INDEPENDENT AUDITOR'S REPORT

Board of Governors Eastern West Virginia Community and Technical College Moorefield, West Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities of Eastern West Virginia Community and Technical College (the College), a component unit of the West Virginia Council for Community and Technical College Education, as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the College, as of June 30, 2025 and 2024, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 2 to the financial statements, during fiscal year 2025, the College implemented *Governmental Accounting Standards Board* Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
 or error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the College's ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 12, the schedule of proportionate share of the net OPEB liability (asset), schedule of OPEB contributions, and related footnote on pages 39 through 41 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2025, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Charleston, West Virginia September 30, 2025

Seettle + Stalnaker, PUC

Overview of the Financial Statements and Financial Analysis

The Governmental Accounting Standards Board (GASB) issued directives for presentation of college and university financial statements which were adopted in Fiscal Year 2002 by Eastern West Virginia Community and Technical College (Eastern or the College). The previous reporting format presented financial balances and activities by fund groups. The current format places emphasis on the overall economic resources of the College.

The management's discussion and analysis of the College's financial statements provides an overview of the College's financial activities for the fiscal years ended June 30, 2025, 2024, and 2023. Management has prepared the financial statements and the related footnote disclosures along with this discussion and analysis. Responsibility for the completeness and fairness of this information rests with the College's management.

Using This Report

The College's basic financial statements are designed to emulate corporate presentation models whereby all College activities are consolidated into one total. The focus of the Statement of Net Position is to present the College's financial position as of a point in time. This statement combines current financial resources (short-term spendable resources) with capital assets and other long-term resources. The Statement of Revenues, Expenses, and Changes in Net Position emphasizes the change in net position over the year to indicate whether there has been improvement or erosion of the College's financial health.

The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position

One of the most important questions asked about the College's finances is, "Is the College as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position report information on the College as a whole and on its activities in a way that helps answer this question. The relationship between revenues and expenses may be thought of as the College's operating results.

These two statements report the College's net position and the changes that occur in net position during the year. You can think of the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources as one way to measure the College's financial health, or financial position. Over time, increases or decreases in the College's net position is one indicator of whether its financial health is improving or deteriorating.

You will need to consider many other nonfinancial factors, such as the trend in College recruiting, student retention, enrollment growth, academic or workforce programs created or expanded during the year, and the strength of the instructional services, to accurately assess the overall health of the College. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

From the data presented, readers of the Statement of Net Position are able to determine the availability of net position (assets plus deferred outflows minus liabilities minus deferred inflows) for expenditure to continue the operations of the College. They are also able to determine how much the College owes vendors and employees.

Net position is divided into three major categories. The first category, net investment in capital assets, provides the College's equity in buildings, equipment, and land owned by the College. The next net position category is restricted net position, which is divided into two categories, nonexpendable and expendable. Nonexpendable restricted net position is for the Endowment Program where funds are invested and the earnings are available for expenditure but the original investment (corpus) is not. The College does not currently have nonexpendable restricted net position since all funds of this nature would generally be directed to The Eastern West Virginia Community and Technical College Foundation, Inc. Expendable restricted net position is available for expenditure by the College but has a specific purpose (i.e. time or purpose restrictions). The final category is unrestricted net position. Unrestricted net position is available to the College for any lawful purpose of the College.

Statement of Net Position

The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of the College. The purpose of the Statement of Net Position is to present to the readers of the financial statements a fiscal snapshot of the College. The Statement of Net Position presents end-of-year data concerning assets (current and noncurrent), deferred outflows of resources, liabilities (current and noncurrent), deferred inflows of resources, and net position (assets plus deferred outflows of resources minus liabilities minus deferred inflows of resources). The difference between current and noncurrent assets and liabilities are discussed in the footnotes to the financial statements.

Condensed Schedules of Net Position June 30,

	2025 2024		2024		2023
Assets:	 				
Current assets	\$ 4,479,826	\$	3,848,913	\$	3,328,605
Capital assets	9,570,922		9,911,516		9,880,826
Noncurrent assets	394,818		377,943		279,266
Total assets	 14,445,566		14,138,372		13,488,697
Deferred outflows of resources:	27,037		23,085		67,986
Liabilities:					
Current liabilities	973,011		919,782		733,320
Noncurrent liabilities	1,369,109		1,422,337		1,507,774
Total liabilities	 2,342,120		2,342,119		2,241,094

Net position:					
Net investment in capital assets	8,237,589		8,511,516		8,414,159
Restricted-expendable	416,721		340,019		283,785
Unrestricted	 3,463,516		2,896,487		2,474,306
Total net position	\$ 12,117,826	\$	11,748,022	\$	11,172,250

Financial Highlights:

Assets

<u>Current assets</u> as of June 30, 2025 increased \$630,913 from June 30, 2024. Total current cash increased \$481,865, which includes \$101,669 increase in cash relating to unearned grant funds. Accounts receivable increased \$147,100 from June 30, 2024 to June 30, 2025 primarily due to the timing of grant funded reimbursements.

<u>Capital assets, net of accumulated depreciation</u> decreased \$340,594 from June 30, 2024 to June 30, 2025 as a result of asset depreciation exceeding new capital acquisition purchases.

• <u>Deferred outflows of resources</u> represents the change in the actuarial assumptions that affected Other Post Employee Benefits (OPEB). This balance increased by \$3,952 from June 30, 2024.

<u>Liabilities</u>

Current liabilities as of June 30, 2025 increased by \$53,229 from the previous year. Accounts payable shows an increase of \$26,496 from June 30, 2024 to June 30, 2025, while funds due to the Commission/Council and other State agencies decreased \$30,186. Accrued liabilities and deposits increased \$7,078 from the previous year. Unearned revenue (grant funds received but not expended) increased by \$17,384 from June 30, 2024 to June 30, 2025. This increase includes new state grant funds received at year-end but not expended at June 30, 2025. New for fiscal year 2025 is reporting the current liability for the expected one-year use of employee sick leave balances. This liability is \$1,438 at June 30, 2025 and has a minimal effect on current liabilities. This amount is included in the current portion of the compensated absences liability, which increased \$32,457 from the previous year.

Noncurrent (long-term liabilities) includes the long-term portion of compensated absences (liability for employees' annual leave balances in excess of one year's annual leave rate at June 30) and the West Virginia Development Office loan balance. Overall, noncurrent liabilities decreased \$53,228 from June 30, 2024 to June 30, 2025. This decrease represents a \$13,439 increase in the noncurrent portion of the compensated absences liability and a \$66,667 decrease in the West Virginia Development Office loan balance, which is \$1,266,665 at June 30, 2025.

• <u>Deferred inflows of resources</u> represents the change in the actuarial assumptions that affected OPEB. This balance decreased by \$58,659 from June 30, 2024 to June 30, 2025.

Net position

Net investment in capital assets decreased \$273,927 between June 30, 2024 and June 30, 2025, which is the result of capital asset replacements being less than depreciable assets.

<u>Restricted for - expendable</u> is the net difference in current assets and current liabilities for the capital fee portion of tuition funds. This amount increased \$76,702 between June 30, 2024 and June 30, 2025. These funds are restricted primarily for capital projects.

<u>Unrestricted net position</u> increased by \$567,029 as of June 30, 2025 in comparison to June 30, 2024 and is primarily comprised of cash.

In total, net position as of June 30, 2025 increased by \$369,804 from June 30, 2024.

Statement of Revenues, Expenses, and Changes in Net Position

Changes in total net position as presented on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Position. The purpose of the statement is to present the revenues generated and expenses incurred by the College, both operating and nonoperating. In addition, any other revenues, expenses, gains, and losses are also reflected in this financial statement.

Operating revenues are generated by providing goods and services to the College's customers and constituencies and in the form of federally-funded and state-funded grants. Operating expenses are expenses incurred by the College in order to generate operating revenue and to carry out the mission of the College.

Nonoperating revenue is revenue earned for which goods and services are not provided. For example, state appropriations are nonoperating because the West Virginia State Legislature provides them to the College without the West Virginia State Legislature directly receiving commensurate goods and services for those revenues.

Condensed Schedules of Revenues, Expenses, and Changes in Net Position Years Ended June 30,

		2025	2024		 2023
Operating revenues	\$	3,589,574	\$	3,113,705	\$ 3,016,400
Operating expenses	-	6,808,449		6,120,966	 5,979,117
Operating loss		(3,218,875)		(3,007,261)	(2,962,717)
Nonoperating revenues		3,540,228		3,251,730	 3,208,851
Change in net position before other revenues, expenses, gains, or losses		321,353		244,469	246,134
Donated equipment		-		5,541	-
Payments made and expenses incurred on behalf of the College		48,451		325,762	 22,095
Change in net position		369,804		575,772	268,229
Net position - beginning of year		11,748,022		11,172,250	 10,904,021
Net position - end of year	\$	12,117,826	\$	11,748,022	\$ 11,172,250

Financial Highlights:

Operating revenues increased by \$475,869 in fiscal year 2025 as compared to fiscal year 2024. Net tuition and fee revenue increased in 2025 by \$163,310. The academic tuition rate was increased from \$172 per credit hour to \$188 per credit hour in fiscal year 2025. In addition, the College saw an increase in academic student level, thus providing an increase in tuition and fee revenue. The scholarship allowance represents federal financial Pell funds paid to the College for tuition and fees. This amount increased \$211,745 in 2025 as compared to 2024 as a result of the increased tuition rate and increase in student level. Revenue from grants and contracts reflected an increase of \$312,302 during the fiscal year as compared to the previous fiscal year. Grants and contracts are cyclical in nature and cannot be relied upon for sustained revenue from one year to the next.

Operating expenses in fiscal year 2025 increased by \$687,483 from fiscal year 2024. Salaries and wages netted an \$83,000 increase, which includes a 3.3% raise in salaries. Salary raises were primarily funded with state appropriations and grant funds. The PEIA Finance Board implemented an increase in health insurance premiums, which when netted with zero OPEB mandated contributions, resulted in \$74,000 of the \$187,680 total increase in benefits in fiscal year 2025 from fiscal year 2024. Supplies and other services combined with student financial aid - scholarships increased \$373,222 due to increased grant activity and student level.

Nonoperating revenue increased by \$288,498 in fiscal year 2025 as compared to fiscal year 2024. State appropriations decreased by \$27,493 in fiscal year 2025 as compared to fiscal year 2024. The college received \$89,653 in one-time support funds in fiscal year 2024. These funds received in fiscal year 2024 were expended in fiscal year 2025 to assist with the operating costs. Investment income decreased \$4,443 in fiscal year 2025 as compared to fiscal year 2024. Federal Pell grants increased \$315,945 in fiscal year 2025 as compared to fiscal year 2024.

Payments made and expenses incurred on behalf of the College decreased \$277,311 in fiscal year 2025 as compared to fiscal year 2024. This revenue includes the allocation of OPEB related to special funding and expenses paid by the West Virginia Council for Community and Technical College Education (the Council) for capital items funded by the Governor's Deferred Maintenance projects. Fiscal year 2024 revenue also included \$135,625 for two CDL simulators for the CDL program.

<u>The change in net position</u> increased \$369,804 from fiscal year 2024 with a June 30, 2025 net position of \$12,117,826.

Statement of Cash Flows

The final statement presented by the College is the Statement of Cash Flows. The Statement of Cash Flows presents detailed information about the cash activity of the College during the year. Another way to assess the financial health of a College is to look at the Statement of Cash Flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also helps users assess an entity's ability to generate future net cash flows, its ability to meet its obligations as they come due, and its need for external financing. For the year ended June 30, 2025, the net cash used in operating activities (approximately \$2.8 million) indicates that the College used more cash for instructional and administrative costs than it received from sources such as student tuition and certain federal and state grants.

The Statement of Cash Flows is divided into five sections.

The *first section* reflects cash inflows/outflows generated from operating activities. The *second section* reflects cash flows from noncapital financing activities. This section reflects the cash received and spent for nonoperating, noninvesting, and noncapital financing purposes. The *third section* deals with cash flows from capital financing activities. This section deals with the cash used for the acquisition and construction of capital and related items. The *fourth section* reflects the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The *fifth section* reconciles the net cash used to the operating loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

Condensed Schedules of Cash Flows Years Ended June 30,

	 2025	 2024	2023		
Cash provided by (used in):					
Operating activities	\$ (2,789,078)	\$ (2,477,851)	\$	(2,698,934)	
Noncapital financing activities	3,400,122	3,107,181		3,102,870	
Capital financing activities	(211,048)	(245,929)		(304,755)	
Investing activities	 140,909	 144,158		81,179	
Change in cash and cash equivalents	540,905	527,559		180,360	
Cash and cash equivalents - beginning of year	 3,951,857	 3,424,298		3,243,938	
Cash and cash equivalents - end of year	\$ 4,492,762	\$ 3,951,857	\$	3,424,298	

Financial Highlights:

<u>Cash flows used in operating activities</u> increased \$311,227 in fiscal year 2025 from the previous year. Cash received from student tuition and fees increased \$48,825 due to increased enrollment and tuition rates. Contracts and grants cash flows increased \$101,669. Cash used for payments to and on behalf of employees increased \$128,970 primarily due to pay raises and increased PEIA costs. Payments to suppliers decreased \$128,058, while utilities increased \$22,079. Payments for scholarships increased \$437,064 due to increased student level.

<u>Cash flows provided by noncapital financing activities</u> increased \$292,941 in fiscal year 2025 as compared to fiscal year 2024, which is largely impacted by \$315,945 increase in funds provided by Federal Pell grants.

<u>Cash flows used in capital financing activities</u> decreased in fiscal year 2025 from fiscal year 2024 by \$34,881 due to a decrease in cash used for the purchase of capital assets.

<u>Cash flows provided by investing activities</u> decreased in fiscal year 2025 from fiscal year 2024 by \$3,249. This decrease was due to reduced interest earned on investments.

Overall cash increased by \$540,905 in fiscal year 2025.

Capital Activity

The College purchased a new chiller system for the main campus in March of 2025 with deferred maintenance funds provided by the state in the amount of \$40,244 for security systems at the main campus and the Technology Center. The Council administered these funds. The College has a remaining balance in deferred maintenance funds and has started the process to upgrade some of the HVAC units at the Technology Center, which are in very poor condition.

The College was awarded \$1.4 million in federal Congressional Directed Spending appropriations for its heavy equipment operators program. Of those funds, \$550,000 will be used to purchase additional land (around 25 acres) surrounding the College main campus. That land will provide space to operate the heavy equipment program. The grant will also provide approximately \$600,000 to purchase equipment for use in the program.

The College has received a \$799,000 federal EDA grant with \$200,000 matching grant funds provided by the Council. These grant funds will allow the College to purchase approximately \$250,000 for a dump truck and a tractor trailer for the CDL program.

Economic Outlook

Nationally, college enrollment has been on the decline, driven by a shrinking pool of high school graduates and more students choosing to enter the workforce rather than pursue higher education. This trend is projected to intensify in 2026. In contrast, the College has seen a rebound in enrollment, with fall 2025 surpassing fall 2024 and reaching the highest level since 2017. Total enrollment for fall 2025 as of September 22, 2025 was 588 students, with early entrance participation remaining consistent with the previous year.

The College launched a new LPN-to-RN hybrid degree program in spring 2025, which filled all available seats. Due to high interest and the strong demand for registered nurses, the institution is exploring options to expand capacity in this program. Looking ahead, the College will introduce a new Academic Certificate in Artificial Intelligence in spring 2026. Start-up funding for this program was secured through a \$179,000 grant written by the President.

The President is also leading a comprehensive evaluation of all academic programs to assess long-term viability and sustainability. This review will compare enrollment trends with program costs to measure overall efficiency.

Through ongoing analysis of cost structures, program viability, and strategies to reduce overhead while improving effectiveness, the College demonstrates a strong outlook marked by growth and a commitment to operating efficiently for maximum impact.

Contacting the College's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of Eastern West Virginia Community and Technical College and to show the College's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer at Eastern West Virginia Community and Technical College, 316 Eastern Drive, Moorefield, West Virginia 26836 or call (304) 434-8000.

The Accompanying Notes Are An Integral Part Of These Financial Statements

NOTE 1 - ORGANIZATION

Eastern West Virginia Community and Technical College (the College) is governed by the Eastern West Virginia Community and Technical College Board of Governors (the Board). The Board was established by Senate Bill 448.

Powers and duties of the Board include, but are not limited to, the power to determine, control, supervise, and manage the financial, business, and educational policies and affairs of the College under its jurisdiction; the duty to develop a master plan for the College; the power to prescribe the specific functions and College's budget request; the duty to review, at least every five years, all academic programs offered at the College; and the power to fix tuition and other fees for the different classes or categories of students enrolled at the College.

Senate Bill 448 also gives the West Virginia Council for Community and Technical College Education (the Council) the responsibility of developing, overseeing, and advancing the State of West Virginia (the State) public policy agenda as it relates to community and technical college education.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the College have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by Governmental Accounting Standards Board (GASB) standards. The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the College's assets, liabilities, deferred outflows and inflows of resources, net position, revenues, expenses, changes in net position, and cash flows.

Reporting Entity - The College is a blended component unit of the West Virginia Higher Education Fund and represents separate funds of the State that are not included in the State's general fund. The College is a separate entity, which, along with all State institutions of higher education, the Council, and the West Virginia Higher Education Policy Commission (the Commission, which includes West Virginia Network for Educational Telecomputing (WVNET)) forms the Higher Education Fund of the State. The Higher Education Fund is considered a component unit of the State, and its financial statements are discretely presented in the State's annual comprehensive financial report.

The accompanying financial statements present all funds under the authority of the College. The basic criterion for inclusion in the accompanying financial statements is the exercise of oversight responsibility derived from the College's ability to significantly influence operations and accountability for fiscal matters of related entities. A related foundation and another affiliate of the College are not part of the College reporting entity and are not included in the accompanying financial statements since the College has no ability to designate management, cannot significantly influence operations of these entities, and is not accountable for the fiscal matters of these entities under GASB.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial Statement Presentation - GASB establishes standards for external financial reporting for public colleges and universities and requires that financial statements be presented to focus on the College as a whole. Net position is classified into four categories according to external donor restrictions or availability of assets for satisfaction of College obligations. The College's net position is classified as follows:

Net investment in capital assets - This represents the College's total investment in capital assets, net of accumulated depreciation and outstanding debt obligations related to those capital assets. To the extent that debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position - expendable - This includes resources the College is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Restricted net position - nonexpendable - This includes endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. The College does not have any restricted nonexpendable net position at June 30, 2025 or 2024.

Unrestricted net position - Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services of educational activities. These resources are used for transactions relating to the educational and general operations of the College, and may be used at the discretion of the Board to meet current expenses for any purpose.

Basis of Accounting - For financial reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been prepared on the accrual basis of accounting with a flow of economic resources measurement focus. Revenues are reported when earned, and expenses are incurred when materials or services are received.

Cash and Cash Equivalents - For purposes of the statements of net position, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash and cash equivalent balances on deposit with the State of West Virginia Treasurer's Office (the State Treasurer) are pooled by the State Treasurer with other available funds of the State for investment purposes by the West Virginia Board of Treasury Investments (BTI). These funds are transferred to the BTI, and the BTI is directed by the State Treasurer to invest the funds in specific external investment pools in accordance with West Virginia Code, policies set by the BTI, and by provisions of bond indentures and trust agreements, when applicable. Balances in the investment pools are recorded at fair value or amortized cost, which approximates fair value. Fair value is determined by a third-party pricing service based on asset portfolio pricing models and other sources in accordance with GASB. The BTI was established by the West Virginia State Legislature and is subject to oversight by the West Virginia State Legislature. Fair value and investment income are allocated to participants in the pools based upon the funds that have been invested. The amounts on deposit are available for immediate withdrawal or on the first day of each month for the WV Short-Term Bond Pool and, accordingly, are presented as cash and cash equivalents in the accompanying financial statements.

The BTI maintains the Consolidated Fund investment fund, which consists of investment pools and participant-directed accounts, three of which the College may invest in. These pools have been structured as multiparticipant variable asset funds to reduce risk and offer investment liquidity diversification to the Fund participants. Funds not required to meet immediate disbursement needs are invested for longer periods. A more detailed discussion of the BTI's investment operations pool can be found in its annual audited financial report. A copy of those annual reports can be obtained from the following address: 315 70th Street SE, Charleston, West Virginia 25304 or http://wvbti.org.

Permissible investments for all agencies include those guaranteed by the United States of America, its agencies and instrumentalities (U.S. government obligations); corporate debt obligations, including commercial paper, which meet certain ratings; certain money market funds; repurchase agreements; reverse repurchase agreements; asset-backed securities; certificates of deposit; state and local government securities; and other investments. Other investments consist primarily of investments in accordance with the Linked Deposit Program, a program using financial institutions in West Virginia to obtain certificates of deposit, loans approved by the Legislature, and any other program investments authorized by the Legislature.

Appropriations Due from Primary Government - For financial reporting purposes, appropriations due from the State are presented separate from cash and cash equivalents, as amounts are not specific deposits with the State Treasurer but are obligations of the State.

Allowance for Doubtful Accounts - It is the College's policy to provide for future losses on uncollectible accounts, contracts, and grants receivable based on an evaluation of the underlying account, contract, and grant balances; the historical collectibility experienced by the College on such balances; and such other factors that, in the College's judgment, require consideration in estimating doubtful accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Noncurrent Cash, Cash Equivalents, and Investments - Cash, cash equivalents, and investments that are (1) externally restricted to make debt service payments and long-term loans to students or to maintain sinking or reserve funds, (2) to purchase capital or other noncurrent assets or settle long-term liabilities, or (3) permanently restricted net position are classified as noncurrent assets in the accompanying statements of net position.

Capital Assets - Capital assets include land, buildings/improvements, construction in progress, and furniture and equipment. Capital assets are stated at cost at the date of acquisition or construction or fair market value at the date of donation in the case of gifts. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings and three to 10 years for furniture and equipment. The College's capitalization threshold is \$1,000.

Unearned Revenue - Revenues for programs or activities to be conducted primarily in the next fiscal year are classified as unearned revenue.

Compensated Absences and Other Postemployment Benefits (OPEB) - GASB provides for the measurement, recognition, and display of OPEB expenditures, assets, and liabilities, including applicable note disclosures and required supplementary information. During fiscal year 2006, House Bill No. 4654 was established to create a trust fund for postemployment benefits for the State. Effective July 1, 2007, the College was required to participate in this multiple-employer cost-sharing plan, the West Virginia Retiree Health Benefit Trust Fund, sponsored by the State. Details regarding this plan and its stand-alone financial statements can be obtained by contacting the West Virginia Public Employees Insurance Agency (PEIA), 601 57th Street SE, Charleston, West Virginia 25304 or https://peia.wv.gov.

GASB requires entities to accrue for employees' rights to receive compensation for vacation and/or sick leave that has been earned, accumulated, and is anticipated to be used, paid out, or otherwise settled using current pay rates. The College's full-time employees earn up to two vacation leave days for each month of service and are entitled to compensation for accumulated, unpaid vacation leave upon termination. The College's full-time employees earn up to one-and-a-half sick leave days for each month of service and unpaid sick leave is generally forfeited upon termination; however, employees hired prior to July 1, 2001 can convert unpaid sick leave to OPEB premiums upon termination.

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the West Virginia Retiree Health Benefit Trust Fund (RHBT). For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 7 for further discussion.

The estimated expense and expense incurred for the vacation leave or OPEB benefits are recorded as a component of benefits expense in the statements of revenues, expenses, and changes in net position.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows of Resources - Consumption of net position by the College that is applicable to a future fiscal year is reported as a deferred outflow of resources on the statements of net position.

Deferred Inflows of Resources - An acquisition of net position by the College that is applicable to a future fiscal year is reported as a deferred inflow of resources on the statements of net position.

Risk Management - The State's Board of Risk and Insurance Management (BRIM) provides general and property and casualty coverage to the College and its employees. Such coverage may be provided to the College by BRIM through self-insurance programs maintained by BRIM or policies underwritten by BRIM that may involve experience-related premiums or adjustments to BRIM.

BRIM engages an independent actuary to assist in the determination of its premiums so as to minimize the likelihood of premium adjustments to the College or other participants in BRIM's insurance programs. As a result, management does not expect significant differences between the premiums the College is currently charged by BRIM and the ultimate cost of that insurance based on the College's actual loss experience. In the event such differences arise between estimated premiums currently charged by BRIM to the College and the College's ultimate actual loss experience, the difference will be recorded as the change in estimate becomes known.

In addition, through its participation in PEIA and with third-party insurers, the College has obtained health, life, prescription drug coverage, and coverage for job-related injuries for its employees. In exchange for payment of premiums to PEIA and the third-party insurer, the College has transferred its risks related to health, life, prescription drug coverage, and job-related injuries.

Classification of Revenues - The College has classified its revenues according to the following criteria:

Operating revenues - Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances; (2) sales and services of auxiliary enterprises, net of scholarship discounts and allowances; (3) most federal, state, local, and nongovernmental grants and contracts; and (4) sales and services of educational activities.

Nonoperating revenues - Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenues that are defined as nonoperating revenues by GASB, such as state appropriations, federal Pell grants, investment income, and sale of capital assets (including natural resources).

Other revenues - Other revenues consist primarily of capital grants and gifts and payments made on behalf of the College.

Use of Restricted Net Position - The College has not adopted a formal policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. Generally, the College attempts to utilize restricted net position first when practicable.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Federal Financial Assistance Programs - Federal Direct Student Loan receivables are not included in the College's statements of net position, as the loans are repayable directly to the U.S. Department of Education. During the years ended June, 30 2025 and 2024, the College received and disbursed approximately \$137,000 and \$212,000, respectively, under the Federal Direct Student Loan Program on behalf of the U.S. Department of Education, which is not included as revenue and expense on the statements of revenues, expenses, and changes in net position.

The College also distributes other student financial assistance funds on behalf of the federal government to students under the federal Pell Grant and Supplemental Educational Opportunity Grant programs. The activity of these programs is recorded in the accompanying financial statements. During the years ended June 30, 2025 and 2024, the College received and disbursed approximately \$988,000 and \$668,000, respectively, under these federal student aid programs.

Scholarship Allowances - Student tuition and fee revenues and certain other revenues from students are reported net of scholarship allowances in the statements of revenues, expenses, and changes in net position. Scholarship allowances represent the difference between the stated charge for goods and services provided by the College and the amount that is paid by students and/or third parties making payments on the student's behalf.

Government Grants and Contracts - Government grants and contracts normally provide for the recovery of direct and indirect costs, subject to audit. The College recognizes revenue associated with direct costs as the related costs are incurred. Recovery of related indirect costs is generally recorded at fixed rates negotiated for a period of one to five years.

Income Taxes - The College is exempt from income taxes, except for unrelated business income, as a governmental instrumentality under federal income tax laws and regulations of the Internal Revenue Service.

Cash Flows - Any cash and cash equivalents, including those escrowed, restricted for noncurrent assets, or in funded reserves, have been included as cash and cash equivalents for the purpose of the statements of cash flows.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - Investments are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain securities, it is reasonably possible that changes in risk and values will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Newly Adopted Statements Issued by GASB - The College implemented GASB Statement No. 101, *Compensated Absences*, which is effective for fiscal years beginning after December 15, 2023. This Statement modifies the criteria requiring a liability for compensated absences to be recognized. Under this Statement, a liability must be recognized for leave that has not been used, or leave that has been used but not yet paid in cash or settled through noncash means. Furthermore, the liability for leave that has not been used is recognized if the leave is attributed to services already rendered, that accumulates, and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. If the leave is considered more likely than not to be settled through conversion to a defined benefit post-employment benefit, it should not be included in the liability for compensated absences. This Statement also specifies certain types of benefits where the liability is not recognized until leave commences or where the liability is not recognized until the leave is used. The Statement also provides guidance for measuring the liability and modifies the disclosure requirements, allowing for disclosure of only the net change in the liabilities. The adoption of this Statement did not have a significant impact on the College's financial statements.

The College implemented GASB Statement No. 102, Certain Risk Disclosures, which is effective for fiscal years beginning after June 15, 2024. The objective of this Statement is to provide financial statement users with information about risks due to concentrations or constraints common in a governmental environment. The Statement requires an assessment of whether any concentrations or constraints increase the government's vulnerability to significant impacts, and whether events associated with concentrations and/or constraints have occurred or are more likely than not to occur within one year of issuance of the financial statements. Further, additional detailed disclosures may be required in certain situations. The adoption of this Statement did not have a significant impact on the College's financial statements.

Recent Statements Issued by GASB - GASB has issued Statement No. 103, Financial Reporting Model Improvements, which is effective for fiscal years beginning after June 15, 2025. The focus of the improvements is to the presentation of (1) management's discussion and analysis; (2) unusual or infrequent items; (3) proprietary fund statement of revenues, expenses, and changes in net position; (4) major component unit information; and (5) budgetary comparison information. The Statement aims to improve financial reporting. It clarifies that management's discussion and analysis should be limited to only topics in the existing sections and stresses that the detailed analyses section should provide clear explanation of why balances or results changed rather than simply presenting the amounts of the change. The descriptions of unusual or infrequent items will make it clearer which items need to be separately reported. The definitions of operating revenues and expenses and of nonoperating revenues and expenses will replace accounting policies that vary from government to government, to improve comparability. The changes to presentation of major component unit information and budgetary comparison information are also geared towards enhancing comparability. The College has not yet determined the effect that the adoption of GASB Statement No. 103 may have on its financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB has also issued Statement No. 104, *Disclosure of Certain Capital Assets*, which is effective for fiscal years beginning after June 15, 2025. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets, subscription-based information technology arrangement assets, and right-to-use assets should be disclosed separately by major class of underlying asset in the capital assets note disclosures. In addition, this Statement requires intangible assets other than those three types to be disclosed separately by major class. This Statement also requires additional disclosures for capital assets held for sale, including if (1) the government has decided to pursue the sale of the capital asset, and (2) it is probable that the sale will be finalized within one year of the financial statement date. Governments should evaluate these assets each reporting period and disclose the ending balance of capital assets held for sale, with separate disclosures for historical cost and accumulated depreciation by major class of asset, and the carrying amount of debt for which the capital assets held for sale are pledged as collateral for each major class of asset. The College has not yet determined the effect that the adoption of GASB Statement No. 104 may have on its financial statements.

Reclassification of Prior Year Statements - Certain items previously reported have been reclassified to conform to the current year's presentation. The reclassifications had no effect on the change in net position or total net position.

NOTE 3 - CASH AND CASH EQUIVALENTS

The composition of cash and cash equivalents at June 30, 2025 and 2024, is as follows:

	2025						
		Current	N	oncurrent	Total		
Cash on deposit with the Treasurer/BTI	\$	3,798,655	\$	388,208	\$	4,186,863	
Cash in bank		305,599		-		305,599	
Cash on hand		300		_		300	
	\$	4,104,554	\$	388,208	\$	4,492,762	
				2024			
		Current	N	oncurrent		Total	
Cash on deposit with the Treasurer/BTI	\$	3,373,256	\$	329,168	\$	3,702,424	
Cash in bank		249,133		-		249,133	
Cash on hand		300		_		300	
	\$	3,622,689	\$	329,168	\$	3,951,857	

Cash held by the Treasurer includes \$388,208 and \$329,168 of restricted cash at June 30, 2025 and 2024, respectively.

NOTE 3 - CASH AND CASH EQUIVALENTS (CONTINUED)

The combined carrying amount of cash in the bank at June 30, 2025 and 2024, was \$305,599 and \$249,133, respectively, as compared with the combined bank balance of \$830,189 and \$258,309 for the years ended June 30, 2025 and 2024, respectively. The difference is primarily caused by outstanding checks and items in transit. The bank balances were covered by federal depository insurance as noted below or were collateralized by securities held by the State's agent. Regarding federal depository insurance, accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000.

Amounts with the State Treasurer were \$4,186,863 and \$3,702,424 as of June 30, 2025 and 2024, respectively. Of these amounts, \$3,080,422 and \$2,638,260 were invested in the WV Money Market Pool and the WV Short Term Bond Pool as of June 30, 2025 and 2024, respectively. The remainder of the cash held with the State Treasurer was not invested as of June 30, 2025 and 2024.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The following table provides information on the Standard & Poor's rating of the investment pools as of June 30:

		2025			2024		
			S & P			S & P	
External Pool	Car	Carrying Value		ng Carrying Value		Rating	
WV Money Market Pool	\$	3,009,695	AAAm	\$	2,578,470	AAAm	
WV Short Term Bond Pool	\$	70,727	Not Rated	\$	59,790	Not Rated	

A Fund rated "AAAm" has extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. "AAAm" is the highest principal stability fund rating assigned by Standard & Poor's.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. All the amounts with the State Treasurer are subject to interest rate risk. The following table provides information on the weighted-average maturities for the WV Money Market Pool:

	2025				2024		
			WAM			WAM	
External Pool	Car	Carrying Value (Days)		Car	rying Value	(Days)	
WV Money Market Pool	\$	3,009,695	41	\$	2,578,470	36	

NOTE 3 - CASH AND CASH EQUIVALENTS (CONTINUED)

The following table provides information on the effective duration for the WV Short Term Bond Pool:

		2025			2024	
			Effective	'		Effective
			Duration			Duration
External Pool	Carry	ying Value	(Days)	Carry	ying Value	(Days)
MAKEL AT BUILDING		70 707	627		50.700	6.45
WV Short Term Bond Pool	Ş	70,727	637	Ş	59,790	645

Other Investment Risks - Other investment risks include concentration of credit risk, custodial credit risk, and foreign currency risk. None of the BTI's Consolidated Fund's investment pools or accounts is exposed to these risks as described below.

Custodial Credit Risk - Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the College will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Repurchase agreements are required to be collateralized by at least 102% of their value, and the collateral is held in the name of BTI. The BTI or its agent does not release cash or securities until the counterparty delivers its side of the transaction.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a Consolidated Fund pool or account's investment in a single corporate issuer. The BTI investment policy prohibits those pools and accounts permitted to hold corporate securities from investing more than 5% of their assets in any one corporate name or one corporate issue.

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The College has no securities with foreign currency risk.

NOTE 4 - ACCOUNTS RECEIVABLE

Accounts receivable as of June 30, 2025 and 2024, are as follows:

	2025		 2024
Student tuition and fees, net of allowance for doubtful of \$638,907 and \$533,546 in 2025 and 2024, respectively. Amount due from the Commission/Council Amount due from the federal government Other accounts receivable	\$	120,911 106,117 57,631 88,665	\$ 68,882 99,631 42,760 14,951
	\$	373,324	\$ 226,224

NOTE 5 - CAPITAL ASSETS

A summary of capital asset transactions for the College for the years ended June 30, 2025 and 2024, is as follows:

The College maintains certain collections of inexhaustible assets to which no value can be practically determined. Accordingly, such collections are not capitalized or recognized for financial statement purposes. Such collections include contributed works of art that are held for exhibition. These collections are neither disposed of for financial gain nor encumbered in any means.

NOTE 6 - LONG-TERM LIABILITIES

A summary of long-term obligation transactions for the College for the years ended June 30, 2025 and 2024, is as follows:

			2025		
	Beginning <u>Balance</u>	<u>Additions</u>	Reductions	Ending <u>Balance</u>	Current <u>Portion</u>
Compensated absences Funds due to West Virginia	\$ 226,926	\$ 45,896	\$ -	\$ 272,822	\$ 170,378

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS

As related to GASB 75, following are the College's net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, revenues, and the OPEB expense and expenditures for the fiscal years ended June 30, 2025 and 2024:

	2025		 2024
		(4.460)	(42.620)
Net OPEB liability (asset)	\$	(1,463)	\$ (43,628)
Deferred outflows of resources		27,037	23,085
Deferred inflows of resources		12,657	71,316
Revenues		2,477	(31,496)
OPEB expense		(4,882)	(129,529)
Contributions made by the College		13,086	1,390

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Plan Description

The West Virginia Other Postemployment Benefit (OPEB) Plan (the Plan) is a cost-sharing, multi-employer, defined benefit other postemployment benefit plan and covers the retirees of State agencies, colleges and universities, county boards of education, and other government entities as set forth in the West Virginia Code. Financial activities of the Plan are accounted for in the West Virginia Retiree Health Benefit Trust Fund (RHBT), a fiduciary fund of the State established July 1, 2006 as an irrevocable trust. The Plan is administered by a combination of the West Virginia Public Employees Insurance Agency (PEIA) and the RHBT staff. Plan benefits are established and revised by PEIA and the RHBT management with the approval of the PEIA Finance Board. The plan provides medical and prescription drug insurance, as well as life insurance, benefits to certain retirees of State agencies, colleges and universities, county boards of education, and other government entities who receive pension benefits under the PERS, STRS, TDCRS, TIAA-CREF, Plan G, Troopers Plan A, or Troopers Plan B pension systems, as administered by the West Virginia Consolidated Public Retirement Board (CPRB). The plan is closed to new entrants.

The primary sources of revenue are plan members and employer contributions. Members' contributions are recognized in the period in which the contributions are due. Employer contributions and related receivables to the trust are recognized pursuant to a formal commitment from the employer or statutory or contractual requirement, when there is a reasonable expectation of collection. Benefits and refunds are recognized when due and payable.

Benefits Provided

The Plan provides the following benefits:

- Medical and prescription drug insurance
- Life insurance

The medical and prescription drug insurance is provided through two options:

- Self-Insured Preferred Provider Benefit Plan primarily for non-Medicare-eligible retirees and spouses
- External Managed Care Organizations primarily for Medicare-eligible retirees and spouses

Contributions

Employer contributions from the RHBT billing system represent what the employer was billed during the respective year for its portion of the pay-as-you-go (paygo) premiums, retiree leave conversion billings, and other matters, including billing adjustments.

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Paygo premiums are established by the PEIA Finance Board annually. All participating employers are required by statute to contribute this premium to the RHBT at the established rate for every active policyholder per month. In fiscal year 2024, there was no subsidization of retiree healthcare from paygo premiums and PEIA active employers were not billed paygo. The prior year paygo rate for fiscal year 2023 was \$70 per active health policy per month.

Members retired before July 1, 1997 pay retiree healthcare contributions at the highest sponsor subsidized rate, regardless of their actual years of service. Members retired after July 1, 1997 or hired before June 30, 2010 pay a subsidized rate depending on the member's years of service. Members hired on or after July 1, 2010 pay retiree healthcare contributions with no sponsor provided implicit or explicit subsidy.

Retiree leave conversion contributions from the employer depend on the retiree's date of hire and years of service at retirement as described below:

- Members hired before July 1, 1988 may convert accrued sick or annual leave days into 100% of the required retiree healthcare contribution.
- Members hired from July 1, 1988 to June 30, 2001 may convert accrued sick or annual leave days into 50% of the required retiree healthcare contribution.

The conversion rate is two days of unused sick and annual leave days per month for single healthcare coverage and three days of unused sick and annual leave days per month for family healthcare coverage.

The College's contributions to the OPEB plan for the years ended June 30, 2025, 2024, and 2023, were \$13,086, \$1,390, and \$28,450, respectively.

Assumptions

The June 30, 2025 OPEB liability (asset) for financial reporting purposes was determined by an actuarial valuation as of June 30, 2023 and a measurement date of June 30, 2024. The following actuarial assumptions were used and applied to all periods included in the measurement, unless otherwise specified:

- Inflation rate: 2.50%.
- Salary increase: Specific to the OPEB covered group. Ranging from 2.75% to 5.18%, including inflation.
- Investment rate of return: 7.40%, net of OPEB plan investment expense, including inflation.
- Healthcare cost trend rates: Trend rates for pre-Medicare and Medicare per capita costs of 5.0% medical and 8.0% drug. The trends increase over four years to 7.0% and 9.5%, respectively. The trends then decrease linearly for 5 years until ultimate trend rate of 4.50% is reached in plan year end 2033.
- Actuarial cost method: Entry age normal cost method.

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

- Amortization method: Level percentage of payroll over a 20-year closed period as of June 30, 2017.
- Wage inflation: 2.75%.
- Retirement age: Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the June 30, 2020 actuarial valuation.
- Aging factors: Based on the 2013 SOA Study "Health Care Costs From Birth to Death".
- Expenses: Health administrative expenses are included in the development of the per capita claims cost. Operating expenses are included as a component of the annual expense.
- Mortality post-retirement: Pub-2010 General Healthy Retiree Mortality Tables projected with MP-2021 and scaling factors of 100% for males and 108% for females.
- Mortality pre-retirement: Pub-2010 General Employee Mortality Tables projected with MP-2021 and scaling factors of 100% for males and 100% for females.

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period July 1, 2015 – June 30, 2020.

The actuarial valuation as of June 30, 2023, reflects updates to the following healthcare related assumptions, which include per capita claim costs, healthcare trend rates, coverage and continuance, and participation rates.

The long-term expected rate of return of 7.40% on OPEB plan investments was determined by a combination of an expected long-term rate of return of 7.60% for long-term assets invested with the WV Investment Management Board and an expected short-term rate of return of 2.75% for assets invested with the BTI.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which estimates of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. Target asset allocations, capital market assumptions (CMA), and forecast returns were provided by the Plan's investment advisors, including the West Virginia Investment Management Board (WV-IMB). The projected nominal return for the Money Market Pool held with the BTI was estimated based on the WV-IMB assumed inflation of 2.50% plus a 25 basis point spread.

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The target allocation and estimates of annualized long-term expected returns assuming a 10-year horizon as of June 30, 2024 and 2023 are summarized below:

1	20	2024
June	3U,	2024

Asset Class	Asset Class Target Allocation	
Equity	45.0%	7.4%
Fixed income	15.0%	3.9%
Private credit and income	6.0%	7.4%
Private equity	12.0%	10.0%
Real estate	12.0%	7.7%
Hedge funds	10.0%	4.5%

June 30, 2023

Asset Class	Target Allocation	Long-term Expected Real Return			
Equity	45.0%	7.4%			
Fixed income	15.0%	3.9%			
Private credit and income	6.0%	7.4%			
Private equity	12.0%	10.0%			
Real estate	12.0%	7.2%			
Hedge funds	10.0%	4.5%			

Single discount rate. The discount rate used to measure the total OPEB liability (asset) was 7.40% for fiscal years 2025 and 2024. This single discount rate was based on the expected rate of return on OPEB plan investments of 7.40% for those fiscal years. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made in accordance with the prefunding and investment policies. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability (asset).

Sensitivity of the net OPEB liability (asset) to changes in the discount rate. The following presents the College's proportionate share of the net OPEB liability (asset) as of June 30, 2025 and 2024 calculated using a discount rate that is one percentage point lower (6.40%) or one percentage point higher (8.40%) than the current rate (7.40%).

Net OPEB liability (asset)	1% Decrease	Current Discount Rate	1% Increase
2025	6,398	(1,463)	(8,010)
2024	(7,382)	(43,628)	(83,381)

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Sensitivity of the net OPEB liability (asset) to changes in the healthcare cost trend rate. The following presents the College's proportionate share of the net OPEB liability (asset) as of June 30, 2025 and 2024 calculated using the healthcare cost trend rate, as well as what the College's net OPEB liability (asset) would be if it were calculated using a healthcare cost trend rate that is one percentage point lower or one percentage point higher than the current rate.

	Current Healthcare				
Net OPEB liability (asset)	1% Decrease	Cost Trend Rate	1% Increase		
_	_				
2025	(11,505)	(1,463)	10,731		
2024	(111,139)	(43,628)	36,655		

OPEB Liabilities (Assets), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The June 30, 2025 net OPEB liability (asset) was measured as of June 30, 2024, and the total OPEB liability (asset) was determined by an actuarial valuation as of June 30, 2023, rolled forward to the measurement date of June 30, 2024. The June 30, 2024 net OPEB liability (asset) was measured as of June 30, 2023, and the total OPEB liability (asset) was determined by an actuarial valuation as of June 30, 2022, rolled forward to the measurement date of June 30, 2023.

At June 30, 2025, the College's proportionate share of the net OPEB liability (asset) was \$(6,059). Of this amount, the College recognized \$(1,463) as its proportionate share on the statement of net position. The remainder of \$(4,596) denotes the College's proportionate share of net OPEB liability (asset) attributable to the special funding.

At June 30, 2024, the College's proportionate share of the net OPEB liability (asset) was \$(62,250). Of this amount, the College recognized \$(43,628) as its proportionate share on the statement of net position. The remainder of \$(18,622) denotes the College's proportionate share of net OPEB liability (asset) attributable to the special funding.

The allocation percentage assigned to each participating employer and non-employer contributing entity is based on its proportionate share of employer and non-employer contributions to OPEB for each of the fiscal years ended June 30, 2024 and 2023. Employer contributions are recognized when due. At the June 30, 2024 measurement date, the College's proportion was 0.004%, a decrease of 0.024% from its proportion of 0.028% calculated as of June 30, 2023. At the June 30, 2023 measurement date, the College's proportion was 0.028%, an increase of 0.003% from its proportion of 0.025% calculated as of June 30, 2022.

For the year ended June 30, 2025, the College recognized OPEB expense of (4,882). Of this amount, (7,359) was recognized as the College's proportionate share of OPEB expense and (2,477) as the amount of OPEB expense attributable to special funding from a non-employer contributing entity. The College also recognized revenue of (2,477) for support provided by the State.

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

For the year ended June 30, 2024, the College recognized OPEB expense of (129,529). Of this amount, (98,033) was recognized as the College's proportionate share of OPEB expense and (31,496) as the amount of OPEB expense attributable to special funding from a non-employer contributing entity. The College also recognized revenue of (31,496) for support provided by the State.

At June 30, 2025 and 2024, deferred outflows of resources and deferred inflows of resources related to OPEB are as follows.

June 30, 2025	Deferred Outflows of Resources			Deferred Inflows of Resources	
Changes in proportion and difference between employer contributions and proportionate share of contributions Net difference between projected and actual	\$	8,295	\$	7,789	
investment earnings		-		1,667

NOTE 7 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The College will recognize the \$13,086 reported as deferred outflows of resources resulting from OPEB contributions after the measurement date as a reduction (increase) of the net OPEB liability (asset) in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ended June 30,	Amortization	
2026	\$	(9,580)
2027		14,747
2028		(2,732)
2029		(1,141)
		4 204
	\$	1,294

Payables to the OPEB Plan

The College did not report any amounts payable for normal contributions to the OPEB plan as of June 30, 2025 and 2024.

NOTE 8 - STATE SYSTEM OF HIGHER EDUCATION INDEBTEDNESS

The College is a State institution of higher education and the College receives a State appropriation to finance its operations. In addition, it is subject to the legislative and administrative mandates of State government. Those mandates affect all aspects of the College's operations, its tuition and fee structure, its personnel policies, and its administrative practices.

The State has chartered the Commission with the responsibility to construct or renovate, finance, and maintain various academic and other facilities of the State's universities and colleges.

NOTE 9 - FUNDS DUE TO STATE AGENCIES

Amounts due to other State agencies at June 30, are as follows:

	 2025		2024
Department of Administration	\$ 13	\$	36
State Treasurer's Office	129		135
PEIA	-		216
WVNET	143		143
WorkForce WV	11,092		-
Department of Human Services	3,055		-
Office of the WV Attorney General	 <u>-</u>		65
	\$ 14,432	\$	<u>595</u>

NOTE 9 - FUNDS DUE TO STATE AGENCIES (CONTINUED)

The financial assistance agreement with the West Virginia Development Office (WVDO) in 2014 was for \$2,000,000 to construct an academic wing at the College's campus in Moorefield, West Virginia. The College will remit payments of \$16,667 each quarter beginning on September 30, 2015 until the debt is paid in full. The debt will be due in total on June 30, 2045. As of June 30, 2025, a total of \$1,333,333 is outstanding on this agreement. The total amount of loan payments made for the years ended June 30, 2025 and 2024 were \$66,667.

Future minimum payments related to the academic wing debt, as of June 30, 2025, are as follows:

Year Ending June 30,	 WVDO
2026	\$ 66,668
2027	66,667
2028	66,667
2029	66,667
2030	66,667
Thereafter	 999,997
	\$ 1,333,333

NOTE 10 - RETIREMENT PLANS

Substantially all full-time employees of the College participate in the Teachers' Insurance and Annuities Association — College Retirement Equities Fund (TIAA-CREF).

Effective January 1, 2003, higher education employees enrolled in the basic 401(a) retirement plan with TIAA-CREF have an option to switch to the Educators Money 401(a) basic retirement plan (Educators Money). New hires have the choice of either plan. As of June 30, 2025 and 2024, no employees of the College were enrolled in Educators Money.

The TIAA-CREF is a defined contribution benefit plan in which benefits are based solely upon amounts contributed, plus investment earnings. Employees who elect to participate in this plan are required to make a contribution equal to 6% of total annual compensation. The College matches the employees' 6% contribution. Contributions are immediately and fully vested. In addition, employees may elect to make additional contributions to TIAA-CREF, which are not matched by the College.

Total contributions to TIAA-CREF for the years ended June 30, 2025, 2024, and 2023, were \$256,716, \$244,294, and \$237,834, respectively, which consisted of contributions of \$128,358, \$122,147, and \$118,917 for 2025, 2024, and 2023, respectively, from both the College and covered employees.

The College's total payroll for the years ended June 30, 2025, 2024, and 2023, was \$2,503,381, \$2,445,238, and \$2,400,028, respectively; total covered employees' salaries in TIAA-CREF were \$2,134,885, \$2,034,531, and \$1,980,309, in 2025, 2024, and 2023, respectively.

NOTE 11 - FOUNDATION (UNAUDITED)

The Eastern West Virginia Community and Technical College Foundation, Inc. (the Foundation), which was incorporated in fiscal year 2001, is a separate nonprofit organization incorporated in the State and has as its purpose "to support, encourage and assist in the development and growth of the College, to render service and assistance to the College, and through it to the citizens of the State of West Virginia." Oversight of the Foundation is the responsibility of a separate and independently elected Board of Directors, not otherwise affiliated with the College. In carrying out its responsibilities, the Board of Directors of the Foundation employs management, forms policy, and maintains fiscal accountability over funds administered by the Foundation. Accordingly, the financial statements of the Foundation are not included in the accompanying financial statements because they are not controlled by the College and because they are not significant.

The Foundation's net assets totaled \$69,513 and \$3,069 at June 30, 2025 and 2024, respectively. The Foundation's net assets include amounts restricted by donors to use for specific projects or departments of the College and its affiliated organizations. Contributions to the Foundation, which are not reflected in the accompanying financial statements, totaled \$71,107 and \$53,411 for the years ended June 30, 2025 and 2024, respectively. Contributions made to the College totaled \$22,648 and \$14,302 for the years ended June 30, 2025 and 2024, respectively.

NOTE 12 - AFFILIATED ORGANIZATION

The College has an affiliation agreement with Eastern Workforce Opportunity Regional Center and Services (Eastern WORCS). Although Eastern WORCS has been created "to foster and support applied research and workforce development" at the College, it is a separate nonprofit organization incorporated in the State of West Virginia. Oversight of Eastern WORCS is the responsibility of a separate and independently elected Board of Directors. Accordingly, the financial statements of Eastern WORCS are not included in the accompanying financial statements because the economic resources held by Eastern WORCS do not entirely or almost entirely benefit the College. No contributions were made to the College during either of the years ended June 30, 2025 or 2024.

NOTE 13 - CONTINGENCIES

The nature of the educational industry is such that, from time to time, claims will be presented against the College on account of alleged negligence, acts of discrimination, breach of contract, or disagreements arising from the interpretation of laws or regulations. While some of these claims may be for substantial amounts, they are not unusual in the ordinary course of providing educational services in a higher education system. In the opinion of management, all known claims are covered by insurance or are such that an award against the College would not have a significant financial impact on the financial position of the College.

Under the terms of federal grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. The College's management believes that disallowances, if any, will not have a significant financial impact on the College's financial position.

For fiscal years on and after 2018, trend starts at 8.5% and 9.75% for pre and post-Medicare, respectively, and gradually decreases to an ultimate trend rate of 4.50%. Excess trend rate of 0.14% and 0.29% for pre and post-Medicare, respectively, is added to healthcare trend rates pertaining to per capita claims costs beginning in 2020 to account for the Excise Tax.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Governors Eastern West Virginia Community and Technical College Moorefield, West Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Eastern West Virginia Community and Technical College (the College), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the College's basic financial statements and have issued our report thereon dated September 30, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and responses as item 2025-001 that we consider to be a significant deficiency.

Report On Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses.

The College's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the College's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. The College's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Charleston, West Virginia

Suttle + Stalnaker, PUC

September 30, 2025

EASTERN WEST VIRGINIA COMMUNITY AND TECHNICAL COLLEGE SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2025

2025-001 SEGREGATION OF DUTIES (PRIOR YEAR FINDING 2024-001 AND 2023-01)

Criteria: Management of the College is responsible for establishing an internal control

structure that reduces to an acceptable level the risk of errors and fraud occurring and not being detected. An integral part of an internal control structure is effective segregation of duties, which involves assigning responsibilities for authorizing transactions, recording transactions, and maintaining custody of assets to different individuals, thus reducing the risk of errors or fraud occurring and not being

detected.

Condition: As noted during previous audits, due to vacancies in the finance office staffing

during fiscal year 2025, the Chief Financial Officer assumed multiple roles in the preparation of financial data. The vacancies have affected the internal control process by prohibiting separation in the custody of assets and by not allowing for

separate preparer and reviewer of finance office transactions and work papers.

Context: Total assets, deferred outflows of resources, liabilities, deferred inflows of

resources, net position, revenues, and expenses of the College are approximately \$14.4 million, \$27 thousand, \$2.3 million, \$13 thousand, \$12.1 million, \$7.2 million,

and \$6.8 million, respectively.

Cause: The purpose of segregating duties is to prevent fraud and errors from occurring or

detect and correct errors before causing financial misstatements. In order for internal controls to be effective, there must be a division of duties between those who perform accounting procedures or control activities and those who handle

assets. The College is unable to properly segregate duties to vacancies.

Effect: Transactions and work papers are not being reviewed and approved according to

procedures. Individuals are maintaining custody of assets and recording transactions for those assets, which does not follow established procedures. It is less likely that errors will be prevented or detected and corrected in a timely

manner without controls in place.

Recommendation: We recommend the College hire additional full-time staff, hire a third-party service

provider, or cross-train others within the College to prepare or review financial transactions to alleviate the multiple roles the Chief Financial Officer must assume while positions remain vacant. This will provide a control to aid in preventing,

detecting, and correcting possible misstatements.

Views of Responsible We agree with the findings and will take the necessary corrective actions as noted

Officials: in the corrective action plan attached.

September 30, 2025

West Virginia Council for Community and Technical College Education

Eastern West Virginia Community and Technical College respectfully submits the following corrective action plan for the year ended June 30, 2025.

Name and address of independent public accounting firm: Suttle & Stalnaker, PLLC, 1411 Virginia Street, East, Suite 100, Charleston, WV 25301

Audit Period: Year ended June 30, 2025

The finding from the September 30, 2025 schedule of findings and responses is discussed below. The finding is numbered consistently with the number assigned in the schedule.

FINDING-FINANCIAL STATEMENT AUDIT 2025-001 - SEGREGATION OF DUTIES

Recommendation:

We recommend the College hire additional full-time staff, hire a third-party service provider, or crosstrain others within the College to prepare or review financial transactions to alleviate the multiple roles the Chief Financial Officer must assume while positions remain vacant. This will provide a control to aid in preventing, detecting, and correcting possible misstatements.

Action Taken:

In November 2023, the College outsourced accounting responsibilities on a trial basis to an external CPA firm in an attempt to alleviate the excessive workload placed upon the Chief Financial Officer (CFO). It was determined that the return to an in-house accounting position would better fulfill the accounting needs of the College. Therefore, an accountant was hired in July 2024.

The newly hired accountant has been trained on and has assumed responsibility for many aspects of the job. However, there are a few areas of training that have not been completed. These items should be completed within fiscal year 2026.

If the West Virginia Council for Community and Technical College Education has questions regarding this plan, please call Trina Branson, CFO at 304-434-8000.

Trina Branson, CFO
