

WEST VIRGINIA UPWARD BOUND MATH + SCIENCE

Serving Students at John Marshall
and Weir High Schools

ABOUT:

Upward Bound Math Science is part of the federally funded TRIO programs that prepares students for success in higher education. The program provides students with academic enrichment opportunities, especially in the Math and Science fields, college and job site visits, financial aid and career counseling, summer programming, and much more! Students participate in school year and summer components upon entry to the program. All services are **FREE** and students receive stipends for their participation.
