grants make up the remaining 74%, or \$3,204,784.

Operating revenues are down 7.24%, primarily due to federal grants and contracted training. Blue Ridge CTC's FY19 Fall FTEs increased from the FY18 Fall end of term FTEs by 291 full time equivalent students. The FTEs for FY19 and FY18 Fall semesters were 2,207 and 1,916, respectively. Revenue decreased in large part due to a significant loss in contracted training.

Operating Expenses

Operating expenses decreased by .5% from 2018 to 2019. The decrease in operating expense is represented by a decrease of \$711,322 or 15% in supplies and other services. Salaries and benefits increased by \$870,561 or nearly 8%. Expenses related to student financial aid decreased by \$240,716 or 10%, and has now decreased in five consecutive years. Student scholarships account for 11%, 12% and 15% of the operating expenses in fiscal years 2019, 2018 and 2017, respectively. Over half, 61.24%, of the fiscal year 2019 operating expenses were incurred for personnel services and benefits. Supplies and other services represent 20.25% of fiscal 2019 operating expenses. Utilities experienced a slight decrease of \$8,593 or 2.93% from year-to-year. Rental expense increased in 2019 by \$80,343 or 21.87%. Other operating expense represents the estimated bad debt expense that is accrued annually and additional amounts from student account balances that were written off during the year. The 2019 accrual decreased the allowance for doubtful accounts balance by approximately 34.18%. The decrease is a result of bad debt write off of \$518,952 and analysis of current receivables collectability. This calculation is an analysis of the financial aid that the College returns to the Department of Education when the College determines that the student is no longer entitled to the funds. The return of aid results in a receivable balance on the student's account. Fees assessed by the Commission are funds remitted to Higher Education Policy Commission (HEPC) for the Higher Education Resource Assessment (HERA). This fee is a percentage of the previous year's tuition and fee revenues.

Non-Operating Revenue (Expense)

The net non-operating revenues in fiscal year 2019 increased by \$516,392 from fiscal year 2018, largely due to an increase in the State Appropriations of \$718,737.

Revenue through Federal Pell Grant decreased by \$314,172 from 2018. Investment income increased by \$111,210 from 2018. Fees assessed by the Commission increased by \$44 from 2018, and loss on disposals decreased by \$661 from 2018, bringing the net non-operating revenues to \$9,241,345 in fiscal year 2019. The non-operating Commission fees are remitted to HEPC for a capital assessment.

Capital Payments Made on Behalf of College

Capital payments have been made on behalf of the College in all but two years since 2009, where the funds originated from bonds issued by the HEPC. A total of \$13,500,000 was available from this source for the construction and furnishing of the College's headquarters facility. Payments from the 2009 bonds amounted to \$0 in 2019, \$51 in 2018 and \$332 in 2017. All payments from this bond issue have been in conjunction with the acquisition of a permanent main campus. Total payments to date made on behalf of the College from the 2009 Bond issue equal \$13,096,315. The 2009 Bonds were refunded in FY2018 so no further payments on this issue will be made. In 2019, capital payments made on behalf totaled \$17,178 originating from the Series 2017 CTC Refinance bonds issued by the HEPC. These payments are related to an emergency generator at the headquarters facility.

The College did not receive donations for fiscal year 2019 or 2018. Donations to support technical academic programs were received in fiscal year 2017, totaling \$48,000.

Statement of Cash Flows

The Statement of Cash Flows presents detailed information about the cash activities of the College during the year. The statement is divided into five parts. The first part deals with operating cash flows and shows the net cash used by the operating activities of the College. The second section reflects cash flows from non-capital financing activities. This section reflects the cash received and spent for non-operating, non-investing, and non-capital financing purposes. The third section deals with cash flows from capital related financing activities. This section deals with cash used for the acquisition and construction of capital assets and related items, and related funding received. The fourth section reflects the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fifth section reconciles the net cash provided by (used in) operating activities to the operating income (loss) reflected in the Statement of Revenues, Expenses, and Changes in Net Position.

Condensed Schedules of Cash Flows
For the Years Ended June 30, 2019, 2018 and 2017
(In thousands of dollars)

	2019	2018	2017
Cash Provided by (Used in):			
Operating Activities	\$ (7,869)	\$ (6,329)	\$ (6,731)
Noncapital Financing Activities	8,475	8,570	8,975
Capital and Related Financing Activities	(1,230)	(1,067)	(310)
Investing Activities	268	157	81
Increase (Decrease) in Cash and Cash Equivalents	(356)	1,331	2,015
Cash and Cash Equivalents - Beginning of Year	13,512	12,181	10,166
Cash and Cash Equivalents - End of Year	<u>\$ 13,156</u>	<u>\$ 13,512</u>	<u>\$ 12,181</u>

Cash used in 2019 operating activities was greater than 2018 and 2017 by \$1,540,000 and \$1,138,000, respectively. Cash inflows decreased by approximately \$1,337,646 and cash outflows in the form of payments to suppliers, utilities and employees increased by \$431,833. Payments for scholarships and fellowships decreased by \$240,716. This decrease was driven by the Pell expense decrease of \$314,172. Cash expenditures for the purchase of capital assets was greater in 2019 due to acquiring more assets and payments for capital assets not yet complete as of June 30, 2019.

Cash used in 2018 operating activities was less than 2017 by \$402,000. Cash inflows increased by approximately \$1,240,762 and cash outflows in the form of payments to suppliers, utilities and employees increased by \$1,202,643. Payments for scholarships and fellowships decreased by \$363,389. This decrease was driven by the Pell expense decrease of \$404,504. Cash expenditures for the purchase of capital assets increased in 2018 mostly due to equipment purchases that were grant funded.

Capital Asset Activity

2019:

CIP projects that were converted to capitalized assets during 2019 include leasehold improvements for the Pines Opportunity Center in Morgan County, West Virginia and building improvements for the Technology Center's culinary patio totaling \$13,196. Fixed asset equipment additions during fiscal year 2019 totaling \$667,191 were added at the Technology Center, Pines Opportunity Center and Headquarters campus. These fixed assets are primarily for classroom, academic lab use, administrative technology infrastructure, and security. Computer equipment totaling \$62,584 was purchased to support administrative technology equipment. Research and education equipment totaling \$482,582 was used to support Mechatronics and the Unmanned Aerial Systems (UAS) or "drone" program and labs. Computer equipment to support the Netlabs and Statewide CCNA Program initiative and the Cyber Security program totaling \$55,947 was funded by state grants. Office equipment totaling \$6,200 was purchased to furnish administrative offices. In addition, two new vehicles totaling \$59,878 were purchased for the security teams at the Technology Center and Headquarters campus. The majority, 80%, of the additions were grant-funded. No payments for land improvements occurred this year. The remaining balance in CIP at year-end of \$459,733 is for construction at the Technology Center related to the Plastics and CNC Fabrication labs and engineering services to place an emergency generator at the Headquarters campus.

2018:

CIP projects that were converted to capitalized assets during 2018 include leasehold improvements for the Pines Opportunity Center in Morgan County, West Virginia and building improvements for the greenhouse at the Headquarters campus totaling \$142,302. Significant fixed asset equipment additions during fiscal year 2018 totaling \$1,045,921 were added at the Technology Center and Headquarters campus. These fixed assets are primarily for classroom, academic lab use, and administrative technology infrastructure. Computer equipment totaling \$77,454 was purchased to support administrative technology equipment. Research and education equipment totaling \$952,695 was used to support Mechatronics, Nursing, and Culinary programming and labs. The majority, 88%, of the additions were grant-funded. Computer equipment to support the Mechatronics lab, \$10,616, was funded by state grants. The remaining fixed asset additions were other capital equipment totaling \$5,157 purchased to support the culinary service at the Headquarters campus and land improvements totaling \$51. The remaining balance in CIP at year end of \$4,537 is for construction at the Pines Opportunity Center in Morgan County, West Virginia.

Economic Outlook

Blue Ridge Community and Technical College enters FY20 with a strong financial foundation, a well-maintained headquarter's facility, and suitable leased space for current and developing academic programming for future growth. Planned capital and technology projects continue to emphasize both physical and technological infrastructure to meet projects for FY20 and short-term initiatives. Moreover, a greater than 53 percent increase in state allocation has the college positioned for growth of programs and related services.

Overall, state economic factors and the heavy dependence upon state appropriation remain a focus for sustainability. The unpredictable nature of the state's revenue collection challenges long-term planning given the dependence upon state funding as a major source of income. Despite the increase in state allocation, the college realizes the need to continue to focus on efficiency and effectiveness as new programs and services are introduced.

The current fiscal year marked the conclusion of grant reporting activities for the Department of Labor's *Heroes for Hire* federal grant. The college will employ a combination of state appropriation and state grant awards to sustain the services and academic programming developed with the recent Department of Labor grant award. Sustainability has been made possible through a \$2,731,596 increase to the state appropriation. Additionally, the college received a one-time \$500,000 appropriation surplus for FY19. This special appropriation will be utilized to fund institution-wide technology, facility, training, and strategic plan development initiatives.

Continuing with recent activities, significant undertakings were sustained through FY19 with the Procter and Gamble (P&G) leadership team and the West Virginia Community and Technical College System's financial support for innovative, technical-focused academic programs. This relationship has been integral for continual program development, training efforts, and economic development for the past three fiscal years.

In the third year of the federally-imposed Heightened Cash Monitoring 1 (HCM1) sanction issued by the Department of Education to all 19 public colleges and universities in the state, the college successfully maintained its cash balance and effectively processed financial aid. With the current strength of its cash position, the college does not anticipate any financial obstacles to meeting the HCM1 requirements for the upcoming academic year.

The college continued developing academic programming to support workforce needs by adding seven certificate programs to include Software Development, Digital Media, Welding, Addictive Disorders, Applied UAS Technologies, Environmental Science and Small Business Administration. Additionally, seven associate programs were created, to include Early Childhood Specialist, Catering and Hospitality Management, Plastics Engineering Technology, Applied UAS Technologies, Environmental Science Technology, Engineering Technology, Heavy Equipment Technician, and Database Management. The college continues to expand and upgrade space at both off-site locations, the Technology Center and Pines Opportunity Center, to provide space for the newly developed academic programs.

The number of high school students enrolled in the college's dual-enrollment programs, providing career and degree pathways for high school students at a discounted tuition rate, maintained steady with 421 unduplicated headcount for the 2019 academic year. Other positive measures illustrate efforts made to strengthen the organization, including 6.9 percent decrease for the three-year default rate. The draft 2016 default rate has decreased over the 2014 rate from 27.4% to 20.5%

With a strong financial foundation, and a renewed mission, vision, and values, the college embarks upon strategic initiatives and a renewed focus of stewardship for the community that it serves. With recent state support, continued business growth and development in the Eastern Panhandle of West Virginia, and new academic programming, we are confident for the upcoming academic year.

BLUE RIDGE COMMUNITY AND TECHNICAL COLLEGE

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

1. ORGANIZATION

Blue Ridge Community and Technical College (the “College”) is governed by Blue Ridge Technical College Board of Governors (the “Board”). The Board was established by Senate Bill 448 (“S.B. 448”).

Powers and duties of the Board include, but are not limited to, the power to determine, control, supervise, and manage the financial, business, and educational policies and affairs of the College under its jurisdiction, the duty to develop a master plan for the College, the power to prescribe the specific functions and College’s budget request, the duty to review, at least every five years, all academic programs offered at the College, and the power to fix tuition and other fees for the different classes or categories of students enrolled at the College.

S.B. 448 also gives the West Virginia Council for Community and Technical College Education (the “Council”) the responsibility of developing, overseeing, and advancing the State of West Virginia’s (the “State”) public policy agenda as it relates to community and technical college education.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the College have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by Governmental Accounting Standards Board standards (GASB). The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the College’s assets, liabilities, deferred inflows and outflows of resources, net position, revenues, expenses, changes in net position, and cash flows and replaces the fund-group perspective previously required.

Reporting Entity — The College is a component unit of the State of West Virginia and an operating unit of the West Virginia Higher Education Fund and represents separate funds of the State that are not included in the State’s general fund. The College is a separate entity that, along with all State institutions of higher education, the Council, the West Virginia Higher Education Policy Commission (the “Commission”), which includes West Virginia Network for Educational Telecomputing (WVNET), form the Higher Education Fund of the State. The Higher Education Fund is considered a component unit of the State, and its financial statements are discretely presented in the State’s comprehensive annual financial report.

The accompanying financial statements present all funds under the authority of the College. The basic criterion for inclusion in the accompanying financial statements is the exercise of oversight responsibility derived from the College’s ability to significantly influence operations and accountability for fiscal matters of related entities.

The accompanying financial statements include the discretely presented Blue Ridge Community and Technical College Foundation because, based on the criteria provided by GASB Statements No. 39 and 61, the economic resources received or held by the related Foundation to which the College, or its component units, is entitled or has the ability to otherwise access, is significant to the College.

The audited financial statements of Blue Ridge Community and Technical College Foundation, Inc. (the “Foundation”) are discretely presented here with the College’s financial statements for the fiscal years ended June 30, 2019 and 2018. No modifications have been made to the Foundation’s audited financial information as it is presented herein (see also Note 19).

Financial Statement Presentation — GASB establishes standards for external financial reporting for public colleges and universities and requires that financial statements be presented on a combined basis to focus on the College as a whole. Net Position is defined as an organization’s worth after all debts and liabilities have been deducted from its gross assets. Net position is classified into three categories according to external restrictions or availability of assets for satisfaction of College obligations. The College’s net position is classified as follows:

Investment in Capital Assets — This represents the College’s total investment in capital assets, net of accumulated depreciation and outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted Net Position — This category is comprised of two components, *Expendable* and *Nonexpendable*.

Expendable — This includes resources for which the College is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

The West Virginia State Legislature, as a regulatory body outside the reporting entity, has restricted the use of certain funds by Article 10, *Fees, and Other Money Collected at State Institutions of Higher Education*, of the West Virginia State Code. House Bill No. 101 passed in March 2004, simplified the tuition and fee restrictions to auxiliaries and capital items. These activities are fundamental to the normal ongoing operations of the College. These restrictions are subject to change by future actions of the West Virginia State Legislature.

Nonexpendable — This includes endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principle. The College does not have any restricted nonexpendable net position at June 30, 2019 and 2018.

Unrestricted Net Position— Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services of educational activities. These resources are used for transactions relating to the educational and general operations of the College, and may be used at the discretion of the Board to meet current expenses for any purpose.

Basis of Accounting — For financial reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the College’s financial statements have been prepared on the accrual basis of accounting with a flow of economic resources measurement focus. Revenues are reported when earned and expenses when materials or services are received.

Cash and Cash Equivalents — For purposes of the statements of net position and cash flows, the College considers all highly liquid investments with an original maturity of three months or less at the time of purchase to be cash.

Appropriations Due from Primary Government — For financial reporting purposes, appropriations due from the State are presented separate from cash and cash equivalents, as amounts are not specific deposits with the State Treasurer but are obligations of the State.

Allowance for Doubtful Accounts — It is the College's policy to provide for future losses on uncollectible accounts, contracts, and grants receivable based on an evaluation of the underlying account, contract, and grant balances, the historical collectability experienced by the College on such balances and such other factors which, in the College's judgment, require consideration in estimating doubtful accounts.

Noncurrent Due From Primary Government — An appropriation due from primary government, that is (1) externally restricted to make debt service payments, long-term loans to students, or to maintain sinking or reserve funds, (2) to purchase capital or other noncurrent assets, or (3) held for permanently restricted net position, is classified as a noncurrent asset in the statements of net position.

Capital Assets — Capital assets include land, land improvements, buildings and leasehold improvements, and equipment. Capital assets are stated at cost at the date of acquisition or construction, or acquisition value at the date of donation in the case of gifts. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 20 years for library books, 50 years for buildings and 3–10 years for furniture and equipment. Leasehold improvements are amortized over the period of the lease. The College uses a capitalization threshold of \$5,000 for capital assets.

Unearned Revenue — Revenues for programs or activities to be conducted primarily in the next fiscal year are classified as unearned revenue. Financial aid and other deposits are separately classified as deposits.

Compensated Absences and Other Postemployment Benefits (OPEB)— GASB provides standards for the measurement, recognition, and display of other postemployment benefit (OPEB) expenditures, assets, and liabilities, including applicable note disclosures and required supplementary information. During fiscal year 2006, House Bill No. 4654 was established to create a trust fund for postemployment benefits for the State. Effective July 1, 2007, the College was required to participate in this multiple employer cost-sharing plan, the West Virginia Retiree Health Benefit Trust Fund, sponsored by the State of WV. Details regarding this plan and its stand-alone financial statements can be obtained by contacting the West Virginia Public Employees Insurance Agency (PEIA), State Capitol Complex, Building 5, Room 1001, 1900 Kanawha Boulevard East, Charleston, WV 25305–0710, or <http://www.wvpeia.com>.

GASB requires entities to accrue for employees' rights to receive compensation for vacation leave, or payments in lieu of accrued vacation or sick leave, as such benefits are earned, and payment becomes probable. The College's full-time employees earn up to two vacation leave days for each month of service and are entitled to compensation for accumulated, unpaid vacation leave upon termination. Full-time employees also earn 1 1/2 sick leave days for each month of service and are entitled to extend their health or life insurance coverage upon retirement in lieu of accumulated, unpaid sick leave. Generally, two days of accrued sick leave extend health insurance for one month of single coverage and three days extend health insurance for one month of family coverage. For

employees hired after 1988 or who were hired before 1988 but did not choose such coverage until after 1988 but before July 1, 2001, the employee shares in the cost of the extended benefit coverage to the extent of 50% of the premium required for the extended coverage. Employees hired July 1, 2001, or later, no longer receive sick leave credit toward insurance premiums when they retire. Additionally, all retirees have the option to purchase continued coverage regardless of their eligibility for premium credits. This liability is now provided for under the multiple employer cost-sharing plan approved by the State.

Certain faculty employees (generally those with less than a 12-month contract) earn a similar extended health or life insurance coverage retirement benefit based on years of service. Generally 3 1/3 years of teaching service extend health insurance for one year of single coverage and five years extend health insurance for one year of family coverage. Employees hired after July 1, 2010 receive no health insurance premium subsidy from the College. Two groups of employees hired after July 1, 2010 will not be required to pay the unsubsidized rate: 1) active employees who were originally hired before July 1, 2010, who have a break in service of fewer than two years after July 1, 2010; and 2) retired employees who retired before July 1, 2010, return to active service after July 1, 2010, and then go back into retirement. In those cases, the original hire date will apply.

The estimated expense incurred for vacation leave or OPEB benefits is recorded as a component of benefits expense on the statements of revenues, expenses, and changes in net position.

Net Pension Liability – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the West Virginia Teachers’ Retirement System (TRS), administered by the West Virginia Consolidated Public Retirement Board (CPRB), and additions to/reductions from the TRS fiduciary net position have been determined on the same basis as they are reported in the TRS financial statements, which can be found at <https://www.wvretirement.com/Publications.html#CAFR>. The plan schedules of TRS are prepared using the accrual basis of accounting and economic resources measurement focus in accordance with U.S. GAAP as prescribed by GASB. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Investments are reported at fair value. Detailed information on investment valuation can be found in the TRS financial statements. Management of TRS has made certain estimates and assumptions relating to employer allocation schedules, and actual results could differ. (See Note 14)

Deferred Outflows of Resources – Consumption of net position by the College that is applicable to a future fiscal year is reported as a deferred outflow of resources on the statement of net position. The College had deferred outflows of resources related to pensions of \$21,875 and \$26,011 as of June 30, 2019 and 2018, respectively (see Note 14), and deferred outflows of resources related to OPEB of \$425,346 and \$225,347, respectively (see Note 9).

Deferred Inflows of Resources – Acquisition of net position by the College that is applicable to a future fiscal year is reported as a deferred inflow of resources on the statement of net position. As of June 30, 2019 and 2018, the College had deferred inflows related to service concession arrangements of \$45,833 and \$0, respectively (see Note 16), deferred inflows related to pensions of \$16,807 and \$13,285, respectively (see Note 14), and deferred inflows related to OPEB of \$561,027 and \$384,687, respectively (see Note 9).

Risk Management — The State’s Board of Risk and Insurance Management (BRIM) provides general, property, casualty, cyber and liability coverage to the College and its employees. Such coverage may be provided to the College by BRIM through self-insurance programs maintained by

BRIM or policies underwritten by BRIM that may involve experience-related premiums or adjustments to BRIM.

BRIM engages an independent actuary to assist in the determination of its premiums so as to minimize the likelihood of premium adjustments to the College or other participants in BRIM's insurance programs. As a result, management does not expect significant differences between the premiums the College is currently charged by BRIM and the ultimate cost of that insurance based on the College's actual loss experience. In the event such differences arise between estimated premiums currently charged by BRIM to the College and the College's ultimate actual loss experience, the difference will be recorded as the change in estimate becomes known.

In addition, through its participation in PEIA and third-party insurers, the College has obtained health, life, prescription drug coverage, and coverage for job-related injuries for its employees. In exchange for payment of premiums to PEIA and the third-party insurers, the College has transferred its risks related to health, life, prescription drug coverage, and job-related injuries.

Classification of Revenues — The College has classified its revenues according to the following criteria:

Operating Revenues — Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances, (3) most federal, state, local, and nongovernmental grants and contracts, and (4) sales and services of educational activities.

Nonoperating Revenues — Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenues that are defined as nonoperating revenues by GASB such as state appropriations, federal Pell grants, investment income, and sale of capital assets (including natural resources).

Other Revenues — Other revenues consist primarily of capital grants and gifts.

Use of Restricted Net Position — The College has not adopted a formal policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Generally, the College attempts to utilize restricted net position first when practicable.

Federal Financial Assistance Programs — The College facilitates borrowing opportunities to students through the Federal Direct Student Loan Program. Under this program, the U.S. Department of Education makes interest subsidized and nonsubsidized loans directly to students, through institutions like the College. Direct student loan receivables are not included in the College's statements of net position as the loans are repayable directly to the U.S. Department of Education. In 2019 and 2018, the College received and disbursed \$4,300,922 and \$4,926,476, respectively, under the Federal Direct Student Loan Program on behalf of the U.S. Department of Education, which is not included as revenue and expense on the statements of revenues, expenses, and changes in net position.

The College also distributes other student financial assistance funds on behalf of the federal government to students under the Federal Pell Grant, Supplemental Educational Opportunity Grant, and College Work Study programs. The activity of these programs is recorded in the accompanying

financial statements. In 2019 and 2018, the College received and disbursed \$3,516,722 and \$3,808,440, respectively, under these federal student aid programs.

Scholarship Allowances — Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the statements of revenues, expenses, and changes in net position. Scholarship allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the student's behalf.

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and College Business Officers. Certain aid, such as loans, funds provided to students as awarded by third parties and Federal Direct Lending is accounted for as a third-party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses, or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third-party aid.

Government Grants and Contracts — Government grants and contracts normally provide for the recovery of direct and indirect costs, subject to audit. The College recognizes revenue associated with direct costs as the related costs are incurred. Recovery of related indirect costs is generally recorded at fixed rates negotiated for a period of one to five years.

Income Taxes — The College is exempt from income taxes, except for unrelated business income, as a nonprofit organization under federal income tax laws and regulations of the Internal Revenue Service.

Cash Flows — Any cash and cash equivalents escrowed, restricted for noncurrent assets, or in funded reserves have not been included as cash and cash equivalents for the purpose of the statements of cash flows.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Risk and Uncertainties — Investments are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain securities, it is reasonably possible that changes in risk and values will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Newly Adopted Statements Issued by the Governmental Accounting Standards Board(GASB)

The GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, which is effective for fiscal years beginning after June 15, 2018. Statement No. 83 establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for legally enforceable liabilities associated with the retirement of tangible capital assets. Examples of

asset retirements covered under this standard are the decommissioning of a nuclear reactor or the dismantling and removal of sewage treatment plants as required by law. The adoption of this standard had no effect on the College's financial statements.

The GASB has also issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, which is effective for fiscal years beginning after June 15, 2018. Statement No. 88's primary objective is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It clarifies which liabilities governments should include when disclosing information related to debt. The adoption of this standard had no effect on the College's financial statements.

Recent Statements Issued by the Governmental Accounting Standards Board(GASB) –

The GASB has also issued Statement No. 84, *Fiduciary Activities*, which is effective for fiscal years beginning after December 15, 2018. Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments to determine whether an activity should be reported in a fiduciary fund in the financial statements. The College has not yet determined the effect that the adoption of GASB Statement No. 84 may have on its financial statements.

The GASB has also issued Statement No. 87, *Leases*, which is effective for fiscal years beginning after December 15, 2019. Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. In other words, most leases currently classified as operating leases will be accounted for and reported in the same manner as capital leases. The College has not yet determined the effect that the adoption of GASB Statement No. 87 may have on its financial statements.

The GASB has also issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, which is effective for fiscal years beginning after December 15, 2019. The objectives of this Statement are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. Such interest cost includes all interest that was previously accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The College has not yet determined the effect that the adoption of GASB Statement No. 89 may have on its financial statements.

The GASB has also issued Statement No. 90, *Majority Equity Interests-an amendment of GASB Statements No. 14 and No. 61*, which is effective for fiscal years beginning after December 15, 2018. Statement No. 90's primary objective is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The College has not yet determined the effect that the adoption of GASB Statement No. 90 may have on its financial statements.

3. CASH AND CASH EQUIVALENTS

The composition of cash and cash equivalents was held as follows as of June 30, 2019 and 2018:

	<u>2019</u>	<u>2018</u>
State Treasurer	\$ 12,931,163	\$ 13,293,461
In Bank	<u>225,201</u>	<u>218,972</u>
	<u>\$ 13,156,364</u>	<u>\$ 13,512,433</u>

The combined carrying amount of cash in bank at June 30, 2019 and 2018, was \$225,201 and \$218,972 as compared with the combined bank balance of \$325,014 and \$308,888, respectively. The difference is primarily caused by outstanding checks and items in transit. The bank balances were covered by federal depository insurance as noted below or were collateralized by securities held by the State's agent. Regarding federal depository insurance, interest-bearing accounts are insured by the Federal Deposit Insurance Corporation up to \$250,000. Non-interest-bearing accounts are 100% insured through December 31, 2019.

Amounts with the State Treasurer as of June 30, 2019 and 2018, are comprised of two investment pools: the WV Money Market Pool, and the WV Short Term Bond Pool, and certain amounts of uninvested cash. The amount of uninvested cash at June 30, 2019 and 2018, was \$1,222,995 and \$1,125,753, respectively.

Cash on deposit with the Treasurer includes deposits in the State Treasury bank account, the WV Money Market Pool, and the WV Short Term Bond Pool. Deposits in the bank account are insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by securities held by the bank in the name of the State. Deposits in the WV Money Market Pool, and the WV Short Term Bond Pool are pooled by the Treasurer with other available funds of the State for investment purposes by the West Virginia Board of Treasury Investments (the BTI). These funds are transferred to the BTI, and then the BTI invests in accordance with West Virginia Code, policies set by the BTI, provisions of bond indentures and trust agreements when applicable. Fair value and investment income are allocated to participants in the pools based upon the funds that have been invested. Balances in the investment pools are recorded at fair value or amortized cost which approximates fair value. Fair value is determined by a third-party pricing service based on asset portfolio pricing models and other sources in accordance with GASB. The BTI was established by the Legislature and is subject to oversight by the Legislature. Fair value and investment income are allocated to participants in the pools based upon the funds that have been invested. The amounts on deposit are available for immediate withdrawal and, accordingly, are presented as cash and cash equivalents in the accompanying financial statements.

The BTI maintains the Consolidated Fund investment fund, which consists of eight investment pools and participant-directed accounts, three of which the College may invest in. These pools have been structured as multi-participant variable net position funds to reduce risk and offer investment liquidity diversification to the Fund participants. Funds not required to meet immediate disbursement needs are invested for longer periods. A more detailed discussion of the BTI's investment operations pool can be found in its annual audited financial report. A copy of that annual audited financial report can be obtained from the following address: 1900 Kanawha Blvd. East, Room E-122, Charleston, WV 25305 or <http://www.wvbt.com>.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The following table provides information on the Standard & Poor's rating of the investment pools as of June 30:

External Pool	2019		2018	
	Carrying Value	S & P Rating	Carrying Value	S & P Rating
WV Money Market Pool	\$ 11,437,461	AAAm	\$ 11,891,816	AAAm
WV Short Term Bond Pool	\$ 270,707	Not Rated	\$ 275,892	Not Rated

A fund rated "AAAm" has extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. "AAAm" is the highest principal stability fund rating assigned by Standard & Poor's.

Interest Rate Risk — Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. All the amounts with the State Treasurer are subject to interest rate risk. The following table provides information on the weighted-average maturities for the WV Money Market Pool:

External Pool	2019		2018	
	Carrying Value	WAM (Days)	Carrying Value	WAM (Days)
WV Money Market Pool	\$ 11,437,461	42	\$ 11,891,816	34

The following table provides information on the effective duration for the WV Short Term Bond Pool:

External Pool	2019		2018	
	Carrying Value	Effective Duration (Days)	Carrying Value	Effective Duration (Days)
WV Short Term Bond Pool	\$ 270,707	723	\$ 275,892	372

Other Investment Risks — Other investment risks include concentration of credit risk, custodial credit risk, and foreign currency risk. None of the BTI's Consolidated Fund's investment pools or accounts is exposed to these risks as described below.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss arising from a large position in a single asset or market exposure. The College has no risk exposure.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the College will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The College has no risk exposure.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The College has no securities with foreign currency risk.

4. APPROPRIATIONS DUE FROM PRIMARY GOVERNMENT

West Virginia Legislature, Senate Bill 1027, effective June 24, 2019, gave a supplementary appropriation from the State Fund, General Revenue to numerous agencies for fiscal year 2019. Blue Ridge Community and Technical College received an additional \$500,000. Per Enrolled Senate Bill 1027, any unexpended balance at the end of fiscal year 2019 is reappropriated for expenditure during fiscal year 2020. The College did not spend any of this as of June 30, 2019, therefore this is reflected in the Statement of Net Position as Appropriations due from Primary Government and included as State appropriation revenue on the Statement of Revenues, Expenses, and Changes in Net Position.

5. DUE FROM STATE AGENCIES

Due from state agencies is reflected in the Statements of Net Position as either due from the Council/ Commission if from the West Virginia Higher Education Policy Commission (WVHEPC) or the West Virginia Community and Technical College System (WVCTCS), or reflected as due from other state agencies. Due from state agencies as of June 30, 2019 and 2018, is as follows:

	<u>2019</u>	<u>2018</u>
WVHEPC	\$ 51,649	\$ 21,096
WVCTCS	<u>131,898</u>	<u>110,786</u>
Due from the Council/Commission	<u>\$ 183,547</u>	<u>\$ 131,882</u>
WV Department of Agriculture	<u>\$ 1,951</u>	<u>\$ -</u>
Due from other state agencies	<u>\$ 1,951</u>	<u>\$ -</u>

6. ACCOUNTS RECEIVABLE

Accounts receivable as of June 30, 2019 and 2018, is as follows:

	<u>2019</u>	<u>2018</u>
Student tuition and fees — net of allowance for doubtful accounts of \$647,366 and \$983,521 in 2019 and 2018, respectively	\$ 69,902	\$ 65,050
Other receivables	477,537	609,822
Unbilled charges	52,431	42,716
Financial aid grants receivable	<u>111,926</u>	<u>127,494</u>
	<u>\$ 711,796</u>	<u>\$ 845,082</u>

7. CAPITAL ASSETS

Summary of capital assets transactions for the College as of June 30, 2019 and 2018, is as follows:

	<u>2019</u>			
	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>
Capital assets not being depreciated:				
Land	\$ 1,605,550	\$ -	\$ -	\$ 1,605,550
Construction in progress	4,537	468,392	(13,196)	459,733
Total capital assets not being depreciated	<u>\$ 1,610,087</u>	<u>\$ 468,392</u>	<u>\$ (13,196)</u>	<u>\$ 2,065,283</u>
Capital assets being depreciated:				
Land Improvements	\$ 665,491	\$ -	\$ -	\$ 665,491
Buildings/Leasehold improvements	17,794,790	13,196	-	17,807,986
Library books	1,492	-	-	1,492
Equipment	4,997,278	667,191	(163,666)	5,500,803
Total capital assets being depreciated	<u>23,459,051</u>	<u>680,387</u>	<u>(163,666)</u>	<u>23,975,772</u>
Less accumulated depreciation for:				
Land Improvements	199,504	44,232	-	243,736
Buildings/Leasehold improvements	3,652,058	389,133	-	4,041,191
Library books	1,492	-	-	1,492
Equipment	3,315,905	491,162	(163,666)	3,643,401
Total accumulated depreciation	<u>7,168,959</u>	<u>924,527</u>	<u>(163,666)</u>	<u>7,929,820</u>
Capital assets being depreciated — net	<u>\$ 16,290,092</u>	<u>\$ (244,140)</u>	<u>\$ -</u>	<u>\$ 16,045,952</u>
Capital assets — net	<u>\$ 17,900,179</u>	<u>\$ 224,252</u>	<u>\$ (13,196)</u>	<u>\$ 18,111,235</u>

CAPITAL ASSETS (Continued)

	2018			
	Beginning Balance	Additions	Reductions	Ending Balance
Capital assets not being depreciated:				
Land	\$ 1,605,550	\$ -	\$ -	\$ 1,605,550
Construction in progress	50,000	96,839	(142,302)	4,537

8. DUE TO STATE AGENCIES

Due to state agencies is reflected in the Statements of Net Position as either Due to the Council/Commission if to West Virginia Higher Education Policy Commission (WVHEPC) or the West Virginia Community and Technical College System (WVCTCS), or reflected as Due to other state agencies. Due to state agencies as of June 30, 2019 and 2018, is as follows:

	<u>2019</u>	<u>2018</u>
WVHEPC	\$ 16,552	\$ 16,081
Total Due to the Council/Commission	<u>\$ 16,552</u>	<u>\$ 16,081</u>
WV State Tax Dept	\$ 718	\$ 1,739
WV Dept of Health and Human Resources	1,360	2,678
WV State Treasurers Office	329	25
Department of Administration - Central Mail	23	77
WV Attorney General	131	54
Public Employees Insurance Agency (PEIA)	-	100
Public Employees Insurance Agency (PEIA-RHBT)	1,359	732
WVNET	<u>201</u>	<u>417</u>
Total Due to other state agencies	<u>\$ 4,121</u>	<u>\$ 5,822</u>

9. OTHER POSTEMPLOYMENT BENEFITS

Employees of the College are enrolled in the West Virginia Other Postemployment Benefit Plan (the "OPEB plan") which is administered by the West Virginia Public Employees Insurance Agency ("PEIA") and the West Virginia Retiree Health Benefit Trust Fund (the "RHBT").

Following is the College's other postemployment benefits liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits, revenues, and other postemployment benefits expense and expenditures for the fiscal years ended June 30, 2019 and 2018, respectively:

OPEB	<u>2019</u>	<u>2018</u>
Net OPEB Liability	\$ 2,365,887	\$ 2,487,633
Deferred Outflows of Resources	\$ 425,346	\$ 225,347
Deferred Inflows of Resources	\$ 561,027	\$ 384,687
Revenues	\$ 149,460	\$ 156,853
OPEB Expense	\$ 253,688	\$ 72,067
Contributions Made by the College	\$ 249,633	\$ 225,347

Plan Description

The OPEB plan is a cost-sharing, multiple employer, defined benefit other post-employment benefit plan that covers the retirees of State agencies, colleges and universities, county boards of education, and other government entities as set forth in West Virginia Code Section 5-16D-2 (the “Code”). Plan benefits are established and revised by PEIA and the RHBT with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration secretary serves as Chairman of the Board. Four members represent labor, education, public employees and public retirees. Four remaining members represent the public-at-large.

Active employees who retire are eligible for PEIA health and life benefits, provided they meet the minimum eligibility requirements of the applicable State retirement system and if their last employer immediately prior to retirement: is a participating employer under the Consolidated Public Retirement Board (“CPRB”) and, as of July 1, 2008 forward, is a participating employer with PEIA. Active employees who, as of July 1, 2008, have ten years or more of credited service in the CPRB and whose employer at the time of their retirement does participate with CPRB, but does not participate with PEIA will be eligible for PEIA retiree coverage provided: they otherwise meet all criteria under this heading and their employer agrees, in writing, upon a form prescribed by PEIA, that the employer will pay to PEIA the non-participating retiree premium on behalf of the retiree or retirees, or that the retiree agrees to pay the entire unsubsidized premium themselves. Employees who participate in non-State retirement systems but that are CPRB system affiliated, contracted, or approved (such as TIAA-CREF and Empower Retirement), or are approved, in writing, by the PEIA Director must, in the case of education employees, meet the minimum eligibility requirements of the State Teachers Retirement System (“STRS”), and in all other cases meet the minimum eligibility requirements of the Public Employees Retirement System to be eligible for PEIA benefits as a retiree.

The financial activities of the OPEB plan are accounted for in the RHBT, a fiduciary fund of the State of West Virginia. The RHBT audited financial statements and actuarial reports can be found on the PEIA website at www.peia.wv.gov.

Benefits Provided

The OPEB plan provides medical and prescription drug insurance and life insurance benefits. The medical and prescription drug insurance is provided through two options: the self-insured preferred provider benefit plan option, which is primarily for non-Medicare-eligible retirees and spouses; and the external managed care organization option, which is primarily for Medicare-eligible retirees and spouses.

Contributions

Pay as you go premiums (“paygo”) are established by the Finance Board annually. All participating employers are required by statute to contribute this premium to the RHBT at the established rate for every active policyholder per month. The active premiums subsidize the retirees’ health care.

Members retired before July 1, 1997 pay retiree healthcare contributions at the highest sponsor subsidized rate, regardless of their actual years of service. Members retired between July 1, 1997 and June 30, 2010, pay a subsidized rate depending on the member’s years of service. Members

hired on or after July 1, 2010, pay retiree healthcare contributions with no sponsor provided implicit or explicit subsidy.

Retiree leave conversion contributions from the employer depend on the retiree's date of hire and years of service at retirement as described below:

- Members hired before July 1, 1988 may convert accrued sick or vacation leave days into 100% of the required retiree healthcare contribution.
- Members hired from July 1, 1988 to June 30, 2001 may convert sick or vacation leave days into 50% of the required retiree healthcare contribution.

The conversion rate is two days of unused sick and vacation leave days per month for single healthcare coverage and three days of unused sick and vacation leave days per month for family healthcare coverage.

Employees hired on or after July 1, 2001 no longer receive sick and/or vacation leave credit toward the required retiree healthcare contribution when they retire. All retirees have the option to purchase continued coverage regardless of their eligibility for premium credits.

Certain faculty employees (generally those with less than a 12-month contract) earn a similar extended health or life insurance coverage retirement benefit based on years of service. Generally, 3-1/3 years of teaching service extend health insurance coverage for one year of family coverage. Faculty hired after July 1, 2009 no longer receive years of service credit toward insurance premiums when they retire. Faculty hired on or after July 1, 2010 receive no health insurance premium subsidy when they retire. Two groups of employees hired after July 1, 2010 will not be required to pay the unsubsidized rate: 1) active employees who were originally hired before July 1, 2010 who have a break in service of fewer than two years after July 1, 2010; and 2) retired employees who had an original hire date prior to July 1, 2010 may return to active employment. In those cases, the original hire date may apply.

Assumptions

The net OPEB liability for financial reporting purposes was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018. The following actuarial assumptions were used and applied to all periods included in the measurement:

- Actuarial cost method: Entry age normal cost method.
- Amortization method and period: Level percentage of payroll over 20 years; closed as of June 30, 2017.
- Asset valuation method: Market value
- Investment rate of return: 7.15%, net of OPEB plan investment expense, including inflation.
- Projected salary increases: dependent on pension system ranging from 3.00% to 6.50%, including inflation. Wage inflation: 4.00%
- Healthcare cost trend rates: Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 10.00% for pre- and post-Medicare, respectively, and

gradually decreases to an ultimate trend of 4.50%. Excess trend rate of 0.13% and 0.00% for pre- and post-Medicare, respectively, is added to healthcare trend rates pertaining to per capita claims costs beginning in 2022 to account for the Excise Tax.

- Inflation rate: 2.75%.
- Discount rate: 7.15%
- Mortality rates: based on RP-2000 Mortality Tables.

The long-term investment rate of return of 7.15% on OPEB plan investments was determined by a combination of an expected long-term rate of return of 7.50% for long-term assets invested with the West Virginia Investment Management Board (“IMB”) and an expected short-term rate of return of 3.00% for assets invested with the WV Board of Treasury Investments (“BTI”).

Long-term pre-funding assets are invested with the IMB. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the BTI.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which estimates of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation. Best estimates of the long-term geometric rates for each major asset class are summarized below.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010 through June 30, 2015.

June 30, 2018	
Asset Class	Long-term Expected Real Rate of Return
Large Cap Domestic	17.0%
Non-Large Cap Domestic	22.0%
International Qualified	24.6%
International Non-Qualified	24.3%
International Equity	26.2%
Short-Term Fixed	0.5%
Total Return Fixed Income	6.7%
Core Fixed Income	0.1%
Hedge Fund	5.7%
Private Equity	19.6%
Real Estate	8.3%
Opportunistic Income	4.8%
Cash	0.0%

June 30, 2017

Asset Class	Long-term Expected Real Rate of Return
Large Cap Domestic	17.0%
Non-Large Cap Domestic	22.0%
International Qualified	24.6%
International Non-Qualified	24.3%
International Equity	26.2%
Short-Term Fixed	0.5%
Total Return Fixed Income	6.7%
Core Fixed Income	0.1%
Hedge Fund	5.7%
Private Equity	19.6%
Real Estate	8.3%
Opportunistic Income	4.8%
Cash	0.0%

Discount rate. The discount rate used to measure the OPEB liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that RHBT contributions will be made at rates equal to the actuarially determined contribution rates, in accordance with prefunding and investment policies. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Discount rates are subject to change between measurement dates.

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the College's proportionate share of the net OPEB liability as of June 30, 2019 and 2018, respectively, calculated using the discount rate of 7.15%, as well as what the College's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.15%) or one percentage point higher (8.15%) than the current rate:

2019			
	1% Decrease (6.15%)	Discount Rate (7.15%)	1% Increase (8.15%)
Net OPEB Liability	\$ 2,780,629	\$ 2,365,887	\$ 2,020,155

2018			
	1% Decrease (6.15%)	Discount Rate (7.15%)	1% Increase (8.15%)
Net OPEB Liability	\$ 2,896,564	\$ 2,487,633	\$ 2,147,698

Sensitivity of the net OPEB liability to changes in healthcare cost trend rates. The following presents the College's proportionate share of the net OPEB liability as of June 30, 2019 and 2018, respectively, calculated using the current healthcare cost trend rates, as well as what the College's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

2019			
	Healthcare Cost		
	1% Decrease	Trend Rates	1% Increase
Net OPEB Liability	\$ 1,957,644	\$ 2,365,887	\$ 2,863,317

2018			
	Healthcare Cost		
	1% Decrease	Trend Rates	1% Increase
Net OPEB Liability	\$ 2,089,647	\$ 2,487,633	\$ 2,974,392

OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability at June 30, 2019 and 2018 was measured as of June 30, 2018 and 2017, respectively, which is the measurement date. The total OPEB liability at June 30, 2019 and 2018 was determined by an actuarial valuation as of June 30, 2017 and 2016, respectively, and rolled forward to the respective measurement dates.

At June 30, 2019 and 2018, the amount recognized as the College's proportionate share of the net OPEB liability was approximately \$2,365,887 and \$2,487,633, respectively. At June 30, 2019 and 2018, the nonemployer contributing entity's (State of West Virginia) portion of the collective net OPEB liability is \$488,966 and \$510,963, respectively, and the total net OPEB liability attributable to the College at June 30, 2019 and 2018 is \$2,854,853 and \$2,998,596, respectively.

The allocation percentage assigned to each contributing employer is based on the employer's proportionate share of employer contributions to the RHBT for the fiscal years ended June 30, 2018 and June 30, 2017. Employer contributions are recognized when due. At June 30, 2018, the College's proportion was 0.110275342%, an increase of 0.00911% from its proportion of 0.101164884% calculated as of June 30, 2017. At June 30, 2017, the College's proportion was 0.101164884%, a decrease of 0.01721% from its proportion of 0.118371543% calculated as of June 30, 2016.

For the years ended June 30, 2019 and 2018, the College recognized OPEB expense of \$253,688 and \$72,067, respectively. Of this amount, \$104,228 and \$(84,786), respectively, was recognized as the College's proportionate share of the OPEB expense, and \$149,460 and \$156,853, respectively, as the amount of OPEB expense attributed to special funding. The College also recognized revenue of \$149,460 and \$156,853, respectively, for support provided by the State.

At June 30, 2019 and 2018, deferred outflows of resources and deferred inflows of resources related to OPEB are as follows:

<u>Deferred Outflows of Resources</u>	<u>2019</u>	<u>2018</u>
Contributions after the measurement date	\$ 249,633	\$ 225,347
Changes in proportion and difference between employer contributions and proportionate share of contributions	175,713	-
Total	<u>\$ 425,346</u>	<u>\$ 225,347</u>

<u>Deferred Inflows of Resources</u>	<u>2019</u>	<u>2018</u>
Changes in proportion and difference between employer contributions and proportionate share of contributions	\$ 246,009	\$ 336,653
Net difference between projected and actual investment earnings	43,792	39,704
Differences between expected and actual experience	34,996	8,330
Changes in assumptions	236,230	-
Total	<u>\$ 561,027</u>	<u>\$ 384,687</u>

The College will recognize the \$249,633 reported as deferred outflows of resources resulting from OPEB contributions after the measurement date as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Fiscal Year Ended</u>	<u>Amortization</u>
June 30, 2020	\$ (130,904)
June 30, 2021	(130,904)
June 30, 2022	(104,339)
June 30, 2023	(19,167)
	<u>\$ (385,314)</u>

10. STATE SYSTEM OF HIGHER EDUCATION INDEBTEDNESS

The College is a State institution of higher education, and the College receives a State appropriation to finance its operations. In addition, it is subject to the legislative and administrative mandates of the State government. Those mandates affect all aspects of the College's operations, its tuition and fee structure, its personnel policies, and its administrative practices.

The State has chartered the Commission with the responsibility to construct or renovate, finance, and maintain various academic and other facilities of the State's universities and colleges, including certain facilities of the College. Financing for these facilities was provided through revenue bonds issued by the former Board of Regents or the former Boards of the University and College Systems (the "Boards"). These obligations administered by the Commission are the direct and total responsibility of the Municipal Bond Commission, as successor to the former Boards.

The Municipal Bond Commission has the authority to assess each public institution of higher education for payment of debt service on these system bonds. The tuition and registration fees of the members of the former State University System are generally pledged as collateral for the Commission's bond indebtedness. Student fees collected by the institution in excess of the debt service allocation are retained by the institution. Although the bonds remain as capital obligations of the Commission, an estimate of the obligation of each institution was reported as a long-term payable by each institution and as a receivable by the Commission, The College has no liability to the Commission at June 30, 2019 and 2018.

11. LEASES AND AMOUNT DUE TO BERKELEY BUSINESS PARK ASSOCIATES, L.C. AND MORGAN COUNTY COMMISSION

The College leases space at two locations as of June 30, 2019, which are accounted for as operating leases.

Future annual scheduled lease payments on operating leases for the 5 years subsequent to June 30, 2019 and then remaining in increments of 5 years, are as follows:

Year Ending June 30,	Berkeley Business Park	Morgan County Commission	Total
2020	\$ 439,154	\$ 64,504	\$ 503,658
2021	447,557	65,795	513,352
2022	456,034	67,110	523,144
2023	460,447	-	460,447
2024	144,210	-	144,210
2025-2029	<u>485,157</u>	<u>-</u>	<u>485,157</u>
Total	<u>\$ 2,432,559</u>	<u>\$ 197,409</u>	<u>\$ 2,629,968</u>

Total lease expense for the years ended June 30, 2019 and 2018, was \$444,066 and \$363,703, respectively.

The College does not have any non-cancellable leases.

12. UNRESTRICTED NET POSITION

The College did not have any designated unrestricted net position as of June 30, 2019 or 2018.

	<u>2019</u>	<u>2018</u>
Total unrestricted net position before OPEB and pension liability	\$ 5,729,519	\$ 5,307,335
Less OPEB liability	(2,365,887)	(2,487,633)
Less pension liability	<u>(69,158)</u>	<u>(82,954)</u>
Total unrestricted net position	<u>\$ 3,294,474</u>	<u>\$ 2,736,748</u>

13. DEFINED CONTRIBUTION PLANS

Substantially, all full-time employees of the College participate in either the West Virginia Teachers' Retirement System (TRS) or the Teachers' Insurance and Annuities Association — College Retirement Equities Fund (TIAA-CREF). Previously, upon full-time employment, all employees were required to make an irrevocable selection between the TRS and TIAA-CREF. Effective July 1, 1991, the TRS was closed to new participants. Current participants in the TRS are permitted to make a one-time election to cease their participation in that plan and commence contributions to the West Virginia Teachers' Defined Contribution Plan. Contributions to and participation in the West Virginia Teachers' Defined Contribution Plan by College employees have not been significant to date.

Effective January 1, 2003, higher education employees enrolled in the basic 401(a) retirement plan with TIAA-CREF have an option to switch to the New Educators Money 401(a) basic retirement plan ("Educators Money"). New hires have the choice of either plan.

The TIAA-CREF and Educators Money are defined contribution benefit plans in which benefits are based solely upon amounts contributed, plus investment earnings. Employees who elect to participate in this plan are required to make a contribution equal to 6% of total annual compensation. The College matches the employees' 6% contribution. Contributions are immediately and fully vested. In addition, employees may elect to make additional contributions to TIAA-CREF and Educators Money, which are not matched by the College.

DEFINED CONTRIBUTION PLANS

	<u>Educators Money</u>	
Source of contributions:	<u>2019</u>	<u>2018</u>
Employee	\$ 1,774	\$ 1,696
Employer	<u>1,774</u>	<u>1,696</u>
Total contributions	<u>\$ 3,548</u>	<u>\$ 3,392</u>

	<u>TIAA-CREF</u>	
Source of contributions:	<u>2019</u>	<u>2018</u>
Employee	\$ 500,442	\$ 446,446
Employer	<u>500,442</u>	<u>446,446</u>
Total contributions	<u>\$ 1,000,884</u>	<u>\$ 892,892</u>

The following is the covered payroll by plan for the year ended June 30:

BENEFITS ELIGIBLE PAYROLL		
	<u>2019</u>	<u>2018</u>
Employees' Salaries-TIAA-CREF	\$ 8,340,695	\$ 7,440,769
Employees' Salaries-Educators Money	<u>29,575</u>	<u>28,268</u>
Total	<u>\$ 8,370,270</u>	<u>\$ 7,469,037</u>

14. DEFINED BENEFIT PENSION PLAN

Some employees of the College are enrolled in a defined benefit pension plan, the West Virginia Teachers' Retirement System (TRS), which is administered by the West Virginia Consolidated Public Retirement Board (CPRB).

Following is the College's pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, revenues, and the pension expense and expenditures for the fiscal years ended June 30, 2019 and 2018, respectively:

TRS	<u>2019</u>	<u>2018</u>
Net Pension Liability	\$ 69,158	\$ 82,954
Deferred Outflows of Resources	\$ 21,875	\$ 26,011
Deferred Inflows of Resources	\$ 16,807	\$ 13,285
Revenues	\$ 16,438	\$ 18,687
Pension Expense	\$ 10,300	\$ 16,385
Contributions Made by the College	\$ 10,473	\$ 9,993

TRS

Plan Description

TRS is a multiple employer defined benefit cost sharing public employee retirement system providing retirement benefits as well as death and disability benefits. It covers all full-time employees of the 55 county public school systems in the State of West Virginia (the State) and certain personnel of the 13 State-supported institutions of higher education, State Department of Education and the Higher Education Policy Commission hired prior to July 1, 1991. Employees of the State-supported institutions of higher education and the Higher Education Policy Commission hired after June 30, 1991, are required to participate in the Higher Education Retirement System. TRS closed membership to new hires effective July 1, 1991.

TRS is considered a component unit of the State of West Virginia for financial reporting purposes, and, as such, its financial report is also included in the State of West Virginia's Comprehensive Annual Financial Report. TRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained from the TRS website at <https://www.wvretirement.com/Publications.html#CAFR>

Benefits Provided

TRS provides retirement, death, and disability benefits. A member is eligible for normal retirement at age 60 with five years of service, age 55 with 30 years of service or any age with 35 years of service. A member may retire with 30 years of credited service at any age with the pension reduced actuarially if the member retires before age 55. Terminated members with at least five, but less than

20, years of credited service who do not withdraw their accumulated contributions are entitled to a deferred retirement commencing at age 62. Retirement benefits are equivalent to 2% of average annual salary multiplied by years of service. Average salary is the average of the 5 highest fiscal years of earnings during the last 15 fiscal years of earnings. Chapter 18, Article 7A of the West Virginia State Code assigns the authority to establish and amend the provisions of the plan, including contribution rates, to the State Legislature.

Contributions

The funding objective of the CPRB pension trust funds is to meet long-term benefit requirements through contributions, which remain relatively level as a percent of member payroll over time, and through investment earnings. Contribution requirements are set by CPRB. A member who withdraws from service for any cause other than death or retirement may request that the accumulated employee contributions plus interest be refunded.

Member Contributions: TRS funding policy provides for member contributions based on 6% of members' gross salary. Contributions as a percentage of payroll for members and employers are established by State law and are not actuarially determined.

Employer Contributions: Employers make the following contributions:

The State (including institutions of higher education) contributes:

1. 15% of gross salary of their TRS State-employed members hired prior to July 1, 1991;
2. 7.5% of gross salary of their TRS covered employees hired for the first time after July 1, 2005 and for those TDCRS members who elected to transfer to TRS effective July 1, 2008.
3. 7.5% of SAF-covered payroll of members of the TDCRS;
4. a certain percentage of fire insurance premiums paid by State residents; and
5. under WV State code section 18-9-A-6a, beginning in fiscal year 1996, an amount determined by the State Actuary as being needed to eliminate the TRS unfunded liability within 40 years of June 30, 1994. As of June 30, 2018 and 2017, the College's proportionate share attributable to this special funding subsidy was \$69,158 and \$82,954, respectively.

The College's contributions to TRS for the years ended June 30, 2019 and 2018, were \$10,473 and \$9,993, respectively.

Assumptions

The total pension liabilities for financial reporting purposes were determined by actuarial valuations as of June 30, 2017 and rolled forward to June 30, 2018. The following actuarial assumptions were used and applied to all periods included in the measurement:

- Actuarial cost method: Entry age normal cost with level percentage of payroll.
- Asset valuation method: Investments are reported at fair (market) value.
- Amortization method and period: Level dollar, fixed period over 40 years, from July 1, 1994 through fiscal year 2034.
- Investment rate of return of 7.50%, net of pension plan administrative and investment expenses.
- Projected salary increases: Teachers 3.00-6.00% and 3.00-6.00%, respectively, and non-teachers 3.00-6.50% and 3.00-6.50%, respectively, based on age.
- Inflation rate of 3.0% and 3.0%, respectively.
- Discount rate of 7.50%
- Mortality rates based on RP-2000 Mortality Tables.

- Withdrawal rates: Teachers .8-35% and non-teachers 1.316-24.75%
- Disability rates: 0.008-0.704%
- Retirement age: An age-related assumption is used for participants not yet receiving payments.
- Retirement rates: 15-100%
- *Ad hoc* cost-of-living increases in pensions are periodically granted by the State Legislature. However, the retirement system makes no automatic provision for such increases.

Experience studies are performed at least once in every five-year period. The most recent experience study covered the period from July 1, 2010 to June 30, 2015. These assumptions will remain in effect for valuation purposes until such time as the CPRB adopts revised assumptions.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of the long-term arithmetic real rates of return for each major asset class included in TRS' target asset allocation as of June 30, 2018 and 2017, are summarized below.

June 30, 2018

Asset Class	Long-term Expected Real Rate of Return	Target Allocation
Domestic equity	4.5%	27.5%
International equity	8.6%	27.5%
Fixed income	3.3%	15.0%
Real estate	6.0%	10.0%
Private equity	6.4%	10.0%
Hedge funds	4.0%	10.0%

June 30, 2017

Asset Class	Long-term Expected Real Rate of Return	Target Allocation
US equity	7.0%	27.5%
International equity	7.7%	27.5%
Core fixed income	2.7%	7.5%
High-yield fixed income	5.5%	7.5%
TIPS	2.7%	0.0%
Real estate	7.0%	10.0%
Private equity	9.4%	10.0%
Hedge funds	4.7%	10.0%

Discount rate. The discount rate used to measure the total TRS pension liability was 7.50% for fiscal years ending June 30, 2018 and 2017. The projection of cash flows used to determine the discount rate assumed that State contributions will continue to follow the current funding policy. Based on those assumptions, TRS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on TRS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the College's proportionate share of the TRS net pension liability as of June 30, 2019 and 2018, respectively, calculated using the discount rate of 7.50%, as well as what the College's TRS net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%) or one percentage point higher (8.50%) than the current rate.

2019			
	1% Decrease (6.5%)	Current Discount (7.5%)	1% Increase (8.5%)
Net Pension Liability	\$ 93,351	\$ 69,158	\$ 48,475

2018			
	1% Decrease (6.5%)	Current Discount (7.5%)	1% Increase (8.5%)
Net Pension Liability	\$ 109,212	\$ 82,954	\$ 60,518

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The TRS net pension liability was measured as of June 30, 2018 and 2017. The total pension liability was determined by an actuarial valuation as of June 30, 2017 and 2016 and rolled forward to the respective measurement dates.

At June 30, 2019 and 2018, the College's proportionate share of the TRS net pension liability was \$248,364 and \$266,408, respectively. Of this amount, the College recognized approximately \$69,158 and \$82,954, respectively as its proportionate share on the Statement of Net Position. The remainder of \$179,206 and \$183,454, respectively denotes the College's proportionate share of net pension liability attributable to the special funding situation.

The allocation percentage assigned to each participating employer and non-employer contributing entity is based on their proportionate share of employer and non-employer contributions to TRS for each of the fiscal years ended June 30, 2018, 2017 and 2016. Employer contributions are recognized when due. At June 30, 2018, the College's proportion was 0.002215%, a decrease of .00019% from its proportion of 0.002401% calculated as of June 30, 2017. At June 30, 2017, the College's proportion was 0.002401%, a decrease of 0.00022% from its proportion of 0.002620% calculated as of June 30, 2016.

For the year ended June 30, 2019 and 2018, the College recognized TRS pension expense of \$10,300 and \$16,385, respectively. Of this amount, \$(6,138) and \$(2,302), respectively, was recognized as the College's proportionate share of the TRS expense and \$16,438 and \$18,687, respectively, as the amount of pension expense attributable to special funding from a non-employer contributing entity. The College also recognized revenue of \$16,438 and \$18,687, respectively, for support provided by the State.

At June 30, 2019 and 2018, deferred outflows of resources and deferred inflows of resources related to the TRS pension are as follows:

<u>Deferred Outflows of Resources</u>	<u>2019</u>	<u>2018</u>
Changes in proportion and difference between employer contributions and proportionate share of contributions	\$ 8,756	\$ 12,181
Contributions after the measurement date	10,473	9,993
Differences between expected and actual experience	497	721
Changes in assumptions	2,149	3,116
Total	<u>\$ 21,875</u>	<u>\$ 26,011</u>

<u>Deferred Inflows of Resources</u>	<u>2019</u>	<u>2018</u>
Changes in proportion and difference between employer contributions and proportionate share of contributions	\$ 11,812	\$ 9,200
Net difference between projected and actual investment earnings	3,601	2,607
Differences between expected and actual experience	1,394	1,478
Total	<u>\$ 16,807</u>	<u>\$ 13,285</u>

The College will recognize the \$10,473 reported as 2019 deferred outflows of resources resulting from pension contributions after the measurement date as a reduction of the TRS net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in TRS pension expense as follows.

<u>Fiscal Year Ended</u>	<u>Amortization</u>
June 30, 2020	\$ 835
June 30, 2021	973
June 30, 2022	(2,999)
June 30, 2023	(3,341)
June 30, 2024	(873)
	<u>\$ (5,405)</u>

Payables to the pension plan

The College did not report any amounts payable for normal contributions to the TRS as of June 30, 2019 or 2018.

15. CONTINGENCIES

The nature of the educational industry is such that, from time-to-time, claims will be presented against the College on account of alleged negligence, acts of discrimination, breach of contract, or disagreements arising from the interpretation of laws or regulations. While some of these claims may be for substantial amounts, they are not unusual in the ordinary course of providing educational services in a higher education system. In the opinion of management, all known claims are covered by insurance or are such that an award against the College would not have a significant financial impact on the financial position of the College.

Under the terms of federal grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. The College's management believes disallowances, if any, will not have a significant financial impact on the College's financial position.

16. SERVICE CONCESSION ARRANGEMENTS

The College has adopted GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*. For fiscal year ending June 30, 2019, the College has identified one contract for services that meet the four criteria of a service concession arrangement (SCA). SCAs are defined as a contract between a government and an operator, another government or a private entity, in which the operator provides services, the operator collects and is compensated by fees from third parties, the government still has control over the services provided and the government retains ownership of the assets at the end of the contract. The contract is with Follett Higher Education Group, Inc. (Follett)

The College contracts with Follett to operate two bookstores, one located on the main campus and one at the technology center. Follett also operates an on-line store through the College's website. These services provide the College community with a professional bookstore to meet the needs of students, faculty and staff. The College receives commission payments calculated as a contractually agreed percentage of bookstore revenue. The College also received a one-time payment of \$50,000 upon implementing the integration between the College and Follett systems. This payment shall be amortized according to the contract. The contract began on April 25, 2018 with a term through April 30, 2023, with three (3) one-year renewal options available. As of June 30, 2019 and 2018 the service concession arrangement deferred inflow of resources was \$45,833 and \$0, respectively.

17. NATURAL CLASSIFICATIONS WITH FUNCTIONAL CLASSIFICATIONS

Operating expenses within functional classifications for the years ended June 30, 2019 and 2018 are as follows:

	<u>2019</u>	<u>2018</u>
Instruction	\$ 8,306,816	\$ 8,474,215
Academic support	735,462	711,403
Student services	1,830,773	1,695,917
General institutional support	3,414,445	3,448,808
Operations and maintenance of plant	1,767,580	1,526,270
Student financial aid	2,072,014	2,265,491
Depreciation	924,527	979,225
Auxiliary	360,765	419,952
Other	<u>126,212</u>	<u>115,200</u>
Total	<u>\$ 19,538,594</u>	<u>\$ 19,636,481</u>

18. CHANGE IN ACCOUNTING PRINCIPLE

During the year ended June 30, 2018, the College adopted GASB No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Adoption of this statement resulted in the following restatement:

	<u>2018</u>
Net position - beginning of year, as previously stated	\$ 23,409,253
Balance of the net OPEB liability and related deferred outflows of resources and deferred inflows of resources	<u>(1,008,302)</u>
Net position - beginning of year, as restated	<u>\$ 22,400,951</u>

19. COMPONENT UNIT'S DISCLOSURES

The notes taken directly from the audited financial statements of the Foundation are as follows:

BLUE RIDGE COMMUNITY AND TECHNICAL COLLEGE FOUNDATION, INC.

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2019 AND 2018

Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Blue Ridge Community and Technical College Foundation, Inc. (the Foundation) was incorporated under the laws of West Virginia on January 14, 2011 and commenced operations on June 1, 2011. The Foundation was formed for the purposes of providing scholarships to students, administering funds restricted for special college programs, and providing special awards and grants to students attending Blue Ridge Community and Technical College (the College) located in Martinsburg, West Virginia.

New Accounting Standard Adopted

In August 2016, the FASB issued Accounting Standards Update (ASU) 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements for Not-for-Profit Entities. The ASU amends the current reporting model for not-for-profit organizations and enhances their required disclosures. The Foundation has adopted this ASU as of and for the year ended June 30, 2019 with retrospective application for the financial statements for the year ended June 30, 2018. As a result, the Foundation changed its presentation of its net asset classes and expanded the disclosures as required by the ASU.

Basis of Accounting

The financial statements of the Foundation have been prepared on the accrual basis of accounting. Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Without Donor Restrictions

Net assets that are not subject to donor stipulations.

With Donor Restrictions

Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Foundation and/or the passage of time. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the Statement of Activities as net assets released from restrictions.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Cash and cash equivalents

The Foundation considers all highly liquid debt instruments purchased with a maturity of three months or less at date of purchase to be cash equivalents. At June 30, 2019 and 2018, this included \$14,133 and \$107,205, respectively of money market funds.

Investments

The Foundation's investments are carried at fair value. Investment income including interest, dividends, realized and unrealized gains and losses, net of investment expenses, are recorded on the Statement of Activities as either with or without donor restrictions depending upon whether the terms of the gift impose restrictions on the current use of the net income or net gains.

Pledges and Other Receivables

Pledges and other receivables represent unconditional promises to give from various donors including individuals, local businesses and state and local governments. Receivables in excess of one year have been discounted and all donor receivables are recorded at fair value as of June 30, 2019 and 2018.

Deferred Revenue

The Foundation holds fundraising events each year. All donations and fees received for future events prior to year-end are recognized as deferred revenue.

Contributions

Donor-restricted contributions whose restrictions are met in the same reporting period are reported as revenue without donor restrictions.

Contributions With Donor Restrictions

Contributions subject to donor-imposed stipulations that may or will be met by actions of the Foundation and/or the passage of time as well as contributions with donor-imposed stipulations that must be maintained in perpetuity by the Foundation are included in revenue with donor restrictions. Generally, the donors of these assets permit the Foundation to use all or part of the income earned and capital gains on related investments, if any, for general or specific purposes.

Contributions Without Donor Restrictions

Contributions not subject to donor-imposed stipulations, or whose restrictions have been satisfied, are recorded as revenue without donor restrictions.

Functional Expense Allocation

Expenses that can be identified with a specific program or support service are charged directly to the program or supporting service. Expenses which apply to more than one functional category have been allocated based on estimates made by management. For the years ended June 30, 2019 and 2018, all expenses were charged directly to a specific program or to supporting services and no such allocations were made.

Tax Status

The Foundation has been recognized by the IRS as a tax-exempt organization as defined by Section 501(c)(3) of the Internal Revenue Code.

The Foundation follows generally accepted accounting principles, which provides guidance on accounting for uncertainty in income taxes recognized in an organization's financial statements. The Foundation's federal and state income tax returns are subject to examination by the IRS and state tax authorities, generally for a period of three years after the returns are filed.

Contributed Goods and Services

Contributions of donated goods are recorded at their fair values in the period received based on comparable values of like goods.

The Foundation utilizes time contributed by employees of the College. The employee time is provided at no cost to the Foundation and are not deemed significant. There are no amounts for contributed services in the financial statements.

Note 2 CONCENTRATIONS OF CREDIT RISK

The Foundation maintains all of its cash in one commercial bank located in Martinsburg, West Virginia. Balances on deposit are insured by the Federal Deposit Insurance Corporation (FDIC) up to specified limits. Balances in excess of FDIC limits are uninsured. At June 30, 2019 and 2018, the Foundation had \$0 and \$0 in excess of the FDIC insured limit, respectively. The Foundation continually assesses the financial strength of this institution to mitigate its credit risk.

Note 3 INVESTMENTS

The following is a summary of available-for-sale securities as of June 30, 2019:

	<u>Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
Equity Securities and Mutual Funds	\$ 632,116	\$ 33,326	\$ 3,013	\$ 662,429
Corporate Bonds	49,781	594	-	50,375
	<u>\$ 681,897</u>	<u>\$ 33,920</u>	<u>\$ 3,013</u>	<u>\$ 712,804</u>

The following is a summary of available-for-sale securities as of June 30, 2018:

	<u>Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
Equity Securities and Mutual Funds	\$ 508,705	\$ 17,702	\$ 6,659	\$ 519,748
Corporate Bonds	49,779	-	942	48,837
	<u>\$ 558,484</u>	<u>\$ 17,702</u>	<u>\$ 7,601</u>	<u>\$ 568,585</u>

Note 4 FAIR VALUE OF FINANCIAL INSTRUMENTS

In determining fair value, the Foundation uses the valuation approaches within FASB's *Fair Value Measurements*. As defined in *Fair Value Measurements*, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Management utilizes market data or assumptions that market participants would use in pricing the asset and liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique.

These inputs can be readily observable, market corroborated and generally unobservable. Management primarily applies the market approach for recurring fair value measurements and attempts to utilize the best available information.

Fair Value Measurements establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy defined by Fair Value Measurements are as follows:

Level 1: Quoted prices are available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices which are observable for the assets or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Pricing inputs include significant inputs that are generally not observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

Following is a description of the valuation methodologies used for instruments measured at fair value and their classification in the valuation hierarchy.

Equity securities and mutual funds, corporate bonds and money market funds are listed on a national market or exchange and are valued at the last sales price, or, if there is no sale and the market is still considered active, at the mean of the last bid and asked prices on such exchange.

The following table presents assets and liabilities measured at fair value by classification within the fair value hierarchy as of June 30, 2019:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Money Market	\$ 14,133	\$ -	\$ -	\$ 14,133
Total Money Market	\$ 14,133	\$ -	\$ -	\$ 14,133
Investments				
Equity				
Funds	\$ 83,271	\$ -	\$ -	\$ 83,271
Equity International	271,351	-	-	271,351

Corporate Bonds	48,837	-	-	48,837
Total Investments	\$ 568,585	\$ -	\$ -	\$ 568,585

Note 5 ENDOWMENTS

The Foundation's endowments consist of a fund established to support a variety of scholarships at Blue Ridge Community and Technical College. The endowments include donor restricted funds. Net assets associated with endowment funds are classified and reported as net assets with donor restrictions based on the donor-imposed restrictions. The classification is based on the board's interpretation of West Virginia's statutes that govern such endowments and its interpretations of donor intent and the related endowment bylaws.

The Foundation has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. Consequently, the Foundation classifies net assets with donor restrictions as:

- The original value of gifts donated to the permanent endowment, and
- The original value of subsequent gifts to the permanent endowment.

When reviewing its donor restricted endowment funds, the Foundation considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Foundation has interpreted SPMIFA to permit spending from underwater funds in accordance with the prudent measures required under the law. The donor-restricted endowment fund is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Foundation's Board. In accordance with SPIMFA, the Foundation considers the following factors in making a determination to appropriate or accumulated donor-restricted endowment funds:

1. The duration and preservation of the fund;
2. The purpose of the Foundation and the donor-restricted endowment fund;
3. General economic conditions;
4. The possible effect of inflation and deflation;
5. The expected total return from income and the appreciation of investments;
6. Other resources of the Foundation;
7. The investment policies of the Foundation.

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to the programs supported by the endowments. The endowment assets are invested in a manner that is intended to produce results similar to the S&P 500 index while assuming a moderate level of investment risk.

Strategies Employed for Achieving Objectives

The Foundation relies on a total return strategy in which investment returns are achieved through capital appreciation and current yield (interest and dividends). The Foundation targets a diversified asset allocation that emphasizes fixed income securities to achieve its long-term objectives within prudent risk constraints.

Underwater Endowment Funds

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level the donor or SPMIFA requires the Foundation to retain as a fund of perpetual duration. As of June 30, 2019 and 2018, the Foundation had no underwater endowment funds.

Endowment fund composition by type of fund as of June 30:

	2019		
	Without Donor Restrictions	With Donor Restrictions	Total
Donor Restricted Endowment Funds:			
Original Donor Restricted Gift			
Amount and Amounts Required to be Maintained in Perpetuity by Donor	\$ -	\$ 500,000	\$ 500,000
Accumulated Investment Gains	-	75,380	75,380
	<u>\$ -</u>	<u>\$ 575,380</u>	<u>\$ 575,380</u>
	2018		
	Without Donor Restrictions	With Donor Restrictions	Total
Donor Restricted Endowment Funds:			
Original Donor Restricted Gift			
Amount and Amounts Required to be Maintained in Perpetuity by Donor	\$ -	\$ 500,000	\$ 500,000
Accumulated Investment Gains	-	32,561	32,561
	<u>\$ -</u>	<u>\$ 532,561</u>	<u>\$ 532,561</u>

The Foundation had the following changes in the endowment funds during the years ended June 30, 2019 and 2018:

	Without Donor Restrictions	With Donor Restrictions	Total
Endowment Net Assets, July 1, 2017	\$ -	\$ 510,962	\$ 510,962
Contributions	-	-	-
Investment Return, Net	-	21,599	21,599
Appropriation of Endowment Assets for Expenditure	-	-	-
Endowment Net Assets, June 30, 2018	-	532,561	532,561
Contributions	-	-	-
Investment Return, Net	-	42,819	42,819
Appropriation of Endowment Assets for Expenditure	-	-	-
Endowment Net Assets, June 30, 2019	<u>\$ -</u>	<u>\$ 575,380</u>	<u>\$ 575,380</u>

Note 6 NET ASSETS

Net assets without donor restrictions at June 30 are as follows:

	<u>2019</u>	<u>2018</u>
Undesignated	<u>\$ 151,361</u>	<u>\$ 132,522</u>

Net assets with donor restrictions at June 30 are restricted for the following purposes:

	<u>2019</u>	<u>2018</u>
Subject to Expenditure for Specified Purpose:		
Scholarships	\$ 302,836	\$ 142,982
Subject to Foundation's Spending Policy and Appropriation:		
Investment in Perpetuity, (including amounts greater than original gift amount of \$500,000), which, once appropriated, is expendable to support:		
Scholarships	<u>575,380</u>	<u>532,561</u>
	<u>\$ 878,216</u>	<u>\$ 675,543</u>

PRIOR PERIOD ADJUSTMENT

Net assets as of July 1, 2017 has been adjusted to correct an error to reflect the receipt of payment on a receivable from the previous year. The error had no effect on net income for the years ended June 30, 2019 or 2018.

EFFECT OF CHANGE IN ACCOUNTING PRINCIPLE

As discussed in Note 1, the Foundation adopted ASU 2016-14 as of and for the year ended June 30, 2019 with retrospective application for the financial statements for the year ended June 30, 2018. Changes in net assets as a result of adopting the ASU are as follows:

	<u>Previously Reported</u>	<u>ASU 2016-14 Implementation</u>	<u>As Adjusted</u>
Unrestricted as of June 30, 2018, as restated	\$ 132,522	\$ (132,522)	\$ -
Temporarily restricted as of June 30, 2018	175,543	(175,543)	-
Permanently restricted as of June 30, 2018	500,000	(500,000)	-
Without donor restrictions as of July 1, 2018	-	132,522	132,522
With donor restrictions as of July 1, 2018	<u>-</u>	<u>675,543</u>	<u>675,543</u>
Total Net Assets	<u>\$ 808,065</u>	<u>\$ -</u>	<u>\$ 808,065</u>

LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS

The Foundation has \$1,026,446 of financial assets available within one year of the statement of financial position date of June 30, 2019 to meet cash needs for general expenditure consisting of cash of \$277,142, investments of \$712,804, and pledges and other receivables of \$36,500. \$878,216 of the financial assets are subject to donor or other contractual restrictions that make them unavailable for general expenditure within one year of the statement of financial position date. The Foundation sets a goal of having financial assets on hand to meet 6 months of normal operating expenses, which are, on average, around \$63,000. As part of its liquidity management, the Foundation has a policy to structure its financial assets to be available as general expenditures, liabilities, and other obligations become due. Should an unforeseen liquidity need arise, the Foundation could seek additional donations without restrictions.

SUBSEQUENT EVENTS

The Foundation has evaluated subsequent events through August 28, 2019, the date the financial statements were available to be issued. Events or transactions occurring after June 30, 2019, but prior to August 28, 2019, that provided additional evidence about conditions that existed at June 30, 2019 have been recognized in the financial statements for the year ended June 30, 2019. Events or transactions that provided evidence about conditions that did not exist at June 30, 2019, but arose before the financial statements were available to be issued, have not been recognized in the financial statements for the year ended June 30, 2019.

June 30, 2017	\$ 9,940	\$ 10,109	\$ (169)	\$ 67,392	15.00%
June 30, 2016	\$ 10,157	\$ 10,159	\$ (2)	\$ 67,725	15.00%
June 30, 2015	\$ 10,431	\$ 10,429	\$ 2	\$ 69,526	15.00%
June 30, 2014	\$ 9,436	\$ 10,134	\$ (698)	\$ 67,561	15.00%

These schedules are intended to show information for ten years. Additional years will be displayed as they become available.

Notes to Required Supplementary Information For the Years Ended June 30, 2019 and 2018

There are no factors that affect trends in the amounts reported, such as change in benefit terms or assumptions. With only five years reported in the required supplementary information, there is no additional information to include in notes. Information, if necessary, can be obtained from the CPRB Comprehensive Annual Financial Report.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Board of Governors
Blue Ridge Community and Technical College
Martinsburg, West Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Blue Ridge Community and Technical College (the College) (a component unit of the State of West Virginia), as of and for the year end June 30, 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated October 1, 2019. The financial statements of the Blue Ridge Community and Technical College Foundation, Inc. were not audited in accordance with *Government Auditing Standards* and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Blue Ridge Community and Technical College Foundation, Inc.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
