Dear Senator Rucker and Delegate Ellington,

On behalf of the West Virginia Council for Community and Technical College Education, I am pleased to submit the attached report outlining collaborative agreements between West Virginia community and technical colleges and federally registered apprenticeship programs as outlined in WV State Code §18B-3C-16.

West Virginia community and technical colleges are actively participating in registered apprenticeship programs by providing additional skills training and educational opportunities such as an Occupational Development Associate Degree in Applied Science. This degree applies college credit to current USDOL Registered Apprenticeship training and adds community college components to achieve a degree.

Please do not hesitate to contact me if you have any questions regarding this report.

Sincerely,

Sarah Armstrong Tucker, Ph.D.  
Chancellor
